Notes on the Kansas Game.

S. U. T. met a terrible defeat in its first league game Saturday afternoon when it was blanked by Kansas 6 to 0, and had Kansas' running back, Wilton, to score on Kansas, but after reading the report of the first half, as posted in the paper yesterday, one may say that Kansas was prepared for the worst, and the final score of 2 to 0 was received here as inevitable.

Our team was literally slaughtered by Kansas. The gridiron was covered with about an inch of dust, which soon choked up the boys, and although the Kansas had a lawn of water on the grounds they refused to give our boys a single drop, and thus with parched throats they were obliged to play on, and it was procured at a mile's distance.

Our boys put up a strong game for the first fifteen minutes and gained ground rapidly. A member of the team in conversation with a Vindicator reporter, stated that he thought Kansas could have outplayed us even in a clean game, and that we were utterly unpardonable and uncalled for. Their coach was heard to say, "You can't win, boys, but don't let the referee see you," and they slugged, as the black and blue marks on every man of the team will testify. The crowd invited the Kansas men with cries of "kill 'em, kill 'em, kill 'em."

Kansas has a very strong team and undoubtedly superior to our own. Their all gains were made by individual plays, line dashes and tackles, and but could make no end plays. Our boys played a nippy game throughout and bore their punishment manfully.

There is a strong rumor afloat to the effect that Kansas' coach has hired men. After the game the Kansas even refused to shake hands with us, and there is every reason to believe their intentions were malicious.

Frank Neff, ex-96, of Kansas City, Writing for the Kansas City Star, said that they are underestimating us, their very intentions were malicious.

The Freshmen-Senior Game.

Probably the most interesting game of the season was played Saturday afternoon between the Reserve and the Wilton College team. We regret very much that we did not allow a detailed report of the game, as the playing of our Reserves under Captain, Hetzel, and their talent and hard work is quite to general expectations. The Reserves chose the north goal and blue team won the ball. The first touchdown was made for the Reserves, principally on smashes, in which the backs hit the line both hard and made good gains. The Capt. brothers played the ends well and made good plays with the ball, Scripture made a gain of 8 yards and Chase ran 25 yards around right end for the touchdown. They made quite a kick.

The Freshmen-Senior Game.

The Freshmen are carrying off all the honors in athletics this year. They opened up their brilliant season in this line of work by capturing the inter-class cup at the full field meet last Saturday. They put in their best work on the gridiron with the skill and judgment of the seniors behind them to help keep up their reputation as the best athletes in the University. The Seniors played them last Thursday afternoon, and they won with a big lead, but again at the end of the first half they put in a good many hours at hard practice on the field of battle.

It was about 4 o'clock when the announcement was made, eleven brains and brawny heroes of the senior class met the reserved Freshmen in a game of football just to keep up the reputation of the class, as they said. Well perhaps the really good games, weren't couldn't have been very high in the first place.

At this point of the game Freshman Miller gave the signals for the Freshmen. Clark was rather slow in giving his signals, but Miller was a great deal slower. McCarron as quarter for the Seniors distinguished himself-as a fumbler and offensive player. It was a great fun for the crowd to hear Capt. Chase state that he was only 20 minutes behind, and he then, ending up invariably with "six, play, play." And then McCarron, who was very considerably the matter for a few minutes, would give the signal for the ball, and muscle it back to Clark, for Clark took the ball almost every time, whether it was from a center, a man around the end, or a punt, it was all the same to the Seniors. And perhaps it was well be did, for whenever any of the others of his men got the ball it generally was good for a 15 yard loss. The Freshmen took advantage of their adversaries ignorance and we had all kinds of fun running around the ends, throwing the line, and occasionally over the line. Chasing the really good lines, Chase's lines through the line and around the ends, and his excellent tackling also Chase's line smashes and Minton's good work at full-back.

The Freshmen, by snappy play at start, scored a touchdown in the first 5 minutes of the game, but they were not sure enough. and used poor judgment in finishing their work. They had several chances to score again in the first half, but by poor play at critical points lost their advantage, and time was called with the score standing 4.

In the second half the play was much the same as in the first, and after some good hard playing on both sides there was another score, and the game was called with the score standing 8.

The Freshmen-Senior game was opened up on the field of analysis. It was understood that this vote elects

The Harvard faculty at a recent meeting protested all dramatic or musical entertainment in places more than 250 feet from the University. It is understood that this vote excludes New York.

The Cardinal says that Wilson, "James big right end is perhaps the best all-round end ever seen on Wisconsin's grounds."—Ex.

