FORTY-FIVE TO THREE AGAINST NORMALITES

Hawley's Football Stars Make Fine Showing in First Game--Every Man Played Game to Finish--Many Hawkeyes Given Chance

Showing great versitility of attack, in which end runs and fierce line smashes predominated and backed up by an impregnable defense, Iowa crushed the State Teachers' eleven yesterday on Iowa Field by the overwhelming score of 45 to 3. At no time during the game was the Hawkeye goal line in danger of being crossed and save for the first two minutes of play, in which Mitchell of Normal negotiated a drop kick from the thirty yards line the play was in the Pedagogues territory throughout. This unlooked for event had no disheartening effect upon the Hawkeyes but instead gave them added stimulus and three touchdowns in quick succession by the Iowa backs smothered any hope that the Normalites may have allowed to linger within them.

The work of the Iowa backfield was sensational and stamps it as an aggregation to be feared by opposing elevens in succeeding games. Penningroth, McGinnis, Parsons and Dick circled the ends, smashed the line, and negotiated forward passes with seeming ease and accuracy, completely bewildering the Teachers by their diversified attack. The Hawkeye line was a veritable stone wall. Time and time again the Normal backs were thrown for losses or held for no gain. When line smashes came to nought the Cedar Falls men attempted to skirt the ends but this mode of attack proved equally futile.

During the second half Coach Hawley substituted an entirely new eleven for his regulars but the scoring continued with the same reckless abandon. The rooters can have no fear this year as to capable varsity substitutes for the second string men have a great exhibition yesterday and approached in excellence that of the varsity.

Climatic conditions were not conducive to good football. A drizzling rain fell throughout the contest, making the ball slippery and putting a premium upon fumbling. Nevertheless the Hawkeyes gave evidence of great ability to hang on to the pheroid despite its slippery condition and did not lose as much ground by fumbling as did their opponents. The wet ground made the footing insecure and probably played a large part in preventing an even larger score.

The Game

Iowa won the toss and Parsons kicked to the Normal twenty yard line. Fearing returned ten yards. Time taken out for Penningroth. Fearing gained three yards. Richards failed to gain. Normal forced to kick. Fearing thrown for a loss. Normal four yards around left end. Fearing fails to gain through the line. Normal worked a forward pass for ten yards. Richards failed to gain. Clapper gained one yard through the line, followed by Richards for two. Mitchell drops back for drop kick and from thirty-five yard line boots the ball squarely between the posts. Score: Normal 3, Iowa 0.

On kickoff Iowa returns the ball twenty yards. Dick goes ten yards. Penningroth goes thirty-five yards around left end. McGinnis goes one yard and Penningroth ten. McGinnis scores touchdown. Parsons fails to kick goal. Score: Iowa 6. Normal 3.

Parsons kicks off. Normal returns fifteen yards. Clapper fails to gain through the line. Fearing makes one yard through the line. Fearing fails to gain. A poor pass gave Iowa the ball in the middle of the field. End of first quarter.

Iowa penalized ten yards for offside play. Penningroth goes ten yards. McGinnis goes ten yards. Wet ball fizzles a forward pass for Iowa and ball goes to Normal. Richards fails to gain. Clapper kicks to McGinnis. Penningroth goes ten yards. Barron failed to gain. Dick skirted right end for twenty-five yards and made touchdown. Parsons kicks goal. Score: Iowa 13, Normal 3.

A forward pass Clapper to Hansen fails. Clapper kicked to McGinnis who returns fifteen yards. Penningroth goes through right guard for five yards. Iowa penalized five yards for off side. McGinnis hit center for eight yards. Dick goes round left end for twenty-five yards. Kirk fails to gain. McGinnis goes over center fifteen yards for touchdown. Goal kick failed. Score: Iowa 19, Normal 3.

Parsons kicked to Fearing who returned twenty yards. Richards failed to gain. Richards goes five yards through the line. Fearing makes first down. Richards fails to gain. A triple pass, Clapper, Fearing to Hansen netted Normal twenty yards. Richards thrown for a loss. Clapper fails to gain through the line. First half over. Score: Iowa 19, Normal 3.

Parsons kicks off. First kick went outside. Ball returned. Parsons kicked to Clapper who returned ten yards. Normal fumbled losing three yards. Forward pass Clap-

RUMOR SAYS NEW MAN COMING IN MEDICINE

GIVES CHICAGO AS HOME OF MAN BEING CONSIDERED FOR SURGERY CHAIR.

Vice Dean McClintock Refuses to Discuss the Subject But Does Not Deny It—Definite Action Soon.

Per sistant rumor around the medical college has it that a prominent Chicago surgeon is being considered for the chair of surgery. The rumor rowever, has not as yet been substantiated. Vice Dean J. T. McClintock declines to discuss the subject but does not deny anything. Some definite action is expected in the near future.

IROQUOIS MEETING

Iroquois will meet at 7 p. m. Tuesday evening in Close hall. Important business.

