The

world. Each house has its own appeal. Each house has its own unique character. Each house has its own charm. Each house has its own beauty.
We extend our final farewell to the students, the faculty, and the University which we feel proud to call "our University." We graduating members of the Viddete-Reporter staff have long looked forward to the happy day when we for which we have for four years been striving should be reached: to the time when we could look upon our- selves and be looked upon, by others as graduates of the State University of Iowa. The time has now come for a realization of these pleasant anticipations, and in this realization we rejoice—and yet, the happy culmination of our desires is not without a tinge of sadness. Is it with an element of elixir regret that we say goodbye to our loved University with all the pleasantries of its associations, knowing that the pleasant associations which will separate us more or less widely from the seat of the Univer- sity, we can live over the old college days only in memory. In these days, now passed forever, there have been moments which we thought drarpy, but in future days it will be only the happy recollections that will fill our con- sciousness.

We hope to be ever mindful of the advantages the University has given us. Throughout the past year we have earnestly endeavored to promote the best interests of the University.

We may have erred at times, but if so it was a "misstep of the head and out of the heart." We truly believe that if we are measured or judged by our intentions rather than by the de- tails of our accomplishments, we stand vindicated. It shall be our pleasure in the future to employ whatever influence it may be our fortune to possess, for their generous support, and hope that next year they may be as indulgent as they have been in the year just passed.

Let us take pleasure in announc- ing that for the ensuing year, the Editor-in-Chief will be Mr. E. G. Moore. The reputation which Mr. Moore has won, a worthy achievement in a reasonable assurance of the success of the paper.

We thank again and doubly our readers for their kind indulgence, and the business men of the city for their generous support. To these students days will return next fall we extend our wishes for a pleasant vacation and another year of beneficial study.

To the Faculty, and to those who compose their Universal work, collectively and individually, to you all, we extend our earnest exurban- tation—may happiness and success attend your efforts.

Alumni Business Meeting

The following Alumni were elected for the ensuing year at the annual business meeting of the Alumni Association held Thursday, November 21st.

President—Judge John Campbell, Denver, Colo.

First Vice-President—Judge H. D. Emery, Red Oak.

Second Vice-President—Miss Lou E. Higgin, Iowa City.

Third Vice-President—Rev. A. C. Giffen, Liberal, Kansas.

Secretary-Treasurer—Hon. O. A. Byington, Iowa City.

Executive Committee—H. E. Kelly, Mrs. E. S. Sherwood, A. G. Smith, Iowa City.

Executive Committee—H. E. Kelly, Mrs. E. S. Sherwood, A. G. Smith, Iowa City.

Loyal—A fountain pen in the Eng- lish relaxation room. The finder will receive the same at the office.

Results

Beefsteak Cannot be Cured by local legislation; if they cannot reach the dressed portion of the car. There is only one way to cure beef- steaks, and that is by constitutional means. The meat is cured by an inflated condition of the muscular lin- ing of the stomach. When this tube is inflated you have a tumbling sound or imperfect tube, and when it is entirely closed the flavors will be the result. Since the inflation can be taken out and this tube re- placed it is not unusual for them to be destroyed forever; thus, when the meat is cured the flavors are caused by a catch, which is nothing more than an inflated condition the meat. We will give one Hundred Dollars for any case of cases caused by naturally due to the tube, which we will accept. The correct method is to remove the inflated condition from the meat. P. J. Chorley & Co., Toledo, O. S. Rolfe, Chicago, Ill. Hall's Family Pills are the best.

Lately the basket was by John Brown.
DEAN CURRIER'S MEMORIAL

THE DEAN OF THE COLLEGIATE DEPARTMENT

SPEAKS TO THE ALUMNI.

Great was the surprise in store for Professor A. N. Currier, Dean of the Collegiate Department, as a part of the program for the Alumni Banquet Tuesday night, and still further surprise was awaiting him when he reached home after the exercises of the evening. The surprise was a memorial given by the Alumni Association, Faculty and students in token of their appreciation of his increased service, in behalf of the University and its students, throughout the last thirty years. It is a

understood seldom that one man maintains for so many years the active relationship to the University that Professor Currier has preserved toward the State of Iowa. For three successive decades he has been in the University, and for these three decades he has been primarily and unfailingly toward the advancement of the interests of the institution. In these thirty years several thousand students have been gradu-

ated from or attended the University, and for every one who has had any acquaint-

ance with him looks upon him as a true friend.

