ATHLETIC RULES.

FORM OF RULES TO GOVERN ATHLETICS.

We publish below the form which, with the exception of the rules adopted by the Faculty last spring to govern athletics, must be signed by all candidates for positions on any of the University athletic teams.

FORM NO. 1.

Declaration of eligibility.

1. .......... hereby declare:
   (a) That I am a bona fide student of the State University of Iowa.
   (b) That I have never received compensation, directly or indirectly, for participation in athletic contests at any educational institution.
   (c) That I have never, directly or indirectly, offered my athletic abilities to be used by any educational institution's athletic team, for compensation.
   (d) That I have received my intimation that I will be tendered compensation for my present connection with athletics which I have not reported to the athletic committee of this Institution.
   (e) That I have not received any offer of compensation from a student of any educational institution for my athletic abilities; which I have not reported to the Athletic Committee of this Institution, and I hereby promise to report such an offer when received.
   (f) That I understand the word "Compensation" as used in this declaration to mean a valuable consideration of any sort, such as money, valuable commodities, undue incentive or employment, the payment of my expenses (other than those allowed under the Amateur Athletic Union rules or any benefits of any kind which I could not have received had I not been an athlete).

 Signed: ......... Classe 1897.

All orders hereafter in force will be observed unless revoked by competent authority.

Erdelphians.

The Erdelphians give their first program Saturday evening before a good sized audience. The program was of the usual Erdelphian interest from beginning to end.

The first number was a vocal solo by Miss C. C. Beals, followed by the retiring president, Mr. Paxton. In her inaudible address Miss J. J. briefly traced the growth of the society during the nineteenth century; the formation of women's societies and clubs; their object and influence, and closed with an outline of the Erdelphian policy for the coming term.

Leda Pinkham gave a declaration, "A Tragedy of the Arena." Miss Pinkham showed herself to be one of the best declaimers in the society.

The second number was a vocal solo by Miss H. B. Beck, followed by the president, Mr. Paxton, who introduced Miss Beal to the audience.

The Senior Class was next declaimed by Miss E. B. Eaves, with Miss H. B. Beck ably sustaining her part.

The Erdelphian program was a decided success, being entertaining, and being in harmony with the Erdelphian spirit.

The debate was on the question: "Resolved, that the reading of essays is more beneficial than the reading of novels," carried by Mr. C. G. and Miss M. A. Hatch. Essays are instructive; novels, however, were decided in favor of the former. The debate was spirited throughout, but the decision of the judges was unanimous for the negative.

At this point Mr. Beardsley entertained the audience with a piano solo.

Adelaide Lackeb next declaimed "The Bait and the Hook." The only common necessity is to say that Miss Lackeb ably sustained her reputation.

The Erdelphian program closed with a piano duet by Misses Owens and Perkins.

Challenge.

The Senior Classmates hereby challenge the Instructors of the Collegiate Department to a game of band, date to be arranged for.

E. C. Taylor, Sgt.
And now someone has discovered that the 220 course over which Weford made his 21 1-2 record last May, was several feet short. Presently we shall begin to feel that no amateur athletic record is reliable until it has stood unchallenged through a generation.

Lecture Course.

A recent interview with the managers of the Lewis Bureau reveals the fact that all arrangements have been made for a course consisting of a concert and four lectures. Apparently everything possible has been done to secure a strong course, and the managers are now busy making the minor arrangements in regard to selling course tickets, etc. We were told that full announcements of the number and dates would appear in about a week; that course tickets would be for sale by the fifth, and the course opened with a concert October 20th. The Bureau expresses regret at being compelled to trespass upon the night of a literary program, but that it was unavoidable in this instance. This, however, is the only number that will interfere with the regular weekly meetings of the societies. It is certainly hoped that the new management will avoid the mistakes made by last year. It seems certain that with a little more attention the duplicating of seats and the over-selling of the house would be done and surely should be avoided.

Saturday's Game.

What the record of our foot ball team will be at the end of the season we can only conjecture, but this much is certain, Saturday's game must clearly demonstrate the fact that we have the material for a winning team. Although the "boys" have been under Wagenhurte's training for only a short time, and the weather has been too warm for the best kind of practice, yet great progress has been made. Every one who saw the game with Weford, or has watched the candidates on the gridiron, feels satisfied with the outlook. No few of the last year's eleven are back that at first the quality of our team was dubious, but every day new men are appearing upon the field, and those who felt sure of making the team, now find other strong men also trying for their places. The fact that very few are certain of positions, the greatest incentive is offered for hard work. Although it was practically conceded that we would win on Saturday, yet the score will confirm our rival institutions that we are again in the field with an eleven that will be a winning team.

At about the same time that our men were up in smoke, a fire in the Natural History building of the University of Illinois did several thousands of dollars damage. As with us, the source of the configuration was lightning.

The scientific expedition which went to Alaska, last summer, from Columbia College, met with shipwreck on the return voyage and many valuable specimens and collecting instruments were lost.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is cataract. Hall's Cataract Cure is the only positive cure now known to the medical fraternity. Cataract being a constitutional disease requires a constitutional treatment. Hall's Cataract Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of this remedy that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc.

Six shins for 25c at Whitacre's barber shop, five doz. south of P.O. Just received by Whitacre & Fultz, a new stock of clothes, hair, and tooth brushes.

You can find a great assortment of cigars, tobacco, pipes, fishing tackle, and canes at the St. James Arcade Store—H. J. Wise.

The Center Rush.

The boys all go direct to Weford for good Job Printing. Why? Because he gives them the best work for the money—helps the athletic union reduce expenses and puts Klandars in pockets of all his customers.
