CHICAGO'S REASONS.

A LETTER FROM THE C. O. C. ORTHODORICAL ASSOCIATION.

It was so generally understood here that a deal of money had with the University of Chicago this year, as in the two previous years, that no small amount of surprise was manifested when it was announced that there would be no such debate.

The letter addressed to the president of the Chicago association elicited the following reply:

UNIVERSITY OF CHICAGO, C. O. C., Nov. 30th,

Mr. J. R. Frailey, Iowa City, Ia.

My Dear Mr. Frailey—Your letter of December 6th has been carefully considered by the Oratorical Association. We regret a loss to understand how Iowa, without any correspondence with Chicago touching a debate all the present year, could have implied as such that a debate was intended by both universities. The understanding of Chicago wise and simple, definitely, Iowa and Chicago went to have two debates, one in Iowa, and one in Chicago. When these two debates were held the agreement was made as was extinguished. For avoiding debate-I'm making of another arrangement was necessary. Mr. Atwood, the president of the Association during last year, who was commissioner to act in such matters authoritatively, is very clear that he received no communication requesting an extension of the agreement, no communication indicating a desire on the part of Iowa to debate the present year, and no statement to make any Iowa man, which should, directly or indirectly, warrant the impression that Chicago understood about she was to debate with Iowa in 97-98. With this situation, which we have the present officers of the Association, and they receiving no communication from Iowa during the month of October, after full conference with the student body, they proceeded to arrange for debate with Michigan and Columbus. The conditions for this contest have been substantially settled. It is not the policy of the American academician to have more than two inter-collegiate debates annually. I am directed to state, therefore, that all the members of our Association cordially regret that it will be impossible for Chicago to accept the present overtures of Iowa for the debate this year. We sincerely trust, however, that Iowa will appreciate the necessities which spring from our situation and fairness of our position, and that this decision of Chicago is in no wise interfered with the favorable consideration by both Universities of all communications for debate that may be made in the future.

Very truly yours,

M. T. Gallaghr, Pres.

Lebath has won the inter-collegiate

The American School of Classical Studies has opened at Rome for its third year.

Two hundred dollars has been given to Yale to start a fund for the erection of a monument to Yale men who died in the War on the Union side during the war.

A Striking Contrast

It is observable in the Cash Coupon System in the Laundry Business and the old Credit System. By paying for your book in advance you receive a liberal discount and you know that laundry will be delivered and not charged in advance. We have the least chance of any error being made in charging up the account as in the latter system. Our aim is to do the cheapest work, but the best work possible, at a reasonable price. You must pay for the work some time. Why not in advance if it will save you money?