COSMOPOLITAN CLUB ENTERTAINS FRESHMEN

Ensign Klingenhagen and Peirce Are On Program of Speeches Last Evening

The new students of the university were pleasantly entertained last night by the Cosmopolitan club in the drawing room of the liberal arts building. This reception was of the nature of a mixer, most of the time having being spent in getting acquainted.

Conversation circles were formed to facilitate closer acquaintance and refreshments were served to small groups for the same purpose. Thus for the first time, perhaps, new students became well acquainted with the large number of foreign students who have entered the university this fall.

Dean of Men Ensign, Dean of Women Klingenhagen and Prof. P. S. Peirce were on the program of speakers. They welcomed the new men and women to the university and explained the work and purposes of the Cosmopolitans clubs.

HAWKEYE OFFICE IN OLD CAPITOL

Annual Has Been In Preparation for a Month and a Half

The office of the Hawkeye, the junior annual, will be in the basement of the Old Capitol this year. The editors and managers will occupy the northeast room, the first door to the left as one comes in at the north entrance of the building.

Editor Foley and Manager Brueckner have been outlining the general plan of the book and seeing to the business end of the publishing for about a month and a half. Thus they are getting work well in hand right at the first of the year and will thereby be able to put out the publication somewhat earlier this spring than heretofore.

The staff will be announced in the near future.

LAST TRYOUT FOR OPERA WILL BE TUESDAY EVENING

Many Tenors Needed to Fill Ranks For Production of Pinafore In December

A last chance to sing in "Pinafore" will be given Tues. evening at 7:30 after which no one will have the privilege of admission to the cast of this opera, to be presented at the "Englert" early in December. It is now known that the soprano ranks will be filled by Tuesday evening. A few more altos and basses can be used, and the only real need is in the tenor section, where about a dozen or more could be employed. Almost the entire first act is composed of men's choruses, something seldom found in operatic music, and the men are afforded an unusual opportunity. If you have a voice, come and enjoy the unique experience of performing in comic opera. De Wolf Hopper has revived the great Gilbert and Sullivan success, "Pinafore." It was seen in Chicago last season and will be played this year in the east. The last chance. Tuesday at 7:30, the school of music.

PHILO MEETING

A special meeting of the Philomathean society will be held Monday evening at 7:30. Important business.

THERMOMETERS TO GO UP TO SHOW INCREASE

GIRLS TRY NEW IDEA TO BOOST CAMPAIGN FOR MORE MEMBERS FOR ASSOCIATION

Will Be Placed In Prominent Places On Campus—400 Is Goal Set to Be Reached This Fall Before Banquet.

The thermometers, registering the daily increase in new members of the Young Woman's Christian association, will be put up Monday morning. With the number of new members the committees from the various classes obtained Friday and Saturday. The large thermometer will be placed at the right of the walk leading to the Old Capitol building, the smaller ones will be placed on the bulletin boards. The goal to be reached is four hundred new members.

The whole campaign will be brought to a climax on Wednesday evening by a recognition service at 4:30 where the old members will welcome the new. Following this, a banquet to all Y. W. C. A. members will be served at 6 o'clock. Only members of the Y. W. C. A. will attend this banquet, not all university girls as in former years. Toasts will be given by members of the advisory board and also by old and new members. This will take the place of regular mid-week meeting of Y. W. C. A. The campaign will close Friday.

The new girls joining are not asked to pay their membership dues when they sign the cards, but wait until due day, Oct. 21 when they will be paid. Miss Louise Barr, the general secretary of the association, wants the girls that join to feel that they are joining for a meaning. The number is not the essential thing, but the true feeling of the association membership.

THE HAWKEYE ARMY NOW ON THE INCREASE

Sergeant Rahming Announces 457 Cadets to Begin Work Next Tuesday

Beginning next Tuesday the university army will commence drill. 457 men have reported for duty to Sergeant Rahming. Of this number there are 130 from the college of applied science. The work of this year is starting out with a promising outlook. By the time of the arrival of the new commandant the work will be well started. Much interest is being taken in the military department this year.

Iowa is turning out men who can compete with West Point graduates for positions in the regular army.

(Continued on page eight)

MEN ASSIGNED TO DEBATING TEAMS

Practice Trial Debates Begun—Meet Illinois and Nebraska This Year

The debating squad chosen last spring in the tryout has been divided into the teams that will debate in December. Some informal practice and discussion was carried on as a preliminary to test the strength of the men, with a view to striking a balance of strength between the two teams.

Leonard H. Racker, Leslie Farnham and Harry M. Reed comprise the negative team that will clash with Illinois at Urbana; while Clarence B. Isaac, Theodore Garfield and Orville W. Harris will argue the affirmative against Nebraska at Iowa City. Two men only were on the teams last year, Racker and Isaac while the others are experienced championship and class debaters.

Coach Merry is now beginning practice debates between the two teams, but most of the time now is taken up in study of the question itself. The men meet every night with the coach and spend three to four hours in discussing the various points of attack and defense in the arguments to be presented.

