r

Filipinasan.

The Philippino program last
Friday evening was opened by the
appointment of the new president, R.
E. Yole. With a few chosen words
the outgoing president, R. E. Rotten,
expected that the public discussion
would be the most
full
of the public
which the Philipino D. D. is to
be the president, who
registered with a well
prepared inaugural address.

In the effort to
the subject of "Homoeopathy,"
outing many favorable points
for the theory of medicines.

Following this came the debate on
the interesting question “Resolved,
the arbitration treaty be before
the Senate be ratified im-
immediately.” This question was argued
by E. J. Lewis and H. A. Ang, and
spearheaded by T. A. Stroemon and
Crane. After the affirmative answer
that the Senate ratification treaty
before the Senate be ratified im-
immediately was "Aye," the President
in the gallery was announced, and
that this treaty is now
before the Senate, an earnest de
the war between England and
the United States is clearly shown.
The affirmative
that this treaty is now
before the Senate, an earnest de
the war between England and
the United States is clearly shown.

It is confirmed that the jury of
these two countries were set to the
equitable a peaceful settlement.

The points of the negative side
were that they did not oppose
arbitration as a means of settling
disputes, but they did not enter into
this treaty without seriously considering it,
that the Senate or House of Represen
in a certain case, be

Bill.

The judges decided in favor of
the negative side.

If H. E. Albert followed next with a
decision, “The House of Represen
in a certain case, be

Bill.

The judges decided in favor of
the negative side.

the negative side.
The contest of last Saturday evening between the Episcopalian and Republican societies certainly demonstrated that all the forensic ability in the University is not confined to the gentleman's societies.

The program of the evening was in every way satisfactory to the minds, once and doubtless, also, to the competing organizations. The same vigor and intensity characterized this contest that has prevailed in all others that have been held this year.

Although the hopes of the patriotic student in S. S. I. have not been altogether gratified and fulfilled by the results we have as yet attained in some directions, there is nothing more inspiring and encouraging to the disheartened patriot than to contemplate the success achieved by our literary societies in the last few years by some means the same enthusiasm that exists in these circles could be aroused in some others where it is now most needed, the same happy results would here be effected also. We have proved that we have the enthusiasm, it is only a case of awakening and application.

The college man in politics has been the subject of multitudinous dissertations. He has been lauded by his champions as the hope of the future in the American political arena. He has been condemned as a "huckster" by his political opponents as a dime-a-confession, and by some means the same enthusiasm that exists in these circles could be aroused in some others where it is now most needed, the same happy results would here be effected also. We have proved that we have the enthusiasm, it is only a case of awakening and application.

The Weelered Bicycle
$60...

These are better than our wheels of last year. The marked
difference in price is because we do not have
to buy any new machinery.
The frame, the WHEEL REPAIR, the
thread, the proof bearings—a marvel in skill and
workmanship—nothing but the very best
we do in this line.