The presentation of the memorial at the banquet was very appropriately done by Rev. Frank Brash, of the class of '74. The subject of Rev. Brash's toast, as pointed out by a few preliminary remarks, Rev. Brash and Dr. Currier's "Memories," I have been warned by the committee to erase all reminiscences of the former and all of the waltzes brought forth a handsomely polished oak cabinet and placed it upon the table before the Dean. Upon being opened there was revealed a complete silver service. Dr. Brash then led his plane and mov-

ing to the side of the Dean could that we, so far as the only knowledge of the Latins that was imparted in his class room, had any idea or under-

standing of the appreciation of the or-

to our group at this time. The enjoyment of the banquet was

CELEBRATION HAS

The greatest social event of the year, and the one which draws the curtain over the whole year's social activities, was the Alumni Banquet. This year's function was held at the State University, and the guest of honor was Professor Currier. Among those who had the benefit of his service, and who are mentioned as to their appreciation of his increased service, in behalf of the University and its students, throughout the last thirty years. It is

would be entitled in the love of all

all those whom he had served, and as a business man he had known, would bear a harvest of the preparation for the future. Indeed, the book, which he has

himself, as much as anything else, he would be followed by the prayers and blessings of all.

Dean Currier was greatly overr

and the sincerity of feeling in the speaker's manner. With bowed head, as slowly arose and acknowledged appreciation of the respect and esteem that had given birth to the occasion. He stated that he was indeed happy to have been of service to the University and her students, and that such service was largely due to the peculiar advantages for being of service which it has been his privilege to enjoy. He explained that the growth of the University, and said that though there were some time elements of drudgery in the work it was his duty to perform, those years afforded a wealth of pleasant memories. In closing he said: "I have been thirty years of my life to this work, and my only re-

spect is that I cannot give thirty

years with him looks upon him as

true friend.

The Iowa City School of Shorthand.

The Iowa City

ACADEMY

The Iowa City Academy has for many years enjoyed a reputation not excelled by any school of its kind in the West.

The aims of the Academy are to prepare students for admission to the State University, or other institutions of similar rank, to prepare those who wish to teach in the public schools of the State for their work, and to furnish a good, thorough, practical education for the ordinary advocations of life.

STATE UNIVERSITY OF IOWA

IOWA, IOWA, May 1, 1896.

From personal acquaintance with the principal and instructors of the Iowa City Academy, and from the character of the work done there, we take pleasure in recommending the school to all such as are desirous of securing a thorough course in the work preparatory to admission to this University.

VIOLET-R REPORTER

BOARD OF REGENTS ACT.

THE STATE UNIVERSITY OF IOWA can now look into the faces of the great Eastern educational institutions without blushing. She is now to have a building worthy of her name and fame. The Board of Regents decided, today, to invest the income from three years' taxes, which will amount to about $10,000, in a new college building. The adoption of plans and location was deferred until next fall. At present it is thought that the old South Building will be torn down and the new one erected upon that site. This event will no doubt fortell a great stepping stone in the progress of the University.

The reports of the Colleges, Law, Library, Dental and other committees were read and approved. The changes made in the Faculty and school calendar are as follows:

Dr. W. S. Hoedt was elected dean of the Dental Department, an office which he has occupied the past five years, being previously filled by Dr. S. B. Martin, now of and Burge Dental College. The choice of the Board is one in which the students of the dental course are thoroughly satisfied and in fact all who have come in contact with Dr. Hoedt have his connection with the University.

Those who advocated the election of a Board to the department, and had many ardent supporters — will acquiesce gladly, knowing that their favorite will maintain his present chair in the department—a chair which he has occupied for the past two years. A chair of Government and Administration was established, Dr. Shambaugh being elected to fill the position as full Professor. In the establishment of this chair, as well as in their choice of the professor in charge, the Board is to be commended, during the two years in which Dr. Shambaugh has been connected with the University, for the way this department has been very popular among the students, and it is due to this fact that the Board was impressed to make this appointment.

Dean L. H. Hoerter was elected to the professorship of Animal Morphology and Physiology, a position which he formerly held as assistant professor and which has been theoretically separated from other departments for the past two years. Mr. Hoerter has shown himself thoroughly capable of filling this position, and it is felt that he should receive his merited reward. A. L. Burke was given a fellowship in this department.

Franklin R. Porter was promoted from instructor in Latin to Assistant Professor in Latin. This is a very deserved promotion, and will meet the considerable number of requests made for it. Dr. Gilbert, desiring to spend a year in Germany, tendered his resignation to the Board and Dr. E. Seaborn, formerly Instructor in Psychology and Pedagogy at State, was elected to fill his position. He has been very highly recommended by Professors Seaborn and Davis, one of the foremost of philosophers.

