Committee on Medical Department.
The Medical Committee of the Board of Regents held its meeting Tuesday. There were present Regents A. W. Swalm, of Oskaloosa, and B. F. Osborn, of Rippey, the other two members, Regents Alphonso Matthews, of Dubuque, and C. A. Stanton, of Centerville, not being able to be here. Hon. D. N. Richardson was also present by special request.

A good deal of committee work was done and sundry resolutions were passed to be acted upon by the full board at its meeting in June.

Athletic Meeting.
A called meeting of the Athletic Association was held Tuesday afternoon, but owing to the ball game that was in progress at the park a comparatively small number of the members were present. Some routine business was gone through with after which the committee appointed to draft a new constitution for the Association made its report. The report was received and motion was made that the adoption of constitution be made a special order of business for Saturday, 1 p.m.

Law Class ’69.
A picture of the Law Class of ’69 which has been stored among the archives of the department for a long time, has been brought to light and hung in the general lecture room of the Law Department. This was the first Law Class to graduate from the department after it was removed from Des Moines to Iowa City. With this picture the collection is complete.

Freshman Contest.
The Freshman declamatory preliminary will be held in South Hall next Saturday at 10 o’clock. It is desirable that every man who can should enter this contest.

The University Tax.
[From the Iowa State Press.]
While we all regret that the University tax bill did not pass, even in the reduced amount reported by the House Ways and Means Committee, it is certain to come in the future. The position is almost new to Iowa. In 1860 the measure could not be got through the Committee; this time it was favorably reported, and on the floor forty-two affirmative votes recorded. We can do no less than mention the cordial aid and hearty support given this proposition by able men on both sides of the House, first, by Hon. John F. Dayton, of Allamakee, whose strong speech in its favor commanded attention and respect; he does not often speak at length, then only on matters of importance, and in such cases no member’s words have greater weight. So hearty and so sincere was his aid and so kindly and helpful his efforts that we are sure they will never be forgotten or minimized by any alumnus or friend of the institution. The very fact that so conservative and careful legislator as Mr. Dayton gave his voice and influence to the measure gained for it many friends. Hon. Irving B. Richman, of Muscatine, an alumnus of the University, who was for the second time a member of the Legislature, and whose influence and marked strength was freely given to his alma mater, and with most benevolent results. Messrs. J. C. Beem, of Keokuk, who was in the House for the third time and R. W. Briggs, of Potawattamie, for his second term both graduates of the Law were active in their efforts to lift the institution from the position of a biennial suppliant for State aid. Then there were Messrs. Ware, of Council Bluffs, Hornish, of Keokuk, Hipwell, of Scott, Johnston, of Bremer, Felker, of Cedar, Morrison, of Tama, Robinson, of Marion, Gilbert, of Clayton, and Chamberlin, of Buchanan, and others of old and new members, whose freely given and efficient aid will be long remembered.

On the Republican side of the House Mr. Norris, of Dallas, one of the strong leaders, was active and zealous in his efforts for the tax bill, he is an alumnus of the Law, and looks to the time when the University shall be made the great educational head of the State with adequate recognition and support. So was Mr. Crawford, of Cass, who introduced the bill, and who, as Chairman of the Schools Committee, is especially interested in educational progress. Other active friends of the measure were Mr. Harriman of Franklin, Mr. Morrow, of Union and Mr. Dolph, of Hardin.

The fact that the other States about Iowa are giving to their universities permanent State support, and thus recognizing them as a part of the school system leaves Iowa at a great disadvantage in the competition for education.

The next General Assembly should enact a law giving to the University proper recognition and support.

The catalogue of the University of Pennsylvania makes a very creditable showing for that institution. It now ranks fourth in number of students enrolled. The three that lead are Yale, Harvard and the University of Michigan. The number of students is 1,764 and the teaching force numbers 397. Twenty-eight foreign countries and every State and Territory in the Union except three are represented among the students. The catalogue is an indication of the growth and prosperity of higher education in the State of Pennsylvania. Iowa ought to take rank with Pennsylvania and Michigan as an educational center, but it doesn’t.

The Vidette-Reporter

The Senior class of the State University of Illinois have abandoned the idea of having commencement speakers, and in its place they have invited a noted educator, who is to deliver the address on commencement day. This is a good move and one worthy of imitation by the other universities of the northwest. Commencement orations belong, not to the University, but to the high schools and the smaller colleges. It is impossible to expect that even the best student can produce a production which will even approach in value that of an older and more experienced speaker. The people at Commencement expect, and have a right to expect, something rich in the way of literary material. The student can not give this. Besides, commencement orations, as a rule, are dry. An address by a leading lecturer adds dignity to the occasion. The students receive an inspiration not found in college oratory. Altogether the plan adopted by the students of the University of Illinois is a good one, and we doubt not that other institutions in the west will soon adopt the same plan.

The Chicago Board of Education is to deliver the address at the commencement of the University of Illinois.

LADY'S HOSIERY

At Commission Price.

Ladies, do you remember that when you buy of the retailer, you are paying three unnecessary dollars? The manufacturer sells to the commission house, the latter to the jobber, and the jobber in turn sells to the retail merchant. You must pay to the manufacturer a profit first, and then pay each of the subsequent hands a profit, not infrequently paying two profits to the retailer. The Manufacturer’s Commission Co. is a responsible corporation which sells direct to the consumer. By investing in manufacturers’ samples, odds, and odds, left overs, and the stocks of insolvent manufacturers, in connection with our regular commission holdings, we are able to sell to the consumer direct at the commission price, which is but one remove from the manufacturer’s.

While this company handles all kinds of ladies’ furnishings, we are making a special drive on the hosiery, mainly to introduce our name to your territory and establish a reputation for giving values never before offered, so that you will be fully prepared for our later announcement of our entire line. Read the following offers.

Ladies’ full length, fashioned, fast black hose, 40 cent pattern, retailing everywhere at 25 to 35 cents per pair we will sell at 18 cents, or half a dozen at 90 cents.

Ladies’ extra length, full regular made, fast black and white and sheer hose, very finest pattern retailing everywhere at 30 cents, we will sell at 25 cents, or one half dozen for $1.50.

We pay express charges, and agree unconditionally to refund money if hosiery is not the value and quality described. Be sure and see size wanted, and remember that as we pay the express we cannot afford to send less than one half down.

Orders must be accompanied by cash or money order postal note, stamps or registered letter, addressed to the MANUFACTURERS’ COMMISSION CO., 227 W. Thirteenth street, Chicago, Ill.
