VOL. XXV. IOWA CITY, THURSDAY, MAY 11, 1893.

The Delta Gamma initiated Miss Montgomery into their fraternity last evening.

Baccalaureate Sermon.

The Rev. Herman W. Dickey, D.D., pastor of the First Baptist Church in Des Moines, has been invited to dei- liver the Baccalaureate Sermon on Sunday, May 16, and has secured his acceptance at the institution.

Committee Men's Tea.

Some fifty of the recently appointed Y. M. C. A. committee members assembled in close hall Tuesday evening and held their annual tea. The entertain- ment committee had provided a goodly repast which the men thoroughly enjoyed. After the chairs were moved back from the table, President Hamilton called upon several of the committee chairmen to talk during the work of the coming year. Lovell, W. H., of the devotional com- mittee, Battelle, B. M., social committee, Allen, W. H., membership committee, were present. The several study committees reported briefly but appropriately. This tea is intended to strengthen the acquaintance and fellow-feeling among the Association members, and we think it was a success.

A Page from Professor Nutting's Letter.

Baltimore, May 3, 1893.

* * * This will probably be the last opportunity to write to you be- fore I leave, and therefore I feel very much inclined to say some- thing of our preparations as now about com- plete, the rains being the only unfavorable circumstance with which I have had to cope. I have had an old signal flag flag, with S. U. I on it, in good big letters. It will be unfurled to-morrow and will double as a general warning signal and a flag of signal books. The "Emily E. Johnson" is now the most noted schooner at this port and has been visited by numerous malsters who have never seen nothing like it before.

S. U. I and Osceola are with us. The freight arrived safely, and the schooner was overhauling the work of the coming year, waist mounted on an error by Botbne, Clarkson made a single to left center and Botbne struck out. Olson made a two bagger to center and lawson brought in an error, Tuttle caught a line runner on second but was caught 15 feet away in attempting to steal second. Dawson took first on balls, and was doubled up with Converse from Juni for Thorsgaard and to Olson in a quiet and pretty double play. Lindsay made a two bagger to right and Gillette followed with a high fly, which Thorsgaard took in.

Botbne struck out and O. Torrison flew out to Lindsay. W. Torrison was at first on a quick throw from Bwell. Blair went out from Botbne to Olson. E. P. Olson, who took the bat and was held out on a neat play by Blair. Olson went out to first and Botbne struck out. Two runs 3 to 0 in favor of Luther College. Chantland fouled ball. Olson made a single to center and made second, Dawson fanned out and Converse did the same thing.

Botbne made first on Tolle's error and O. Torrison hit a long fly into the tree in center field for two bags. W. Torrison went out to first and Botbne scored on Tolle's error. Juni struck out. Lawson made a double, Torrison scored, and Lawson got third on a series of errors, and scored on more. Ness struck out. Score 7 to 7.

Linden opened with a single to right. Gillette struck out and Olson went out on a neat play from Juni to Blair. Blair struck out and Ness fanned out.

Juni went out on first and Gillette struck out and Blair did the same. Olson got first on a bad error by Tuttle, and Thorsgaard hit to Lindsay who threw over second. Botbne hit to Juni, who threw Olson out at third. Botbne was caught in the second. Gillette went out on a neat play by Blair. Olson went out to first and Botbne struck out. Two runs 3 to 0 in favor of Luther College. Chantland fouled ball. Olson made a single to center and made second, Dawson fanned out and Converse did the same thing.

Botbne made first on Tolle's error and O. Torrison hit a long fly into the tree in center field for two bags. W. Torrison went out to first and Botbne scored on Tolle's error. Juni struck out. Lawson made a double, Torrison scored, and Lawson got third on a series of errors, and scored on more. Ness struck out. Score 7 to 7.

Linden opened with a single to right. Gillette struck out and Olson went out on a neat play from Juni to Blair. Blair struck out and Ness fanned out.

In the ninth Olsen flew out to Tut- tle. Thorsgaard made a single and Gillette muffed a nice fly from Botbne's bat. Zmunt, Zmunt another from G. Thorrison, and the bases were full. An other comedy of foot plays and errors by the infield led in a run and Thomers made a two bagger, getting everybody on. Juni made a single, and more errors added to the misery. Finally Tuttle threw Lawson out at first and that much of the misery was ended. S. U. I came up for their last chance with Tuttle at the bat. After a waste of much energy on two strikes and a few fouls he ended up by striking out. Chantland went out at first and Botbne struck out.

Luther College.

Three 3-0. 7-0.

Two base hits. Tuttle, Lindsay, Olsen, O. Torrison. Three stricken out by Torrison, 9 by Lindsay, 9 doubles play. Juni, Thorsgaard, and Olsen.

Second Game.

S. U. L. C. C.

Tuesday afternoon at 3 o'clock the two teams played their second game with the changes indicated in the record below. The day was a good one for a baseball game, and a much larger crowd than that of the day before was present. The practice of the Luther College men was at their regular standard. Their fielding is quick and accurate and their base throwing almost perfect.

The contest proved to be far more interesting than that of the day before. Contrary to the expectations of the most sanguine Hurst pitched a game that was hard to improve upon doing superb work until the eighth inning when his arm weakened, and the visitors pounded the ball out for eight runs in the last inning. During the course of the game he struck out ten men, which is a remarkable record for one who has had so little training in the box thus far this season. The rest of the men, too, played far better than on the day before; scarcely an error was made by the Varsity players. Noticeable improvement occurred on the day of the game was that more team work was done. Tuttle on third fielded his position well, and Blair's phenomenal single handed catch of a hot liner during the eighth (continued on page 2).

VIDETTE-REPORTER, IO\QY CITY, IO\WA.

It is a severe reminder that students do not spend enough time in the general library, that they do not do enough outside reading. This is undoubtedly true, but we believe that often times it is due as much to lack of opportunity as to any disinclination on the part of the student body. In many institutions the general libraries are kept open for a couple of hours during the evening, and we see no reason why this should not be done here. If, however, conditions are not ripe for such a step just at present we think that at least the library might be kept open for half an hour longer in the afternoon that is until 3:30. That this would be a great convenience to those who frequent the reading room goes without saying. As it is now the half hour that intervenes between the closing of the library and supper time is practically wasted by many, whereas if it were permitted it might be spent advantageously. Such a change would entail very slight, if any additional expense and would be amply compensated by the increased opportunity thus afforded.

On the subject of the Sunday opening of the Y. M. C. A. building we would add a few points to what we said on Tuesday. First let it be remembered that the demand for this change just now means a cry of revolution. Young Men's Christian Associations in all cities, large and small, throughout the country make it a point to keep parlors and reading rooms open on the Sabbath. More than this, even the churches to-day aim to have something going on within this period not only on Sunday but every day in the week. The Young Men's Association is professorially strict in its methods than the sectarian church and yet many churches, such as the Seventh Church, Philadelphia, get nearer the Sabbath pews than the University Young Men's Association. Sunday is a day of rest. Rest in a University town ought to mean more than mere idling. And it does mean more to a great many. Reading, such as is offered by the magazines, critical newspapers and even illustrated weeklies, is almost demanded by a large number of men and women who, perhaps for lack of time, do little or no general reading through the week. These persons are many of them supporters of the Y. M. C. A. It is to their desire that we as a medium of public opinion give voice.

Two dollars and fifty cents have been given by each of 200 students of Leland Stanford, towards the construction of an immense iron bell, which will be worked by steam power. It will be fifty feet long, ten feet in diameter, and will have a thirty-two horse power boiler. This breath saving machine will be used for the first time in the next athletic contest between Stanford and California University.