C. W. Van Law was promoted to Instructor in Economics.

Harry W. Hanson was elected Instructor in Education for next year. The young men of the department will be under his charge. Mrs. Patrick will continue to teach the girls.

Professor Geo. A. Warburton tendered his resignation to take effect at the end of the fall term. While he resumes his assistant-ship in Chemistry next term, Dr. Endo, who has filled the position in his absence, will continue his studies in Germany.

No changes were made in the Law Department.

Alumni Banquet.

The annual banquet of the S. U. I. Alumni Association was given in Smith's Armoury last Tuesday night. It was a success from all standpoints. Two hundred and fifty plates were prepared for the banqueters, and all but about ten of these were supplied. It is felt that this person pleased with this feast was begun.

Esquil. Menu.

Following was a series of delightful toasts, begun by L. E. With acting as toastsmaster. This space prevents a detailed account. The following is the program of toasts

From the Standpoint of 90—J. L. Jacobson, '02 The Old Times—Lucien Harvey Ingham, '96 Scare of History—J. D. J. Pickard Memories—Frank Busch, '96 The Bureaucrats of 90 R. H. Crow, '02 From the Critic's Standpoint of Today—Professor Schusberg The toasts were all brilliant, full of animation and good thoughts. The banquet was an enormous success of one, and is the largest in the history of the department. The convivial committee of the association—a. K. Stevenson, J. W. D. Davis, Mr. The Alumni Banquet of the future be as successful and an pleasure as was this last one.

Deb tax for Next Year.

The following are the questions and sides chosen therefor for next year's Inter-Departmental Debates:

Chicago Preliminary—Resolved, that the State Disputed System is the most effective and of controlling the liquor trade in the United States. This will be followed for the Zeta of F. H. Holborn. J. J. Sharp, and M. K. Russel. On the negative side there will be represented by M. L. Curtis, L. A. Swisher and J. R. Pratley.

Chicago Preliminary—Resolved, that a part of the revenue of the United States government should be regulated by a progressive income tax. C. O. Giesler, R. M. Hanson and M. W. Term will afford this for the Zeta, while, W. S. Nott, F. H. Blome and J. R. Shores will deny it for the Ithak.

SENIOR CLASS PLAY.

A SUCCESSFUL PRESENTATION OF GODFREY'S COMEDY.

Last Monday evening in accordance with the custom of several years standing, the senior class of the College Department opened its season by reading the plays which were selected by the class last winter as the ones which should be presented to the great comedy by Godfey, "She Stoops to Conquer." A play so well known to even the superficial students of English literature needs no word to commendation to the general public. The very large audience which had assembled by eight o'clock was certainly a compliment and an inspiration to any amateur cast. Many of the listeners had come merely out of idle curiosity to the interest of the class, and as an encouragement for the enthusiastic efforts of the members of the class whose names were upon the cast. Many more came from mere curiosity to see what the inexperienced could do. It is quite as likely that all who were present fully expected to listen to the young performers with a great deal of patience for the mistakes and blunders characteristic of any amateur performance. However, the entire audience was surprised and again. They broke out in applause and again with bursts of applause, which were perfectly spontaneous and not given merely from a sense of duty.

The efforts of the performers individually and as a whole reflected great credit upon the class of '96 which they represented. The art and refinement of many of the plays require no less than ten years for a production, and if successes in such efforts can be measured by the approval of the audience, then the play of Monday night was certainly a success, and successful, too, beyond the hundred expectations of even the performers themselves.

The competency of the entire cast makes it especially difficult to distinguish clearly between the merits of the individual members. No two of the characters of course were the same, and yet they all so artificially to blend into one complete composition, the comparison of its separate parts tells to the audience an interesting story with references to itself.

Miss Soule Fairfield, as "Miss Hardcastle," was to many minds the queen of the evening. Her impersonation of the eques-terian Miss Hardcastle was certainly most captivating, and was at all times the embodiment of part, modesty, and sweetness, and carried the audience with her as she carried the heart of Sir Charles Mar- low, Jr. With striking simplicity she evoked the complicated details of her design.

The unaffected love and tenderness of Miss Margaret Van Mets as Miss Neville, was done with a peculiar grace, and voices possess a voice in which its smoothness and softness of tone is peculiarly adapted for the impersona- tion of the character she represented.

No one in the University could more forcibly express the way the part as Miss Hardcastle than did Miss Cora Dor-

Miss Dorin has an equal talent and, on the Zeta, while, W. S. Nott, F. H. Blome and J. R. Shores will deny it for the Ithak.

A make-up which would naturally be difficult for a person of her age, was utilized with very effectually in creating a grammar of reality for the whole play, for all the charm and characteristics of the old lady of the times in which the play was written, have probably come down to the present along with the least changed of all.

