S. E. 's. Reserves 5, Varsity 0.

Such was the score after a hotly contested game between the first and second teams. All the non-varsity first eleven were regular players, and therefore the result seems rather startling.

Captain Leighton lined his men up shortly after three o'clock with the intention of starting out the "scrubs" by a heavy score. The scrubs were in for blood though and couldn't see that, way, so they braced together, and although much lighter than the 'Varsity, their team work and the fine play of Larrawee and Hall had considerable and telling effect. The interference of the first team was poor, and the "scrubs" had no difficulty in making great holes through the line.

The first play of the "scrubs" was an eye-opener for the 'Varsity men. Larrawee got the ball and pushed Hetzel in front of him for interference, while Johnny Hall brought up the rear with a zigzag motion of his arms which effectively blocked off the would-be tacklers until 50 yards had been gained.

Larrawee and Hall repeatedly made good gains, while the unknown 150 pound center rush for the "scrubs" was a marvel. About three minutes before the end of the first half Larrawee was crowded out and made a difficult drop-kick from the 35 yard line—the first time this feat has ever been done in the program.

Further comment is unnecessary except that during the first half the ball was in the 'Varsity "green territory," while in the second half the 'Varsity team was never closer than thirty-five yards to the "red" goal.

Below we give the line-up of the teams, with the weights of the players added for good measure.

VARSITY. RESERVES.

Holbrook, 185 e Thomas, 170
Leighton, 190 t Gardner, 190
Wells, 190 f Weil, 190
Iverson, 185 e Unknown, 190
Cutting, 178 t Kallenberg, 142
Stowe, 180 f Poole, 120
Allen, 190 r Hull, 180
Sawyer, 185 q Hetzel, 175
Scripps, 185 h S Colvin, 150
Gusen, 185 Emdoms, 170
Rob, 160 h Larrawee, 180
Hobs, 180 c Bank, 160
Referee—Maine.
Unimile—Chase.
Littlesome—Peck.

Seniors vs. Sophs.

The first of the series of interclass games was played Saturday morning between the classes of 36 and 38. The game was an interesting one, and the teams were evenly matched. The team work of the Sophs was superior to that of the Seniors, while the Seniors were the superior of the game were made by the Seniors.

Clark, Ayer, Evans, Riggs and Irish did creditable work for the Sophs, while the Capels, Ely and Howell, for the Seniors, put up the same articles of half a dozen times.

In the first half of the Seniors by hard and steady work pushed the ball across the Soph's line; Clark failed to kick goal. On the next kickoff, aided by a poor punt and several fumbles, the Sophs, by several line changes, made Brown over the line; Scripps failed to kick goal. Score: Sophs 4, Seniors 4.

In the second half was a fine exhibition of foot ball, both teams doing good work. Neither side scored. When time was called the ball was on the Soph's 20 yard line.

The line-up was as follows:

Seniors: Kalenberg, 1 e Carter, 125
Rigg, 11 l Barth, 120
Irish, 19 g Ely, 120
Kallenberg, 1 e Donnally, 175
Van Law, 7 r Hollingsworth, 150
Tompkins, 9 r Weil, 179
Emery, 9 q Weed, 160
Clark, 1 h Howell, 160
Ayer, 7 h Capell, 170
Soyer, 1 l Ely, 120
Referee—Larrawee.
Littlesome—Scrubbage. 30 minute halves.

Medical Department.

Dr. Shrader was unable to meet his classes last week.

Dr. Donohue, of Manes, brought a patient for the clinics last week.

Wm. Corin reported yesterday from a week's visit at his home in Tamolich.

A question in anatomy: "Is it 'Da­ gma's sister or somebody else's sister?"

Twenty-five Vassar college graduates have taken the degree of M. D. and nineteen more are attending medical schools.

In scientific investigations even Moderns should not travel forbidden paths, at least, that is the opinion of the president of the senior class. Dr. Woods Hutchinson lectured every Monday evening from 7 o'clock to 9:30 p. m., in Jesse Hall and in the Common. All are welcome to come and hear these interesting lectures.

