OUR FOOT BALL TEAM.

A REVIEW OF THE CANDIDATES FOR POSITIONS.

The foot ball team is hard at work these few days, getting into condition to defeat every team that may oppose them. The team is good and heavy; our coach is a good one; and, best of all, everybody is getting enthusiastic on foot ball lines. Every condition necessary to success on the gridiron is present, and this year’s team will undoubtedly be the strongest that has ever represented the University.

As to the personal of the team, it is impossible, at this date, to state definitely of whom it will consist, as the matter is uncertain yet, but will be determined, in a great measure, by the work of the various candidates between now and the day following the Drake game—that is within a week.

Among the candidates for the line are Wright, B. Holdeman, Walker, A. H. Finegan, Kanz, Tieberg, Kellogg, and possibly Myers. Wright will probably be chosen to fill in with Blackmore and Walker as guards. The rest of the places on the line may be divided among the other candidates in order of survival. Blackmore, Kanz, and Tieberg are good strong men; Meisner, Kanz, and perhaps Linville, are good quick linemen. The backs are still in the list. There is a line probably averaging upwards of 250 pounds.

The candidates for quarter, are having a lively battle for honors, Griffin, who was on the High School team last year, plays a snappy game, being excellent in defense, and formidable on the sprint. Delacy, of the same grade, is strong, is in good condition, and has the quickness to get on the tackle, and plays a surprisingly good game for a new man.

Archer, Gaines, Kemp, Shuldt, and Meyers, are all strong candidates for the halfback, and Meyers has practiced only once a week, but they will show their old strength. Gaines and Kemp each played well last Saturday, both making some long runs with the ball. Shuldt made two touchdowns and several gains in the same game, and is来 all round good man.

The candidates for full back are Hoobs, Bowes, and William Bowles and Williams are doing well, but Hoobs who has the advantage of a large experience, will probably fill this position.

Of course no one can say what a day may bring forth, but this afternoon’s game and the practices games of next week, followed by the Drake game, will tell the story.

Irvine.

A fair sized audience attended the program given in Irvine Hall last evening.

The Bailey quartette opened the program with an interesting vocal rendering of "The March of the States." The students were well pleased and being encouraged "Call John," a humorous number.

H. Boyce Mason then effectively declaimed the word story of "The Skillet in Armor."

The debate upon the question "Re- solved, that a high tax should be levied on all immigrants," was extremely lively and interesting.

M. Knapp opened with a forcible discussion clearly defining the position of the affirmative.

J. Bailey closed for the negative, making a very witty as well as effective speech.

C. M. Chamberlain, continuing for the affirmative, ably upheld and emphasized the position set forth by his colleague.

Mr. Lewis closed for the negative with an effective speech. Finally the two judges delivered a finely composed original entitled "The Same Thing Over Again.

On Thursday evening the G. I. Swine were invited to do their part with an artistic selection rendered on the cornet.

The debate was decided in favor of the negative.

Foot Ball.

News from Minnesota is that prospects for a good team this fall were never brighter. Harrison, and Russell Minnesota for a number of years, and captains of last year’s team, have both been re-elected as candidates for all of which they were re-elected.

"Gritland," the title of an oration by the master of men, was the highest praise that can be bestowed on a man.

As a Punishment Mr. Downey stands for above the average.

The debate was upon the question "Resolved, that the present currency system should be abandoned."

G. E. Lovell and W. M. Plum affirmed, while Chase Kellogg and W. H. Holt denied. The discussion was spirited; the points well brought out and very evenly divided, the decision being in the negative.

Mr. F. C. West then followed with an oration entitled "Daniel O’Connell."

Mr. West has much oratorical ability, and displayed it to good advantage in his oratorical delivery with the sentiment of his production.

A Homecoming" was the title of an exceedingly humorous declamation by J. W. Ham. In regard to its delivery he has to say that Mr. Ham’s reputation was fully sustained. A selection by the Bailey Quartette closed the program.

The foot ball management has been hard at work preparing a game with Drake for next Saturday, but were unable to do so. A game with some other team will probably be secured for that date.

GRINNELL TRACK TEAM.

PROSPECTS ARE GOOD FOR A STRONG TEAM.

The work done by the track men last week was very much more encouraging than at the first of the term. About twenty men have been out every night, and with the material that is to be found there is a probable team next spring. But let every candidate remember that it is only good, conscientious training, and keeping everlastingly at it, that we can turn out this kind of a team. Some of the men who are showing up unusually well are present: Carver and Whitney in the sprints; Lohr in the hurdles; S. W. Brown, Herr and Fisk in the jumps; Turner and Waterman in the throws.

Others who have been out regularly for training are:

Jump—Stuber, Cover and Clark.

Pole vault—Herr, Whitehill, Engle, Sheeler and Turner.

Long run—Shofield, Fisk, Winters, Yellin, and Lymant.

Walk—Marvel, Riser, and Peterson.

Shot—Hill, Smith, Petty, Stiff, Clark, Parish and Shepard.

Hammer—Hillier, Herr, and Arnold.

F. E. Speckling, Capt.

Starrett and Black.
