WE ARE THE VICTORS.

GRINSELL PLAYED A PUCKY GAME MYERS A HERO.

Score, 16-0.

More than halfback Myers than to anyone else played the game of the afternoon. After Iowa woke up to the game, they were stern all afternoon for the most sober team work of the year.

When time was called at 1 p.m. by the referee, the格林塞尔 opened up with their characteristic rush, and by repeated and splendid forced a touchdown and kicked goal, all in a half time period of five minutes later, by some of the pluckiest players. On the gridiron they scored their neat and last touch. Up to this point, the victorious play had been strong, swift, and energetic. Burr, Pierce, and Gray making especially brilliant gains.

But here Iowa rallied and at last, formation of a line that held against the terrific onslaught of the Scarlet and Black. The half closed with the ball in Iowa's hands at Grinnell's 30-yard line.

When the second half opened, the men in Old Gold appeared cooler and determined action at the end. Any moment.

At Grinnell's kickoff, Myers, aided by splendid interference short the field for 40 yards, did not score any good gains around the line, Iowa tried line-smashing tactics, and by the fourth quarter of Myers, who was played and repeated successively, and by some of the most superb teamwork ever seen in the big play, we scored a touchdown and kicked goal after 16 minutes play.

Dark was rapidly closing; but only one could read the efforts. Myers, though brunt and shucking after each rush, played for more gains, and 12 minutes later Iowa was pushed over for another touchdown. Grinnell kicked a goal, score, 16-0.

Then the crowd went mad—starting, raving—rushing—dancing in gayety. It was a beautiful sight. It was a great dark but hundreds of matches were kept blazing at the sideline.

Iowa reacted her tactics of working Myers, and 6 minutes Iowa was sent over for another touchdown. Score, Grinnell, 12; Iowa, 16.

The line-up was as follows:

**MORE DOCUMENTARY MATERIAL.**

ANOTHER PAMPHLET BY PROFESSOR SHARMAKIE.

From time to time during the past two years Professor Shurman has published and published leading documents illustrative of the condition and condition in history of the Iowa. Most of the leading documents, relative to the state in general, from the time they were agreed upon by the legislature of the State of Pennsylvania, are contained in the first eight numbers.

The new publication, containing numbers nine to eleven, and the beginning of Volume II, is dedicated to the development of national government in the Territory of Louisiana. It contains the text of thirty buildings in illustrating or regulating various branches of the local government. The documents are collated from the archives of the State Historical Societies of this and neighboring states, where they are accessible to the student, and being published in this form, can be used either in the class-room or in research work.

**Nomination.**

The following nomination has been

**A NEW MICROPHONE.**

**A FIRST PIECE OF APPARATUS JUST RECEIVED FROM VIENNA.**

While Dr. White's institution in 1874 last year purchased for the University a very pretty bit of laboratory apparatus to show large microscope of the latest and most approved pattern. As perhaps everyone knows, the microscope is used for cutting sections of material for microscopic examination.

This particular instrument consists of a large oblong metallic box, having in the middle a movable block over which passes a sharp knife run by means of an endless chain, operated from the outside. The material (for example an entire brain) is mounted upon the block, the whole being immersed in water or alcohol. By simply revolving the crank the knife is made to move horizontally back and forth, the material being raised to the necessary distance after each stroke. In this manner sections of any desired thickness can be cut with ease and rapidity. The large sections which can thus be sectioned must be examined under a microscope and microscope of the student is exercising large tracts, the course of blood vessels, etc.

The instrument is made by Reichert, of Vienna, and there are not above half a dozen like it in America.

Irving.

A highly enjoyable program was presented to a large and appreciative audience in North Hall last evening. The Misses Kritz opened the program with a beautiful vocal duet, which was heartily encored.

Harry E. Allen then delivered a humorous declaration entitled "The Dialect Sore." Considering the fact that this was his initial appearance, the performance was remarkable, and satisfied the average college student was unusually attentive. The gentlemen were well prepared, presenting their arguments in a logical, concisenote manner.

Messrs. Cones and Loos, in affording, held that the average college student was immature and untutored for the debate. Mr. Charles Wurtzel and Kingland is denying, held that every student whatever is open to the student is detrimental to his own interest.

The decision of the Judges was two to one. The judges, with good reason, considered the case of the State Historical Societies of this and neighboring states, where they are accessible to the student, and publishing in this form, can be used either in the class-room or in research work.

**The Big Games.**

In the two big eastern games today, Maine drew 41 and 14, Utah 29 and 7 and Yale from Princeton, 6 to 6.

Zeatality

The Zet Hall was well filled last night. The program was about up to the average. Mrs. Denney and Mr. McDermott opened the program with a vocal duet. The first literary number was a declamation by Mr. Curth entitled "The Raven." Mr. Cook then delivered an excel-lent oration on "The Man With an In." His fine delivery made it particularly interesting.

The debate was on the question, "Resolved, that trade unions are bene-ficial." It was affirmed by Messrs. Roll and Ralph Dawling, and denied by Messrs. Judge and Wright. The discussion was spirited and the argu-ments were well balanced. The deci-sion of the judges was two in favor of the negative.

The next was an oration by Mr. Lambert on "The Survival of the Fittest." The thought was profound and the oration was feelingly deliver-ed.

Mr. Wells followed with a very well rendered declamation entitled "Bel-is." The program was closed by a vocal duet by the Misses Kritz.