The question is, Resolved, that immigration should be further restricted by a literacy test. The pros and cons of this question are very evenly balanced and require careful study, although there is probably not so much of statistical matter to be struggled with as in the proposition argued last year.

In matter of strength and experience, too, the teams are well matched, and after they have threshed out the immigration question in their many practice battles they should be able to put up a convincing debate against our eastern and western brothers.

This is an especially critical year in Iowa's forensic history. We now hold the middle west championship in debate by the margin of only one decision, the victory of Minnesota last year having lowered our record. Therefore, Iowa will exert all her forces to raise her record a notch or two higher and strengthen the title in the central debating circuit of America for the next year.

NEARLY TWO THOUSAND VOLUMES FOR LIBRARY

A Set of "Great Debates of American History" One of the Accessions

Since last June 1750 volumes have been added to the university library. This number includes books, periodicals and pamphlets.

Among the periodical sets which have been nearly completed are the studio and art journals. The first 24 volumes have been added to the studio and the first 37 volumes to art journal, making the sets nearly complete.

Debaters will be glad to note that the set of "Great Debates of American History" has been purchased. It is in fourteen volumes and is edited by M. Miller. It includes the great debates from the discussion in parliament over the stamp act up to the debates on the tariff in Taft's administration.

The exhibit of pictures in the reading room is a collection of photographs of paintings in the Chicago Art Institute purchased by Prof. C. H. Weller for the college of fine arts. The confederate money was given to the library by the United States government.

GET BEHIND THAT TEAM.

LANTERN SLIDES ON GEOLOGY TO SCHOOLS

From Fifty to One Hundred Slides to Be Sent for Use of High School Teachers

High schools of Iowa are to be furnished illustrated lectures on geology by the university. Eight sets of lantern slides, accompanied by a complete manuscript will be sent free of charge to the high schools upon request. Such was the announcement made by President John G. Bowman.

The lectures are almost ready. There are from 50 to 100 slides in each lecture. The subjects cover a wide range of physiographic topics.

Last year the university sent from its department of botany sets of slides to the high schools for the use of the botany teachers. This cooperation met with such a response that the authorities in geology decided to give similar aid.

The department of anatomy in the college of medicine has sent out sets of bones to aid the high school teachers in physiology. The number of sets has increased each year to meet the demand.

NEWMAN-C. F. U. RECEPTION

Last Friday evening at Company I hall a reception was tendered to the Catholic students by the Newman and C. F. U. societies. Short addresses were given by Mr. L. J. McGivern president of Newman and Miss Agnes O'Malley president of C. F. U. The latter part of the evening was given to dancing, music being furnished by Feeney and Krause.

This proved to be the most successful in years and all indications point to a prosperous and favorable year in Catholic circles. It is the aim of the two societies to furnish a common meeting ground for those of the Catholic faith and this is the first of a series of social events planned for the year.

PRINCIPLES OF ADVERTISING APPLIED BY STUDENTS NOW

At Second Meeting of Class Members Began Writing of Advertising for University

Members of the new class in "Principles of Advertising" have become adwriters.

At the second meeting of the class it was announced that each student was expected to write a full page advertisement of the university for use in The Iowa Alumnus, the monthly magazine published by the university of Iowa association.

According to the contract between the university and the alumni organization the back page of The Iowa Alumnus is devoted an advertisement of the institution. The "copy" is directed toward the alumni and the high school students of the state. With this idea in mind the students of the new class will each write their ads.

VOLUNTEERS MEET

The men student volunteers will meet at 9:00 o'clock this morning at Close hall.

The band of Nebraska university will send thirty men to Omaha to play at the Ak-Sar-Ben.

BUILDING AT NORTHWESTERN

Evanston, Ill., Oct. 4—With the new dormitories and fraternity houses in the final stages of construction, and a new history building about to be started the days of cramped space and incomplete facilities at Northwestern seem somewhere near the end. The new group of dwellings for the men was to have been ready at the opening of the school year, but a long cessation of work arising from labor troubles made such an event impossible. The students will probably be able to move into them about the first of the year. There are eleven buildings in all, seven of which are to house fraternities. They will cost about $400,000.

The new history building will be constructed during the coming year. The new structure, which will cost $150,000 is the gift of Mr. N. W. Harris, president of the Harris Trust and Savings Bank, and a trustee of the university. Mr. Harris' gift aggregates $2[illegible],000. The remaining $100,000 will be used in maintaining the building, and in endowing a department of political science. The announcement of the bequest was made by President Harris in chapel last Friday, and brought forth lusty cheers from the students.

CLOSE HALL THIS MORNING

The Sunday circle of Y. W. C. A. will meet at 9 o'clock in Close hall this morning. Katherine Montgomery will lead the meeting. The subject of her address is the "Fountain of Courage." All girls are invited to attend.

MICHIGAN ENROLLMENT IS INCREASED MUCH THIS YEAR

President Emeritus of School Dangerously Ill But Hopes Expressed for Recovery

(Special to the Daily Iowan.)

