The Senior class held a short but intensely interesting business meeting this Tuesday of this week; officers were elected for the remainder of the year as follows: President, F. N. Hanes; Secretary and Treasurer, J. G. Ekenberg.

Mr. C. L. Hayes returned to his post of duty yesterday. This week's prolonged stay is but a conjecture. Owing to rumors set about the early part of this week, we had hoped that congratulations would be in order upon his return, but Mr. Hayes refused to be interviewed upon the subject, so we are still in doubt as to this writing.

College Notes.

The course at the Cornell law school has been changed so as to require three years' work instead of two as formerly.

The Exeter base ball site is already practiced regularly in the cage, capped by Captain Millar.

At the University of Michigan trees are planted as memorials of graduating classes, instead of ivy, as is the general custom.

The course for basket ball is dying out. One after another of the universities which took it up are dropping it, with the public being among the latest to do so.

Professor Andrews, of the Brown University, made an address before the state convention of Illinois clubs, in which he advocated free text books and free lunches for the club.

Out at Leland Stanford Jr. University the Faculty has taken the bold step to unroll a half dozen of the famous names which have been dropped from the roll, chiefly on account of poor work. A number of students were sent home to their mammas because they were so bad they could not be saved, or something of the sort. Four were dropped because of too miscellaneous con­ duct after the Thanksgiving foot ball games—to put it mildly. If the star of progress rises in the west and keeps on rising on its way, perhaps it may shed a sort of moonlight radiance on the University of Nebraska some day and encourage brave hearts in action. And what a finish that will have if it reaches ancient Yale—U. of Neb. Report.

The Heart of Chicago.

Lavina E. Clarke's "The Heart of Chicago," said to be an annual comedy drama, will be the attraction of the Opera House on Friday night. "The Heart of Chicago" is said to be exceptionally well put on and to present some extraordinary stage points. As the story of the play opens on the sight of the great Chicago fire, and thus affords a brilliant opportunity for the introduction of a fire scene, this opportunity is not wasted. An absolutely new railroad scene is also a feature of the play. The scene is laid near Whiting, Ind., and a train is seen approaching in the distance, the engine being at first merely a bright spark in the darkness, gradually increasing in size as it draws near. Just as the bosom of the play adjusts the signal lights of the open bridge the train dashes down to the footlights and comes to a full stop side of stage opened this morning. Scotch prices.

THE VIDETTE-REPORTER.

An exchange from Northwestern University says that the lecture ever heard them gave greater satisfaction than that of H. Hopkins.

The following officers were elected in preparation for the winter term: President, George W. Preston; Vice-President, Leslie E. Switzer; Secretary, Ethel F. W. Rich.

Prof. T. S. Parks, of Cedar Rapids, is visiting relatives in the city. He is on his way to Mexico, where he will spend three months visiting with Fred and Theorah Parvin at Santa Fe.

J. J. Crossley, C. 99, who has been teaching at Winterset during the past year, has commenced work for the Ph. D. degree in Political and Social Science and Constitutional History in Yale University.

J. C. Masterson, L. 97, has been appointed to a legislative committee clerkship.

He is a graduate of Min. High's school, and his recommendation was a strong factor in securing him the position.

It will be well to remember that E. P. Hopkins, who appears here as the fourth number of the lecture course, has also almost all his engagements in the west this year—return dates over last year. He is the star of the show.

The Omaha World Herald presents a portrait of Charles Sumner Johnson, recently appointed judge of the United States court of the district of Nebraska. Mr. Johnson graduated from the Law department of the U. S. L. in '71. He has been practicing in Iowa.

The Whitehead Club held its first regular meeting Monday night in Professor Wilcox's lecture room. The paper of the evening was given by Professor Wilcox, on "The Central Division of the Modern Language Association of America." Dean Currier was elected president of the club, and Harry E. Kelly, secretary, the temporary organization being made permanent.

C. S. Wyckoff, L. 99, and a companion, while returning from a skating trip up the river, last Saturday, met with an accident which caused no rustling seriously. They had climbed into a farmer's wagon on their return, and in some way the horses became unmanageable, and ran away. Mr. Wyckoff succeeded in freeing himself from his dangerous predicament, but his companion, Miss Cooper, suffered more-from fright and bodily injuries, before her rescue was effected.