Professor Chase is steadily conducting a series of therapeutic experiments for the Junior Medical and Dental classes. It goes without saying that the students appreciate these experiments very much and the frogs do too.

The other Medics in the first week on the way to 9 o'clock lecture he was ac­ known in a small school boy. The little fellow smiled and looked up at the would be doctor and said: "Say, mister, what reader are you in?" The Medics showed the boy his note book, whereupon the lad replied: "Huh! only in the second grade and so be it. I will soon be there." The excellent articles on the need of a hospital, which appeared in the col­ lege paper, should be read by all interested in this important movement. The two hundred students of the Medical Department and many others are greatly moved by the personal influence upon those recent graduates of the college, with whom they are acquainted. Nothing is truly gained except by hard, earnest work —not even an appropriation from a wealthy state.

Moses, Moon and Hanson are to de­ bate with Chicago, the scientists have their Dalton, Brunson and Ridgway, and the Dentist and Homeopathic weekly society meetings; why could not the Medics also develop themselves with a scientific or literary aim, or both? Doubtless the talent is there even in the Medical Department in these times. Evident­ ly the capability of public speaking will in later life be as valuable an ad­ junct to our medical education as it is to that of our Collegiate friends.

Medicus.

The ever increasing popularizing of the Hispanic society was dem­ onstrated in its large audience last Saturday evening. South hall was crowded beyond its seating capacity, and the auditors listened to perhaps the best program of that society this year in point of solidity and strength.

That Miss Myers' piano solo was ap­ preciated was attested to by the fact of encore. Miss Georgia Adams declaimed "The Isle of Shoals," which was Miss Adams first appearance on the Hispanic program, and too much could scarcely be said in praise of her effort. She is entirely at home on the rostrum, and her rendition of her selection was very superior.

Miss Anna Roberts delivered an exceedingly well written oration on the subject "The Cross vs. The Crucif­ ment." This was also her first at­ tempt, and she made a very credit­ able appearance.

The debate on the question, "Re­ solved, that it is inexpedient for the chief Executive of the U. S. to be eli­ gible for a third term," was affirmed by Miss Shafter and Corea Duras, and denied by Osa Horine and Marion Dunn.

The Heps are to be congratulated on their usual choice of interesting Jonctions for discussion. This one was full of interest to all, and was entertainingly treated. The affirma­ tives emphasized the point of its monarchical tendency, its tendency to bring about corruption both on the part of the President and the voters, who either hold or are desirous of holding office at his hands, and its antago­ nism to the will and spirit of a democ­ ratic people.

The negative spoke of the insuffi­ cient time to shape and carry out for­ eign policy and repeated in a skilled manner a number of points made by the affirmative. In the opening speech for the affirmative Miss Shafter demonstrated her ability to offer strong, convincing argument.

The judges gave the decision to the affirmative.

Mr. Lucas sang a pleasing solo which received an encore.

Gertrude Preston followed with a declaration entitled "The South, Wind and the Sun." Miss Preston's choice was a most excellent one, and she brought it and manner peculiarly adapted to the piece.

Miss Florence Adey concluded the program with Wagner's "Frieda Jerome's Beautiful Ball." Her easy manner, and the way in which she entered into the spirit of her piece, show her familiarity with this line of work. The Heps are cer­ tainly fortunate in their new mem­ bers, and show themselves capable and willing to excel in this line of work.

Olympic Games Revival.

It is estimated that the Olympic games will meet the ex­ pense of the revival of the Olympic games next April at Athens will reach 1,000,000 drachmas or $115,000, besides 900,000 drachmas given by a Greek merchant of Alexandria, named Aver­ off. Averoff intends to have the entire structure, which will be capable of 20,000 spectators, constructed in Pentelic marble at his own expense. Its sides slope up to a height of 40 feet from the street, and the interior space, in the form of a horse­ shoe, is 625 feet long by 105 feet wide. It forms a natural hollow between the lower spurs of Mt. Hymettus, and from it one has an unobstructed view of Athens and the surrounding country, including the Bay of Salamis.