Ann Arbor, Oct. 4—Earliest registration figures obtainable today are as follows: literary department, 2492 as against 2201 last year. Law department, 514, last year, 599 (higher requirements.) Engineering department, 1370, medical department, 271, last year 221, dental, 258, last year 256, pharmacy, 95, last year 92, homeop, 85, last year, 81, graduate school, 144. Total 5229, exclusive of summer school students.

Dr. James Burrill Angell, the aged and reverend President Emeritus of the university was stricken last Saturday with heart failure, after which pneumonia set in. Monday and Tuesday no hope was extended for his recovery, as he is nearly 84 years old. Today, however his physician declares that unless some complications sets in, we may hope for recovery. The recovery is at best doubtful and sadness pervades the Michigan campus.

Kansas university has taken steps to stamp out discredit reflected upon the institution. Two students who are correspondents for outside papers have been suspended for writing stories that some of the fraternities were planning weekly 'tango' dances. The societies say the report is false and the students must prove their claims.

AUTO POLO STAGED FOR GAME BY THE ENGINEERS

Ever Ready Entertainers Play Between the Halves at Opener Yesterday Afternoon

An auto polo game was the little pastime indulged in by the applied science students in their part of the game yesterday. As usual the ever ready engineers were up to the minute and put on the latest thing possible.

Running gears of buggies were used by the poloists and the usual danger of the sport was limited to some extent. The crowd was appreciative never the less. The entertainment was a pleasing division from the game itself and many compliments were heard on the originality of the college in its selection.

BREAKFASED UP RIVER

The girls of the freshman Y. W. C. A. committee for getting new members went up the river in a launch Saturday morning to take breakfast. The committee of the other classes will probably do something of this sort, although the plans have not yet been definitely made.

TOWER BEING BUILT FOR BIG PHOTOGRAPH

Students Will Marshal Themselves for Big Group—Tentative Plans Being Made

A tower is being constructed for the photographer who will take the picture of the entire student body of the university next Friday afternoon at 4 o'clock on the sloping terrace west of the new physics building. This structure is being built under the direction of J. M. Fisk, superintendent of the department of grounds and buildings.

The marshaling of the immense student body will be accomplished by the students themselves. According to a tentative plan already outlined there will be a representative in each class who will urge every member of his class to appear in the huge photograph. He will also be given the credit for the percentage of attendance. It has been suggested that the class which furnishes the largest percentage of its enrollment have its name published.

Another suggestion has been made that the women students of the university be placed in the foreground of the picture, the men in the middle with the faculty members in the rear.

A detailed plan for the taking of the picture will be made later this week.

Ex-President Taft will deliver a short address at the dedication of the Graduate College buildings and the Cleveland Memorial tower on October 22.

The University girl's club of Nebraska named October 1 as tag-day and on this day they sold tags at thirty-five cents each, the proceeds of which will go to take care of ladies who are taken sick during the year.

THE FRESHMAN

"Where, oh where, are the verdant freshmen?" They came, they were of a palatable emerald hue, so they were taken to shelter. The process of assimilation is now on, and it will continue until they graduate. Some are down to brass tacks already, others stand around as though dazed by the change of habitat while still others are wondering when it will be a propritious season to begin their real work. It takes some people a life-time to appreciate the wonderful possibilities wrapped up in every twenty-four hours span of existence.

Everybody has a philosophy of life, the difficulty is that most of us fail to realize it. The few fortunates who are animated by a philosophy of worthy activity are the exceptional successes. If our philosophy admits of the squandering of valuable time, we might just as well admit it, and not deceive ourself by the delusion that we will make up *for lost time in the future. The future will be filled with problems* of its own. The college life of the great proportion of students is crammed within four short years, and then comes the stern responsibilities incident to settled vocational activity. Into this period, your college habits have the peculiar and oftimes uncomfortable faculty of projecting themselves. It is an overlapping of the desirable and undesirable from which there is no escape.

Follow all the sports if you will, keep spinning in the social whirl, keep up with all the side-shows, but remember that the law of compensation is right on the job. The fellow who spends his time in chasing the unknown quantity into dark recesses of the night will in all probability have the adjoining office to yours, when you get ready to hang out your sign and then your pink tea affectations and thin social veneer will be of little avail when placed in competition with four years of consistent and persistent development and training.

THE THING TO DO

It has been intimated that the religious influence of the university was not up to par. Such intimations, however, have been ignored by those who are acquainted with the university. We believe that the state university of Iowa is far ahead of simliiar institutions in this matter. The Christian associations take a foremost part in many of the student activities. The welfare of the student body is eagerly sought by both associations and the great good which they are accomplishing is apparent.

At the present time both the Y. M. C. A. and the Y. W. C. A. is putting forth every effort to increase the membership. Every student should be a "Y" member. It puts the individual in touch with the highest things in life. It affords a foundation for moral social welfare wnich cannot be overestimated. The best men and women in the university are found in the ranks of the Christian workers.

If, during the next few days you are askel to join the Y. M. C. A. or the Y. W. C. A. do so by all means and you will never regret it.

