6, Bill to Miss ......... 2.25
Total Expenses .................. $417.01
Balance due to Mr. Larvale .... 682.55
The $810.00 which was received from the State Reserve Fund was applied towards the team's expenses.

Athletic Association Report.

The Athletic Association met and transacted considerable business last Thursday evening. It was largely attended and much larger than usual were present, as the annual election of officers was also to be held. Among the new members of the treasurer and of Mr. Larvale had been received the Association proceeded to elect its officers.

As several individuals were present who had never given one dollar to the Athletic Association, and who did not give one dollar towards the foot ball fund; and among those present were requested not to exercise the voting privilege.

The following official balance sheet shows that Mr. Wells received sixteen votes for president of the Association in good standing; his membership fee having been paid that evening by Gordon Hayes. The informal ballot was then made formal and Mr. Wells was declared elected.

1895.

The first informal ballot for treasurer, Van Epps, M. W.7, received sixteen votes out of twenty-five. Although constitution provided that the general treasurer shall be elected from the members of the Junior class, the informal ballot was made formal, and Mr. Van Epps was declared elected.

Neal, '90 received sixteen votes for general secretary and was declared elected.

Three members were also elected to membership on the Advisory Board to represent the three teams.

In the first informal ballot for member from the foot ball team, Mr. Price received sixteen votes. It was ruled that the manager as not a member of the football team, so on the informal ballot Mr. Hobbs received the vote and was declared elected.

The election for base ball representative was the most interesting of the evening. It was fought seriously and keenly by a long line of candidates, and it was felt that this feeling will become more universal and the University will not be obliged to solicit for a more than sufficient to keep life from becoming extinct as has been the case in past years.

In speaking of the University appropriations, and especially the tax passed the House, the Des Moines Capital says: "The alumni of the University take interest in its welfare that, haggard for so many years, who had played on the first team in any game, or had ever gone as substitute on any trip, he was declared ineligible for the office. Points of order now became quite frequent and considerable discussion was precipitated by the members of the teams.

Finally a member went out and purchased a copy of "Roberts' Hockey Order," and peace was again restored. The election was continued and Ralph Bailey was elected by fifteen votes to represent the base ball team on the Advisory Board.

It is among general interest could be developed in athletics as was shown in the latter part of the meeting, we should rejoice for our future prospects, but we fear that even these same men thus aroused to meet the occasion will again relax in another one's purpose being accomplished, and interest will again be allowed to subside.

The University.

The following able editors are taken from Thursday's Daily Republic.

The passage of the onion skin bill tax for the University Wednesdays was a cause of considerable rejoicing among the friends of the institution. It was pretty generally conceded that the bill would go smoothly through that body as it was not a complete surprise. The passage of the bill was followed by a general shout and receiving the governor's signature.

As has been stated before it provides for an annual income of about $56,000 for five years, which sum is to be used exclusively for building purposes. If this bill becomes a law, as there are strong reasons for thinking it will, Iowa has made a great move toward securing a University such as is the present reality. For years the institution has suffered the serious drawback of insufficient funds to meet absolute necessities and as a result his progress must necessarily be slow.

While this tax will not meet all that the University actually needs by any means it will go a long way toward supplying her most immediate wants. Aside from the returns which such a tax will bring it indicates what friends of the University have been longing for for a number of years—a just appreciation of the great institution of learning. As the years go by there is every reason to believe that this feeling will become more universal and the University will not be obliged to solicit for a more than sufficient to keep life from becoming extinct as has been the case in past years.

The debate on the question, "Resolved, that the condition of the laboring classes has not kept pace with the progress of civilization," was carried by Kees and Clark, and declared by Hewitt and Foster.

The affirmative hold that the great progress of civilization had increased the wants of the laboring classes, and their ability to supply them under existing conditions, and they also produced statistics showing the laboring point.

The negative claimed that the laboring class had advanced along four lines; financially, socially, morally, and mentally. The world's greatest benefactors have been the friends of the laboring class.

The debate was followed by an oration by Mr. Gilliland on the "Armenian Massacre." His production was received with applause.

The "After Whiles," which was delivered in a very pleasing manner.

The program was closed by a piano solo by Mr. Weeks.

The debate was decided in favor of the affirmative.

The debate was, in fact, never decided, as the negative side had been carried by Mr. Weed declaimed "The Debate of Vienna," in which he traced the progress made during recent years.

The debate on the question, "Resolved, that the condition of the laboring classes has not kept pace with the progress of civilization," was carried by Kees and Clark, and declared by Hewitt and Foster.

The affirmative hold that the great progress of civilization had increased the wants of the laboring classes, and their ability to supply them under existing conditions, and they also produced statistics showing the laboring point.

The negative claimed that the laboring class had advanced along four lines; financially, socially, morally, and mentally. The world's greatest benefactors have been the friends of the laboring class.

The debate was followed by an oration by Mr. Gilliland on the "Armenian Massacre." His production was received with applause.