Ed. H. Smith, as Tony Lumpkin, was certainly clever. His vivacity, his wit, his grimaces, all given in his own inimitable manner, were amusing, and accent the genius for humor and sincerity which appeared.

As Mr. Hardcastle, F. C. Ensign gained laurels in the minds of his hearers of which he may well be proud. And J. O. Schulte as Young Mariner, and C. S. Smith as Flashy, were both pleasing to the effective presentation of their respective parts. Though the part of Sir Charles Mar-

low was brief, it was exceedingly well done by Geo. M. Johnson.

The members of the cast were executed with an effect no less worthy of praise than the leading parts. The class of '96 may justly congratulate itself that this year, in the very last years of its connection with the University, it has acquitted itself so worthy, thus duplicating again the many attributes which have char-

acterized its history.

W. B. Patterson, C. B., after spending a year in Germany, will return to Philadelphiia in August, to accept a fellowship in the University of Pennsyl-

vania.

"The World is Mine."

The above figure of speech, uttered by the heroine of Ibsen's "The Wild Duck," seems to express vividly the feelings of bicycle riders after a trial trip on a "World." The "World" has embodied in its construction a number of the ugliest bicycle building features, such as absolutely dust proof crank- ing, barrel bearings, fork fittings through out, n, w fastenings for handle bars and seat post, which take the place of the neatly split, bolt and new triple fork crown and seat post cluster, and in fact it contains all the latest improvements in one thoroughly built. The easy running qualities of this wheel have been so thoroughly demonstrated that a mannerist will rue suf-}

ficult. Every record of one-fourth of a mile to one hundred miles has been broken and substantially lowered on the "World" cycle the past year. Never before in the history of cycling have so many wheels been so keenly watched in one season on one make of wheel, not in fact of all other makes combined.

The "World" will be used in its construction a number of the ugliest bicycle building features, such as absolutely dust proof crank- ing, barrel bearings, fork fittings through out, n, w fastenings for handle bars and seat post, which take the place of the neatly split, bolt and new triple fork crown and seat post cluster, and in fact it contains all the latest improvements in one thoroughly built. SUMMER TERM TO AUGUST 20. EVERY DEPARTMENT OPEN.

A Business Course that Meets all Reasonable Demands. Endorsed by Bankers, Merchants and Business Men Generally.

FALL TERM OPENS SEPTEMBER 6, 1897.

A University Graduate or Student

May enter Business or a Profession without a knowledge of Business Methods, and you may enroot the keeping of your accounts to others, but you are sure to regret your lack of training in such Business Business as we teach. The cost is very small indeed, compared with the Commercial Salaries.

We do not claim to Teach Everything.

As a matter of fact we teach but few things, but we teach those things well. We make a specialty of them. Our environment access to the highest practicable grade of teaching in our Specialities.

Our Instructors are the Best that Money can Procure.

From a Railroad President.
Office of Burlington, Cedar Rapids & Northern Rail-
way, J. E. Jones, President.

Mr. A. N. Palmer, President Cedar Rapids Business College, City:

Dear Sir: It gives me pleasure to say that the young men we have had in our employ, who have received their business education in your school, have been excellent help to the departments in which they have been employed and I use the best of testimonials of the efficiency of the course of instruction they have received.

Hoping that the college will not only maintain its high standing, but prosper in its numbers and influence, I am, Yours truly,
C. J. F. Jones, President.

From a Book President.

A. N. Palmer, President Cedar Rapids Business College:

Dear Sir: Some years ago I was somewhat prejudiced against the employment of Business College students on account of apparent lack of practical business training. Of late years I have been compelled to change my ideas, which came about by experience with young men employed by us, who received instruction in your school, whose business methods have proved to us all that we could expect. This taken in connection with inquiries made to us by our mode of training, convinces me that your college is giving its students a practical common sense business training.

Yours truly,
J. L. Bever, President.

From Another Insurance Man.

Iowa Fire Insurance Co.

Dr. Martin, June 14, 1896.

Having taken a complete course in the Cedar Rapids Business College, I take pleasure in recommending this school for a thorough business training, and its officers and teaching. I want paying instructors. J. D. Berry, Assistant Secretary.

For our written circulars. Come and See us. Why not spend your Summer vacation with us? Recommend us to your friends. You will never regret doing so. WHEN YOU BECOME AN EMPLOYER we want to furnish you Bookkeepers, Stenographers, and general office assistants as you may need them.

A. N. PALMER, President, Cedar Rapids, Ia.
There are others who want to buy a home in Woodlawn. If so, let us know. We can help you find the right home at a price you can afford.