TWO YEARS LOST AT SCHOOL

Henry A. Perkins in the October "Yale Review" remarks that there is a difference of two years in the intellectual ages of students in America and in Europe. His observations throw some light on that problem of the university's growing up. He says:

"That this disparity exists and amounts to nearly two years less work for us, is evident to any impartial critic who looks over the ground covered by an American and European boy who have reached the university age, say, about nineteen years. If, for example, one wishes to explain to a Frenchman what one of our colleges is like, it is necessary to tell him that the first two years here correspond to the last two of a French lycee, and that our Junior and Senior years are about equivalent to the first two years of his universities. As the average European boy goes to the university before he is nineteen, the fact that we have somewhere lost two good years of educational product is obvious.

"Two lost years in a world as exacting as ours, when the tendency is to enter active life later and later, is a serious arraignment. Possibly this loss is inevitable under our conditions of climate, government. Possibly more is gained than lost in thus reaching a given intellectual level two years later than it done elsewhere. But it is certainly worth while to try to find out when the time is lost, how it is lost, and whether the loss is inevitable or desirable."

MY TAILORS
FOR
FINE TAILORING

A thorough course in cutting by the Jackson System as taught in New York City, Fifth Ave., and also by the Dresden System as used in Berlin, Germany, assures his patrons work of exceptionally high class.

We give you all the advantages that the art of tailoring has to give.

First:—The choice from one of the most complete selections to be found anywhere.

Second:—Styles as they are today.

Third:—The utmost care in making. The highest class of work on everything always.

Fourth:—We are content with modest profits. Less rent and smaller expenses of doing business on the second floor enables us to give you much better value for the same money than you usually get.

Iowa Defeats Normal

(Continued from page one.)

er to Hansen gains three yards. lapper thrown for loss. McGinnis eturns Clapper's kick ten yards. A oor pass caused Penningroth to be rown for a loss. Dick goes twen- yards around left end. On a for- ard pass, Parsons to Penningroth, he latter runs forty yards for a ouchdown. Carberry goes in for owen. Currell goes in for Hough- on. Parsons kicks goal. Score: owa 26, Normal 3.

Parsons kicks off and Meyer re- urns five yards. Richards fails to gain. Whitford fails to gain on forward pass. Iowa penalized five yards. Mitchel fails to gain. Triple pass Clapper, Fearing to Hansen was incomplete. Schulte goes in for Kirk. Eason goes in for Baron. Iowa's ball. McGinnis goes one yard. Dick skirts right end for eight yards. Carberry kicked to Meyers. The wet ball made the kick go straight in the air. Normal's ball. Richards goes fifteen yards around left end. Quarter over. Score: Iowa 26, Normal 3.

Wills goes in for McGinnis. Donnelly for Dick. On shift play Fearing goes one yard. Gross substituted for Parsons and Garretson for Penningroth. Richards fails to gain. Donnelly throws Clapper for a loss. The latter fumbles and Wills recovers. Donnelly fails to gain. Wills hits the line for five yards. Gross circles left end for five yards. Wills gains four yards. Garretson gains three yards. Garretson plunges for five yards. Gross goes fifteen yards around the end. Garretson goes one yard. Gross plunges through for a touchdown. Chase goes in for Gunderson. Wills kicks goal. Score: Iowa 33, Normal 3.

Garms goes in for Wilson. Brueckner kicks off to Fearing who returns twenty yards. Fearing gains one yard. Fearing throws forward pass in Donnelly's hands. Donnelly skirts left end for forty yards. Ball on Normal one yard line. Wills goes for a touchdown. Wills fails to kick goal. Score: Iowa 39, Normal 3.

Brueckner kicks off to Fearing who returns fifteen yards. Normal's ball on their own forty yard line. Iowa penalized ten yards. Forward pass net Normal ten yards. Normal takes time out. Wills recovers Mitchell's fumble and carries ball ten yard. Gross makes one yard. Donnelly makes first down through the line. Garretson fails to gain. Wills fails to gain. Forward pass, Gross to Garretson nets another touchdown. Swisher goes in for Gross. Iowa misses goal. Score: Iowa 45, Normal 3.

Brueckner kicks off. Normal's ball in the center of the field. Normal fumbles and recovers. Garretson recovers a forward pass. Gilliland substituted for Chase. Swisher goes round right end ten yards. Game over. Score: Iowa 45, Normal 3.

Line up: IOWA—
Bowen, re
Kirk, rt
Brueckner, rg
Houghton, c
Wilson, lg

COMING EVENTS

Wednesday, October 8—Reception for members of the faculty at the president's home, 8 p. m.

Saturday, October 11—Iowa vs Cornell on Iowa field.

Saturday, November 8—Iowa vs Indiana on Iowa field.

Saturday, November 15—Iowa vs Ames on Iowa field. Big homecoming.

Monday, November 24—Second quarter begins.

Wednesday, November 26 Thanksgiving vacation begins at noon.