The United States government has forbidden Captain Van Gorder, of the Northwestern team, to play football, because he is a member of the government life-saving crew.

It is alleged that Wefers is a professional, which, if proved, may give Cram a championship which he failed to win.
man should try and secure suitable grounds for courts in the new athletic park, and interest should be awakened so that S. U. L. shall not be unrepresented in the tournament next spring, as there is no doubt that we have plenty of admirers of the game whose interest has been allowed to grow cold.

To the reflective mind the transitory nature of all things temporal often presents itself as one of the saddest facts connected with human existence. Nevertheless we confidently expect to find an exception to this rule in geographical changes which, beginning last winter, have continuously characterized our office up to the present date. We once remarked that the principal reeling feature of our constantly changing quarters lay in the fact that each successive office was of a nature not to be changed without improvement. This was preeminently true of our last rotten place, where we were cramped into one room with another party similarly cramped, and where our naturalistic sweet temper suffered somewhat from a contact which, under the circumstances, was unavoidable.

To those who may still continue to persevere in following us, we would say that we may be found on Washington street over the jewelry store at No. 109. We can scarcely be said to have reached that point yet, but are assured that we are to lodge there a while, so that going directly to that place may be reasonably sure of either seeing our entrance or depart-ure; indeed experience warns us in saying such a one might witness both occurrences.

As formerly, the Quill follows us, and we go into winter quarters in the same locality. We anticipate no further hostility for a while, further than the "inadvertent" mauvais on which we punished last week. We wish here to take the opportunity of denying the report that the recent bad temper of the youthful journal was in any way responsible for the earthquake. We are convinced after investigation that the report is entirely groundless. As formerly, we shall be glad to welcome callers at our new quarters as soon as they are fitted up. To those who may delay calling for any length of time, we can only say that our present direction is south by southwest, our rate of traveling about as usual. We hope these directions may be definite enough by this time to need no explanation.

Fact and Rumor

Boy Munsat, C. B., joined the Irvings Friday evening.

Classes in Frohman French had examinations Friday.

E. H. Bond, '98, was initiated into Sigma Nu last night.

Boy Hetzel enjoyed a visit from his mother last week.

Chan Dukin is able to be around again after his recent illness.

The Department of Mathematics will have a third instructor.

C. W. A. Jones, L. '95, is visiting University friends this week.

Frank Hruick is acting as clerk of election in the fourth ward today.

Rowell and Aldrich made political speeches at Dormans Saturday night.

The Freshmen will hold a social this week preliminary to the greater event.

The many friends of Mary Olson will be pleased to learn that she is better.

Geo. Schneller has been absent from his classes this week on account of illness.

Will and Fred Larabee won home Saturday morning to stay over election day.

Gusse Gray attended the meeting of the Teacher's Association in Cedar county last Saturday.

H. J. Maynard, M. '99, returned last night from an over Sunday visit at his home at Maynard.

P. M. Metcalf, C. 98, has been called home by the death of his father. He will not return.

THE VIDETTE - REPORTER.
We are in the midst of a serious issue, but we will appeal to the wisdom of the public.

Mrs. F. S. Pontier and Miss Margaret E. Jones, of Wilton, came up to attend the game with William Saturday.

R. W. Harvey has been elected to the news from the Department of Pharmacy for the Vidette-Reporter.

On Friday night last week Professor McBride gave a lecture on "Some Phases of Plant Life," at Washington, D.C.

We notice that the "Review of Reviews" states it to be the purpose of John V. Crum to contest in the coming Athenian games.

Saturday night the Phil Dells had a picnic up the river. A roaring fire made this rather out-of-season entertainment enjoyable.

The Hesperians now have in full running order a club for extra-curricular debating, which has its meetings immediately after the regular business session of the society, and is for the purpose of giving its members readiness and ease in retort in debate.

The R. U. Handbook has made its appearance this fall in a new old-gold dress and if possible more complete and in a volume in regard to the University, individually, socially, etc., than ever before. It has this year a very useful map of the city, its streets, principal buildings, etc., which serves to make the addresses given intelligible to the uninstructed. This book appears every year with little diminution, but with no little amount of trouble to the Y. M. and Y. W. C. A., which is its author. It has come to be a necessity, and it is relied upon for information of all kind, given in the briefest and most convenient form to the students of the University. No charge is made for it, and it is accepted along with the many other advantages for which we are indebted to this organization, almost as a matter of course.

We are not immeasurable of the effort which it costs, however, and take this occasion to express our cordial thanks.
