IRVING WINS.

In a close contest over last night.

The following resolutions of sympathy have been passed by the students of the Senior class:

Vice-President Beck was denied:

Mr. Oscar Gable.

The Scarlet and Black, of Jan. 22, 1898.

Crossman, College.

Mr. E. Trux, our esteemed classmate, and

We appreciate the fact that in the sad bereavement which has come to him he has lost a friend through whose narrow was nearer, therefore, be

Resolved, that our fellow members of the Senior Dental class hereby give expression to our deep regret, and extend to him our tender sympathy in this hour of dire affliction. And further be it 

Resolved, that a copy of these resolutions be sent to the sorrowing family.

Resolutions.

Music

Senior Class Committees.

The following permanent committees were appointed at the Senior class meeting Thursday evening:

Hop — Hobby, Carter, Solomon, Headley, Homick, Saylor.

J. H. Metters, and 14 others.

We the undersigned members of the Athletic Union, hereby place in nomination P. C. McCutcheon for the office of Manager of the foot ball team for the season of 1899.

J. E. Sheekman, and 14 others.

We the undersigned members of the Athletic Union, hereby place in nomination E. H. Ringer for the office of President of State Athletic Association.

Geo. W. Izen, and 14 others.

We the undersigned members of the Athletic Union hereby place in nomination E. H. Ringer for the office of Manager of the foot ball team for the season of 1899.

B. R. J. Ewen, and 14 others.

Grinnell Symphonies.

The Scarlet and Black; Jan. 18th, says, editorially, of the situation of our athletic affairs:

"The financial situation which is facing the 'friends of athletics' in the University of Iowa at the present time is not a light matter. We have not the figures before us, but we remember correctly the whole indebtedness must aggregate twelve or thirteen hundred dollars. It is in the truce, sense of the word a crisis, and our only wish is that the matter may be satisfactorily arranged, and that the brilliant prospects for the coming season's work in all departments of athletics may not fail to be realized. While we sympathize most heartily with those of our University friends who are laboring to keep up the high standard of athletics attained them in recent years, we cannot but criticize severely the apathy and absolute lack of support on the part of the students, which must be the cause of the present unsatisfactory situation. If the student voted would cause some of their superfluous enthusiasm on occasions of a victory to be unmerited. Support in a financial way, there would be no crisis. We repeat that our only wish is to see the matter satisfactorily settled, as half the incentive Grinnell has to adopt would be removed if Iowa were unable to place their teams in the field."

College Notes.

The Athletic band system has been adopted at the Massachusetts Institute of Technology for the class elections.

Gymnasium work is compulsory at Cornell, Yale, Brown, Amherst, Lehigh, and a number of other similarly named Western Universities of Ohio, and University of Wisconsin.

At the Boston College indoor games last Saturday, Harry J. Keen ran twenty-five yards in three seconds, a new record.

Eight of Chicago's base ball team are in school, and will try for positions. They will miss Nichols and Henry Clark in the box.

A student of the University of Pennsylvania, George H. Frazier, has established a prize worth $1800 to be given annually to that member of the foot ball, base ball, track team or of the crew, who attains the highest standing in scholarship.

Graduate representatives of seven universities in the Western Intereollegiate Athletic Association met last Saturday, at Chicago. The chief question of the day was in regard to the choosing of an athletic field whereby to hold the annual games of the Association.

Brown University requires each student to secure three hours a week in the gymnasium. For class drill the freshmen use Indian clubs, the sophomore dumb-bells, the junior single sticks, and the seniors fencing foils. Each student is regularly marked and credited to his gymnastics work, faithfulness and punctuality being the tests.

There is a report that 99 will hold a smoker. These events are very successful in other institutions, and are expected to be one of the most popular of undergraduate life here. Cornell has them, as also have many of the eastern universities. It is a step in favor of a more democratic college spirit, and is line with several other very happy new ideas that have been brought out this year—U. D. of M. Daily.

Freshmen vs. Sophomore.

The basketball contest between the Y M C A teams of Independence and S U will be preceded, next Tuesday evening, by a game between the Freshmen and the Sophomore teams. Both these games will be of immense interest. The first game will begin at 7:30 sharp. The admission for both games will be only 25 cents. The gallery will be supported with seats, as none are to be reserved, and as the crowd is sure to be large, those desiring the best seats will be wise in coming early.

Notice.

All persons having bills against the Athletic Union will please hand or send them in to the office of:

sighted one. It is only a question of a year or two (and ought not to be that) until not only one, but several new buildings must be erected here. Where will they be placed? It is hardly in conformity with architectural theory to put them on top of our present collection of buildings, and there won't be enough unincumbered campus left upon which to perform the evolutions of a decimated corporal's guard, much less to build upon. As a matter of plain and unvarnished fact, more land is absolutely demanded for University buildings, and that land is needed right now. It is indeed a wholesome state of affairs when what little natural beauty S. U. I. does possess must be ruined for lack of land that must be purchased at any rate in a short year or two.

Northwestern University will play games outside the regular schedule this year in the Western College League. Three games have already been arranged with DePauw.

STATE OF IOWA CITY TO CODY

Frank J. Cheney takes oath as he is the moving partner of the firm of J. Cheney & Co., doing business in the city of Toledo, county and state of Ohio, and that said firm will pay one hundred dollars for each and every case of oatmeal that cannot be cured by the use of Hall's Curing Cakes.

FRANK J. CHENEY,

Sweon to before me and subscribed to in my presence, this 6th day of December, A. D. 1865.

A. W. GLICKMAN,

Notary Public.

Hall's Curing Cakes are taken internally and acts directly on the blood and mucous surfaces of the system. Public for testimonials, free.