LONG DISTANCE MEN ARE BUSY

Cross Country Squad Putting In Lot of Hard Work These Days

Getting ready for that big conference race at Ohio, on November 22, the cross country squad is putting some hard licks these days. Under the able coaching of Jack Watson, the men are already showing up some mid-season form. At the present time the prospects for a fast team is very good. Captain Sumner is urging on the men as they never before have been urged. Several veterans on the team back of him is a factor which cannot be overlooked. Mather is one of the veterans making good. He is showing some great form and by the time for the big race he will have no peers in the west.

A large number of men are taking an interest in the cross country work this fall. This one fact alone means a great deal to Iowa. For several years there has not been enough interest in the work to develop representative teams but this year there is a change. For track work next spring, this fall work is the salvation. Some exceptional material is showing up this fall which means that the distance men for the track team next spring will not be wanting.

There is yet time for the men to get out and get in trim before the cold weather sets in. The main thing for the men who wish to enter track athletics next spring is to get out and get acquainted with Mr. Watson and his methods.

IN THE PICTURE WORLD

The rapid growth of the motion picture business has caused many changes during the past few months. One of the notable movements is the organization of a company which takes for its object "Quality." not "Quantity." Organization of any business is the primary factor to success and because of this several companies engaged in the manufacture of films withdrew from the original organization forming Mutual film company.

Among the companies forming the new organization are The American, Majestic, Kay Bee, Domino, Broncho, and Thanhouser. Many managers over the country are eagerly seeking to get exclusive control of these pictures for their city. Mr. Dever, manager of the Pastime has secured this service and beginning Monday will offer to the public a line of movies that cannot be challenged by any other manufacturer in the world.

PEOPLE OF INDIA WILL LEARN OF UNIVERSITY

Slides to Be Used by Das In Lectures On Student Life in United States

Publicity concerning the university will reach India this year. Permananda Das, a former student in the college of pharmacy, will give an illustrated lecture in his own country on "Student Life In America" and in this lecture he will use many slides furnished him by the department of publicity.

A special slide was prepared with a word of greeting on it from President John G. Bowman. It read as follows: "My dear Mr. Das,—Success to you in your work in India. A boy from Iowa and a boy from India has each a chance to make a leader of himself at the university of Iowa. Both are welcome to the best we have. I am etc."

Mr. Das is in India as the representative of a leading Philadelphia chemical concern and he also represents one of the leading optical companies at Rochester, N. Y. His work takes him to all the principal cities in India where his lectures on "Student Life In America" will be given.

TO PLAY LAKE FOREST

Evanston, Oct. 4—The first football game of the season with Lake Forest college is less than a week away, and the Purple coaches are giving the squad a severe workout. Some thirty men are practicing regularly and Coach Grady, together with Coaches Omer, Schommer, Scriner, and Seiler are seeing to it that every man is in the best possible condition.

BOOST FOR IOWA ALWAYS.

HAZING AT MICHIGAN

Ann Arbor, Mich., Oct. 4—Considerable hazing has been going on here this week despite the vigilance of the faculty and the efforts of the student council to prevent it. The council has declared its intention of dealing summarily with all offenders, expelling the guilty ones.

CAMPAIGN ADVANCING

Fifty men started the Y. M. C. A. membership campaign yesterday in dead earnest under the leadership of A. H. Gunderson, chairman of the membership committee. There are ten teams of five men each. The ten leaders are: A. H. Gunderson, G. G. Gabrielson, Frank Menagh, Carl Brueckner, Anders Mather, Carl Jordan, Ben Frank, H. A. Wolcott, Don Rogers and G. E. Davis.

There is a great deal of enthusiasm shown in view of the fact that John R. Mott, the world's leading religious statesman will be at Iowa some time this year. Around the coming of this man the work of the year is centered and success is predicted.

With six letter men back, Coach Yost of Michigan has cut the varsity squad to twenty-nine and claims they have prospects for the strongest line in their history.

Prof. Banks of Harvard has sent six Babylonian tablets to the university of Minnesota. These tablets are about 4700 years old and tell much of the life and customs of that time.

Coach Christie of California expects to send eighty track men to the championship meet at Portland, October 25.

GET BEHIND THAT TEAM.

PASSES QUARTER OF A THOUSAND ENROLLMENT

UNIVERSITY EXCEEDS COVETED 2500 BY BIG MARGIN AND SAILS MERRILYON

Biggest Gains Made In Liberal Arts Dentistry, and Engineering—University Taxed to Its Capacity Says President Bowman.

Final registration figures for the university show a 22 per cent increase over the enrollment one year ago.

The total yesterday was 2629 according to the statement made by Registrar Forest C. Ensign. On the corresponding day a year ago it was 2145 and on the same day two years ago it was 1965. The university has over one-third more students than in 1911.

The most notable increases are found in liberal arts, dentistry and engineering, although the pharmacy and graduate colleges have made substantial gains. The series of figures in liberal arts follows: 1911, total 1142; 1912, total 1194; and 1913, total 1476. There are 218 engineering students this year as against 163 last year, and 142 in 1911.