The "After Whiles," which was delivered in a very pleasing manner.

The program was closed by a piano solo by Mr. Weeks.

The debate was decided in favor of the affirmative.

Medical Department.

Mr. Close, of the present graduating class, will sail for Leipzig, Germany, where he will continue his medical post graduate work.

Mr. Dean, of the present Senior class, and demonstrator in the Pathological laboratory, will leave in a few days for Vienna, Germany, where he will continue his post graduate studies.

Mr. Eil Grimes was called away to his home at Newton, a few days this week, on business.

The Senior class and Faculty have mutually decided to have a banquet this year. The graduating exercises take place Wednesday evening at the Opera House.

Thursday the Junior class finished their oral examination in Anatomy. This is a new departure, the examination has hitherto been held in written form, but to the entire satisfaction of the class this change was made. Professor Professor has worked earnestly for their benefit and the class in the main has done very well in the examination. We fully appreciate his untiring efforts.

The Senior class had an oral final in Practice under Dr. Littig yesterday.

A large surgical clinic was held Thursday afternoon, with several cases left over for Friday forenoon.

Contributing Editors:

Entered at the Iowa City Post Office as second class matter.

In another column of this paper may be found a report of last year's Track Team, which may prove of interest to lovers of athletics in the University. The report in the present issue is doubly significant to the students of the University. In the first place it shows why the management was unable to pay the expenses of our representatives to the State Meet at Grinnell last spring, and in the second place it completely exonerates Mr. Larabee from the lying, malicious charges which have been made by certain parties against the track team management of last year. When Mr. Larabee took charge of the track team last spring he found affairs in a deplorable condition, but assumed all bills and paid all outstanding bills out of his own pocket, after the resources of the track team had been exhausted. His predecessor, of course, had contracted certain bills, as the thirty dollars for the use of the fairgrounds, and the expenses of the trainers and assistants, which Mr. Larabee also assumed.

In the face of these facts, we find that certain parties, with a view of exciting sympathy for themselves, have raised the calumny of mismanagement against Mr. Larabee, although no student now in the University has done one-half as much for the cause of athletics as S. U. L. has Mr. Larabee.

Although we are firm enthusiasts for the University's athletic welfare, we have no sympathy for such "kick-ers" with merely surpised, instead of arousing and aiding the athletic spirit of S. U. L. in a manly way.

H. H. Shepard.

College Notes.

William Hilton Wilson, of Alma, Ill., won first place in the oratorical contest at the University of Chicago held recently. The subject of his oration was "Individualism." He will represent the university in the annual intercollegiate contest to be held May 1 in Central Music Hall.

Miss Helen Gould has given $8,000 to Yassar, which will be used in founding a scholarship in memory of her mother.

The Board of Trustees of Lafayette College have appointed a committee of five, including President Walpole, to confer with the Board of Trade of Scranton with reference to establishing a law school in that city to be regarded as an integral part of the college.

The Wisconsin representatives of the intercollegiate debate with Minnesota have submitted the following question: "Would it be sound public policy for congress to legalize contracts for the division of competitive freight earnings of railways companies engaged in interstate commerce?" Provided, That all such pooling contracts before going into effect shall be filed with the interstate commerce commission, which shall have power to suspend or modify such contracts whenever in its opinion said contracts are detrimental to public policy.

The debate will probably take place in Minneapolis, April 7th.

The decision of the United States Supreme Court, which assures to the Stanford estate the $45,000,000 involved in the Central Pacific railroad suit, will be welcomed by lovers of education in this country. Without considering the merits of the case, there could be no use to which the government could put the money which would confer a greater benefit on the people, than the aid which Stanford University will receive from this amount. Leeland Stanford and John D. Rockefeller have set good examples in the use of large fortunes, and whatever may be thought of the manner in which some fortunes are made in America, much objection will cease when these fortunes are used for a good purpose.

Claude Horack, '99, delivered one of his numerous humorous dialect selections at the High School Minstrels, last night, and Will Chase, '99, acted as one of the end men. The entertainment was given for the benefit of the High School Athletic Association, and was a great success in every respect.

Polson's spring term officers are the following: Pres., G. B. Biggs, V. Pres., Mary Horanbrook; Sec., Selma Niesupel.

There is more catarrh in this section of the country that all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, Ohio.

RICHMOND
Straight Cut No. 1
Cigarettes.

CIGARETTE SMOKERS, who are willing to pay a little more, have the price charged for the BENTLEY CIGARETTE, made by Mr. BENTLEY, of BENTLEY, V.T., increased to 25c a gross. These cigarettes are made from the brightest, most deliciously-grown and highest grade tobacco grown in Virginia. Y in is in the old and original blend of Straight Cut Cigarettes, and it is a successful Cigarette for the inveterate, habitual smoker. Smokers will do well to note the appearance of the smoking tobacco as an indication of the quality of the BENTLEY CIGARETTE. The old 15c Cigarette is the same as before.