The foot races and gymnastic con­ tests will take place in the Stadium, built between the sea, the seashore, the swimming and rowing races in the roadstead of Phalanon, and the horse races on the Spartan Gulf. There is to be an illumination of the great monuments of antiquity, and the Olympic games will be an impres­ sion representing scenes from Greek history and a series of representations of dramatic masterpieces, begin­ ning with a tragedy by Sophocles and ending with Wagner's "Lohengrin," and a special Olympic hymn by a mod­ ero Greek composer is to be sung by a monster chorus. A great attendance is expected from all over the world is expected.—Ex.

Saturday's Games.

At Amherst a new addition to the college has been made in the form of a medical or hospital for sick students. A Chinese girl is secretary of one of the medical classes at the University of Michigan.

Entered at the Iowa City Post Office as second class matter.

It is to be hoped that the interest aroused over the debate Friday evening will continue long enough to render assistance to the two societies in the great work they have undertaken. Of course the nature of these organizations warrants the statement that they will successfully carry out what they undertake, but at the same time we trust a liberal assistance will be rendered by the students and citizens in meeting the expense of the Chicago contest. We have not learned whether it is the purpose of the league to charge an admission fee to the contest in December or not, but in either case if we hope a liberal response will be forthcoming.

The recent agitation of the subject of a new hospital building for the Medical Department is probable, as to its doubt should be, but it should not be allowed to overshadow in importance the needs of the Collegiate Department of the University. No doubt the Medical Department needs a room and would be materially improved by the erection of a building such as is proposed, but if favors are to come singly it seems that they should go where they are most needed.

The Medical department already has some facilities for hospital purposes, whereas the classes of the Collegiate Department are actually out of the very room they are used in some instances. It is humiliating to confess that a state which possesses the wealth that Iowa does should be so little awoke to her support needed to all departments, but as long as it is true surely the support should go where it is most needed. If such turns out to be the case we shall expect a new Collegiate building as the very next thing, for no one who will observe the facts which every day reveal demonstration will question that department's needs. The Huskies had an informal social and candy pull after their regular program Saturday evening.

Carr, W. joined the Betas Friday night instead of the Sigma Nu, as was previously stated in Saturday's issue.

Saturday noon an election bet was followed by one of our Senior Law students wheeling a Junior Collegeite down Dubuque street. Spectators say it was a driving election.

We note the following from the Argus, of Missouri, which may prove of interest:

Iowa foot ball game will be played here November 16. Last year the Iowa team was somewhat disheartened by the treatment they received here. This complaint was not against the team, but against a part of the spectators who crowded upon the field. No team this year has accused our boys of playing anything but a clean, manly game, and no team has complained thus far of their treatment by the spectators. We are glad to know that this year's game will be played in an efficient manner as the spectators.

Notice.

The schedule of class games has been changed on account of conflicts of dates between S. U. I. Reserve and the class games. The following will be the schedule of class games followed out for the remainder of the season:

Nov. 19—Seniors vs. Juniors
Nov. 21—Seniors vs. Freshmen
Nov. 23—Freshmen vs. Sophs
Nov. 26—Juniors vs. Sophs

College Notes.

Smith College girls are taking a lively interest in the "students" building, which it is proposed to have put up on the campus by the undergraduates themselves. It is the plan to have a house attractively furnished with rooms for the various societies, and for class prayer meetings. An assembly hall will probably be included, and the building will add a new and attractive feature to the social side of the college. The students have already subscribed $1,000 toward the building fund. It is estimated that the house will cost about $40,000.

The possibilities of the foot ball campaign are now tenfold what they ever were before, especially to manager and captain. Capt. William Leech, who is in charge of the campaign, and the school as a whole, are extremely interested in the campaign. It is hoped that the players and the people will cooperate and make the campaign a success.