The forward steps in dentistry follow: 146 in 1911; 163 in 1912; and 237 in 1913. The college of law is five students ahead of the same time last year, and the college of medicine and the nurses' training school are 18 students in advance of the 1912 records.

"The university is taxed to its capacity," said Professor John G. Bowman, yesterday. "Every bit of equipment is in use. For example, not a microscope is idle. All the chemical tables are taken and the carpenters are making more. Every old chair the university possesses is in service in order to seat the students in the class rooms."

The Y. W. C. A. of Minnesota is using a novel device in their membership campaign, which consists of a ladder bearing a flag that can be raised one rung at a time. The flag will be run up one degree for every twenty-five members.

The taboo has been put on hazing at Michigan and all students caught in the act will be expelled according to the ruling of student council. They also are against the shooting of firearms in the bleachers.

M. E. CHURCH

Bible school at 9:30 a. m. Twelve classes for students.

Public worship 10:45. Sermon by the pastor. Theme, "The Sacrifice Life."

Epworth league, 6:30. The university pastor will speak.

Public worship 7:30. The pastor will preach. Sermon topic, "The Judgment Here and Hereafter."

A cordial welcome to all.

Sylvester E. Ellis, pastor.

Lewis F. Townsend, university pastor.

UNITARIAN CHURCH

Iowa Ave. and Gilbert streets.

Study class at 10 a. m.

"A Critical Study of the Life and Teaching of Jesus."

This class will meet every Sunday during university terms. Conducted by the minister. Most scholarly and modern of views of the morning and value of the greatest personality in the Christian world will be presented.

Subject, "What the University offers to the Undergraduate, From the View of One.

Speaker, Miss Hertha Falk, '15.

PRESBYTERIAN STUDENTS

Presbyterian students and students with no preference are urged to attend the services of the Presbyterian church.

There are regular courses in the Sunday school for students, taught by competent teachers, 9:30 a. m.

The morning church service consists of the sacrament of the Lord, at 10:45 a. m.

In the evening the Christian Endeavor has a special rally day service, with a program at the 7:30 hour.

As representing the Presbyterian churches of the state of Iowa, and university pastor of the Presbyterians in the university, I call your attention to this privilege which the Iowa City Presbyterian church offers.

Elmer Allen Bess, University pastor for the synod of Iowa.

HOMECOMERS WILL BE HERE IN NOVEMBER

MANY GRADUATES ARE EXPECTING TO RETURN TO SEE IOWA AND THE AGGIES

Letters Being Received Daily by Alumni Association — Ames Alumni Secretary Cooperating to Help Swell Crowd.

"I hope to be with you on November 15."

Thus wrote State Senator J. F. Webber of Ottumwa to the university of Iowa association, the organization which is boosting the second annual alumni homecoming to be held at the time of the annual football game with Ames.

Many other letters are being received by the secretary of the association of S. U. I. graduates and former students. The alumni of the university of Iowa are interested in the event as never before. After the first annual homecoming a year ago a letter was sent out by the alumni bureau enclosing a souvenir in the shape of a little pennonette. These letters were mailed to prominent graduates who did not come to the first event. This move created much additional interest in the annual "friendfest."

There is also great interest being manifested in the homecoming by the Ames graduates and former students. Ward M. Jones, secretary of the State college general alumni association is co-operating with the S. U. I. association to advertise the event. An article is being published in the October number of the I. S. C. alumnus through the kindness of Mr. Jones.

The local authorities are busily engaged in arranging a comprehensive program of entertainment for the visitors during the homecoming. A big mixer after the mass meeting Friday night, unique athletic events on Saturday morning, a luncheon Saturday noon, "Football Night" at the Englert and receptions are among the features which have been suggested.

The university's lepartmet of publicity is in correspondence with a series of moving picture producers and bids will be received in the near future. It is hoped to have two reels made of the homecoming.

ALBERT TELLS OF COLORS IN GREAT NATIONAL PARK

Interesting Illustrations are Feature of Excellent Address Before Baconian

Prof. Henry Albert, head of the department of bacteriology in the university gave an illustrated lecture on Yellowstone Park before the Baconian club Friday evening.

Dr. Albert spoke at length on the wonderful coloring to be found in various parts of the park and to illustrate the poitns of special interest he reproduced on the screen pictures of the hot springs, geological formations, canyons, and geysers. Specimens were displayed showing the various colorings in the rocks.

BOOST FOR IOWA ALWAYS.

MANY BOOSTERS OUT FOR FIRST MEETING

Hawley Says Iowa Crowd Is Getting More Peppery Each Year— Much Iowa Spirit

The first mass meeting of the year was staged last evening in the natural science auditorium as per schedule. The crowd was the largest and most enthusiastic that has attended an initial mass meeting in the past seven years. The girls turned out and had a large crowd there from Currier hall, Svendi, and other co-ed homes. The band was there and treated the crowd to some selections before the arrival of the squad.