IOWA CITY, IOWA.

Returned at the Iowa City Post Office as second class matter.

The New Building and the Campus.

That the new College building is to be placed upon the campus, now seems to be settled and determined fact.

Happy and thankful as we are to at last know that a really modern building is about to be erected among our historical and architectural landmarks, and realizing to the fullest degree the materialistic philosophy of the law-student's age, "beggars should not be choosers." notwithstanding all this, the determination of the Regents to erect the College building in the particular place they have chosen for it, seems, according to the sentiment and opinion almost universally expressed, to be an instance of great prudence and wisdom.

As it is, the campus of S. U. I. is by no means too large. There is no immediate danger of any one being lost in transversing its broad latitudes and deceptive topography. However what is it not only beautiful and attractive in itself and absolutely necessary to properly set off what buildings we have, but what is more important, it has become encrusted as a lasting tradition in the hearts of our alumni, and as an almost indispensable necessity in the minds of the student, holy itself. Viewed from any standpoint whatsoever the campus ought to be retained as it is at present. The present plan of converting it into a sort of dominion about large enough to easily receive rubbers, umbrellas, etc. is not as well refined by public sentiment, either in the University or without.

The policy of surrounding a building all the campus over, and retaining a chute or run way for the egress and ingress of students, is at best a short-sighted one. It is only a question of a year or two (and ought not to be that) until not only one, but several new buildings must be erected here. Where will they be placed? It is hardly in conformity with architectural theory to put them on top of our present collection of buildings, and there won't be enough unincumbered campus left upon which to perform the evolutions of a decimated corporal's guard, much less to build upon. As a matter of plain and unvarnished fact, more land is absolutely demanded for University buildings, and that land is needed right now. It is indeed a wholesome state of affairs when what little natural beauty S. U. I. does possess must be ruined for lack of land that must be purchased at any rate in a short year or two.

A Frock Coat

IS LIKE PATENT MEDICINE.

Good for both extremes of all cases.

It's becoming in tail and short more alike. It is correct in daylight and in darkness.

It is worn by rich and poor.

Buy to $30 gives you the newest cloth and latest style.

Coast & Easley.

The Iowa City Conservatory of Music.

154-156 E. 12th St. Building.

IOWA CITY, IOWA.

A professional and efficient organization of highly trained musicians, and a part of the Iowa City Conservatory of Music.

The Plan Department is typical in purpose of instruction with the largest European conservatories, attracts students, faculty, and public and includes all branches of Piano-forte instruction, including theory, as well as instruction in the history of music and composition.

The Vocal Department embraces the modern Italian method of vocal cultivation and becomes a thorough and extensive course of training in the art of breathing and voice technic.

The Violin Department comprises the old German method of teaching the art of Violin playing and instruction in the technique and art of chamber music.

The Band Department embraces the art of Band music and instruction in all of the instrumental branches.

The Piano Department, under the direction of Frank J. Cheney, is one of the most complete in the state and teaches in all branches of the art of Piano playing and instruction in popular music and in composition.

The Art Department embraces the study of Music, history of Music, art, and art instruction in all branches of the art.

The Conservatory is conducted in the highest style, under the direction of WM. J. HALL, Director.

LATEST STYLE HATS AND FURNISHING GOODS AT BLOOM & MAYER'S.
REPORTER.

The Board of Regents, after carefully considering all the submitted plans for the new College building, has chosen a number of the architects, and requested others to remain for a final survey of the drawings.

The Iowa Engineering Society closed its session at Cedar Rapids Thursday - Professor Sins gave an address on "Geophysical Determination of Stress." C. P. Chace, a graduate of S. U. I., was elected president for the ensuing year. Iowa City was selected as the place of meeting in 1890.

Princeton has begun work on her track team. Twenty-five men responded to the first call. Most of these are old track men, as Princeton is sure of a good team.

Dr. Harper, of Chicago University, has announced that the Rush Medical College will soon be affiliated with the university as a Medical College. The affiliation does not take place immediately, nor will the union at first be permanent, but the final outcome probably will be permanent connection. It seems that Rush Medical has for some time been seeking admission to Chicago University. Such union is very popular with the people of Chicago. Supposedly, it will not be long before Chicago University has all the qualifications of a private medical college.

Cornell has replied to the challenge of Harvard and Yale for eight carrel boat races at the close of the college year. Cornell agrees to row both Yale and Harvard, the latter unconditionally and the former with the proviso that she, in return, be allowed to name the time and place of a match to be arranged for. This means that Yale must bind herself to row Cornell next year, no matter what the outcome of this year's race may be. Considerable doubt is expressed in boating circles as to whether Yale will accept, but all acknowledge the fairness of Cornell's propositions.

Harvard is discussing the advisability of prescribing a course in physical culture to be necessary to obtain a degree. Three possible plans are proposed. One requires a physical examination upon entrance, and each year after matriculation. The second provides a physical examination and exercise every week, and attendance at certain courses is a work in physical hygiene, lasting throughout the Freshman year. The third plan proposes a graded course of physical exercise through the four collegiate years, in which the work of the gymnasmium would be taught by a number of instructors. The committee on physical training favors the second plan.

The University of Illinois track team is looking forward to a fortnight of track meets on foreign soil in May. Negotiations are now being made with five different colleges which they would like to visit. The schedule as proposed includes a meet on May 11th at Madison the week after. Somewhere between the two, either or perhaps both Lake Forest and Northwestern Universities will be met. The fifth meet proposed is one with Michigan, to be held at Ann Arbor. Since the year Illinois took the western intercollegiate track championship, it has been looked so promising at Champagne. Seventy-five casuals for the track team are at work every day.