The yells were led by Pete Fischer and Altfillisch. The boys all had strong lungs for the opening contest and put up a good exhibition of vocal gymnastics. Pat Meloy presided at the meeting and called upon Hawley, McGinnis, Dr. Osborn and Adams for talks. Jack Watson was to have given a speech but refused to come out. He says that he has been turning out athletic teams for eighteen years and that in all that time he has never made a speech.

The general attitude of the crowd was full of Iowa spirit and according to Hawley this is growing by leaps and bounds. The crowd was orderly and the entire meeting was free from certain things which have marred the pleasure of former meetings.

The ball of enthusiasm was kept rolling during the entire evening. The outlook for a winning team is bright and a spirit of optimism was shown by all the speakers.

Dr. Osborn said that prospects for a winning team were never better. "Our old 'Jinx' had a sunstoke last summer and has been unable to come back this year and there is a noticeable lack of knockers," was the way Dr. Osborn put it.

"The team and the rest of the school should work together," said Captain McGinnis, "no one can estimate the value of a school behind a team. You rooters must make the team feel that we must whack them off the earth."

Coach Hawley said that fight and spirit were essential to a winning team, a spirit of loyalty whether the team wins or loses. "Put the do or die spirit in the fellows," said Hawley. "The alumni all over the state are back of us."

Assistant Coach Adams gave a short talk on how they play the game at Brown, emphasizing the fact that there are no knockers there. Pat Meloy presided and Pete Fisher assisted by Altfillisch put the pep into the crowd.

INCREASE AT NORTHWESTERN

Evanston, Oct. 4—The dean's and registrar's offices have been overwhelmed by the increase in the number of students. Complete figures will not be available for some weeks, but it is generally reported that the freshman class is about 20 per cent larger than that of last year. A larger proportion of old students have re-entered college than in previous years. It is very probable that the attendance in liberal arts will approach 1500, and that the students in all the departments will total very nearly 5000.

PROSPECTS AT KANSAS GOOD

Kansas University Football Season Opening With Prospects for Good Team

Lawrence, Kan., Oct. 4—When the university received word this fall that Capt. Bramwell would not return, disappointment was felt by all the K. U. followers of football. His effective work on the team last year elected him captain and the rooters knew his place would be hard to fill. "Bill" Weidline, the husky tackle of last year was elected to lead the team.

The new material shows up well and gives promise of capably filling the places left vacant on last year's team. Bishop has been placed at end by the coaches and while he has not much experience at that position, he is showing up well. Burton has given the tackle position and all expect him to do damaging work to any team's offense. James, another one of last year's freshmen can be counted on to do effective work at guard. Reber will do good work at the other end and Hammond at center will give some one a hard fight for the position. "Rusty" Russel, quarterback of last year's freshman team, will add strength to the quarterback material. Among the old men back this year are: Weidline, Wilson, Steuwe, Tuder, Householder, Detwiler and Parker.

Another thing which brightens the outlook for the followers of the Crimson and Blue, is that Hargiss, formerly coach of the college Emperia been added to coaching staff. By this addition, the team should be materially strengthened as Hargiss is a good football man and has turned out some good teams.

K. U. has the following list of games on her schedule:

Oct. 4—William Jewell at Lawrence
Oct. 11—Washington at Lawrence
Oct. 18—Drake at Lawrence
Oct. 25—K. S. A. C. at Manhattan
Oct. 31—Oklahoma at Norman
Nov. 8—Washburn at Lawrence
Nov. 15—Nebraska at Lawrence
Nov. 22—Missouri at Columbia.

HEAR GOOD MUSIC

In these days of athletic enthusiasm we are apt to forget some of the other attractions of college life, and some of the things that we can get here, that are entertaining, instructive and uplifting.

Probably nowhere else could we hear as good music at such little cost as here. The music series which begins next Thursday evening with the famous Steuidel trio from Chicago, is the leading social and entertainment function of the college year. The very highest artists are heard from year to year in this series. This year the best that has ever been offered will be presented to the student body and the people of the community. You will not get all that you should get from your college life if you miss this fine series of musical recitals. In another column you will find a statement of the artists who are to be heard and the prices.

The price of a single season ticket without the reservation charge would be asked in Cedar Rapids, Des Moines or Chicago for one concert to be given by the famous soprano, Frances Alda and her assisting cellist and accompanist. Just think of hearing five concerts by the leading musicians in this country and Europe. No student can afford such an opportunity to hear the best that the world affords in music.

Hawkeye Army on the Increase

(Continued from page one.)

Each year the people of the United States are becoming more aware of the fact that it may sometime become necessary to send men into the field against a foreign army. This has given drill a boost at all schools.

One fact that may not be known to many of the present students is the history of military training at Iowa. For over forty-five years cadets have been parading the campus. In early days there was no armory but a regular army officer was on duty here and drill was required of students in liberal arts. A place to serve as a cadet armory was first established in the basement of the Old Capitol and from there the students marched up and down Clinton street, learning army tactics.

The men went when needed, too. At the time of the Civil war it was said that there were scarcely any men in university classes.
