BACONIAN.

AN INTERESTING PAPER GIVEN BY
DR. GILCHRIST.

The paper of the evening was read by Dr. Gilchrist on the subject of "Physiological Compensation."

Only in recent years has the surgery of the nerves been carried to a successful issue. At the present time when a nerve is cut a renewal of the function may be brought about by the reunion of the two ends. This the Doctor has accomplished even after the lapse of six months. In this case the wound had been filled with scar tissue, and the severed part of the nerve greatly atrophied.

It has not been many years since it was discovered that injury to certain parts of the brain cause very definite reflexes in that part of the body controlled by that portion of the brain. Surgeons take advantage of this fact in locating lesions of the brain. There are cases, however, in which this does not seem to apply.

When a joint is dislocated, and for some reason the dislocation is not reduced, some remarkable changes take place. If it be the hip joint the acetabulum is soon filled up, the tendons stretch slightly, and the ball of the femur is soon surrounded by connective tissue that eventually forms a bony socket.

When the function of the skin is impaired as by a burn, the function is taken up very unexpectedly by certain intestinal glands known as Bruner's glands. Why this should be we do not know.

Although the stomach has been considered a very important organ it has now been demonstrated that a person may live and thrive without a stomach. The case in point is a recent operation in Switzerland in which a woman had her entire stomach removed, because of its diseased condition. She is now at work, and has gained considerably in weight.

One point to be remembered in such cases is this,—the organ is to lose its function slowly; otherwise death will almost surely occur.

Dr. Rockwood gave a voluntary report on the functions of the stomach, and stated that the intestinal ferments were competent to digest all food except connective tissue.

Dr. Breen made some remarks on the possibility of a double nerve supply for the muscles.

Professor Weld gave a voluntary report on the limit in the size of big guns.

Wisconsin Dissatisfied.

The Wisconsin Cardinal says editorially, in regard to the new foot ball rules: "It is not likely that Wisconsin will take cognizance of the foot ball rules as laid out by Stagg and Everett, except in so far as they agree with the results of the Eastern conference which will be held in New York on February 12. As we predicted, the attempt on the part of Chicago to establish in the west, rules different from those in the east, has failed. While there are some good points to the new rules, the revision as a whole is incompetent and will not prove ac-

ceptable to most western colleges. Northwestern has already expressed her disapproval of the revision, while the antagonism of Wisconsin and Michigan to any strictly Western rules, is well known. Without the support of these three important institutions the rules will never go into effect. Wisconsin maintains that there is no need of separate rules for the west, and will wait for and abide by the Eastern rules."

Hesperian.

On account of the heavy storm the attendance at Hesperian Saturday night was small, and the program was necessarily shortened.

The program was opened by a piano solo by Miss Berry, which was greatly appreciated.

With a few fitting remarks Miss Lodwick, the retiring president introduced the incoming President, Miss Jacobs. The inaugural address was earnest and thoughtful.

The debate upon the question: "Resolved, that communism is a benefit to society, was affirmed by Abbie Safford and Agnes Safley; denied by Nancy Paris and Lillian Hulsebus. The debate was decided in the negative.

Mary Hornbrook followed with a recitation.

The program was closed by a vocal solo by Miss Dow.

College Notes.

The Yale-Princeton joint debate will be held at Princeton on March 25, 1898.

Massachusetts is alone in requiring a strictly high school course for admission to her normal schools.

Cornell has a different kind of "C" for each of the four divisions of athletics—foot ball, base ball, rowing and track.

Captain Boyle, captain of the Pennsylvania crew, has resigned his position on account of the time taken from his studies.

The registration of students at the University of Pennsylvania for '97-'98 shows an attendance of 2,834, an increase of 28 over last year.

A number of essays and addresses, by President Elliot, of Harvard, have been published under the title of "American Contributions to Civilization."

Girard College celebrated its fiftieth anniversary, recently, with an elaborate program, including an address by Mayor Warwick, of Philadelphia, and an oration by Speaker Thomas B. Reed.

At the University of California the electives are divided into groups, and the students, in choosing an elective, must choose the whole group to which it belongs. This renders a superficial education impossible.

The University of Missouri receives \$23,000 from the estate of the late John C. Conley under the operation of a law recently passed by the Legislature which provides that if a man dies leaving no father, mother or direct lineal descendant, a certain per cent of his estate, excluding any amount left for charitable or religious purposes, must go to the State University.

NEW FOOT BALL RULES.

COMMITTEE'S REVISION OF FOOT BALL CODE.

For the benefit of those of our readers who have not seen the foot ball rules as revised by A. A. Stagg and H. H. Everett, we publish them below. The rules are as follows:

Rule 2. The rule as amended reads: "A free kick is a term used to designate any kick where the opponents are restrained by rule from advancing beyond a certain point. Under a free-kick are included the kick-off, the kick-out, the punt-out, a kick from a fair catch, and a place-kick for goal after a touchdown. Any player of the side having the free-kick may put the ball in play."

Rule 3. The rule as amended reads: "The ball goes out of bounds when it crosses the sideline, or when the holder puts part of either foot across or on the line. The side-line is out of bounds, and across the goal line is in goal."

Rule 5. The rule as amended reads: "A touchdown is made when the ball is carried, kicked or passed across the goal line and there held, either in goal or touch-in-goal. The point where the touchdown is marked, however, is not where the ball is carried across the line, but where the ball is fairly held or called 'down.' By 'across the goal line' is meant that at least one-half of the ball when placed at right angles to the goal line shall be beyond the center of that line. In cases of doubt the decision shall be in favor of the side trying for the touchdown."

The rule for a safety seems sufficiently inadequate to warrant the framing of a new rule. It is as follows: "A safety is made (1) when a player, securing the ball from his own side, either on a snap-back, a pass, a fumble, a kick, or on a kick blocked by opponents, touches it down or is held or downed so that the ball is across the goal line which he is defending; (2) when, having secured the ball from the opponents through a misplay or on a kick, he attempts to advance it and is held or downed in his goal; or when he is held or downed with the ball, in his goal, after he himself or one of his own side has given the impetus which has caused the ball to cross the goal line which he is defending."

Rule 7. The rule as amended reads: "A scrimmage takes place when the holder of the ball places it upon the ground and puts it in play by kicking it forward or snapping it back. If after the snapper-back has taken his position, he should voluntarily move the ball as if to snap it, whether he withholds it altogether or only momentarily, the ball shall be regarded as in play and the scrimmage begun."

Rule 8. The rule as amended reads: "A fair catch is a catch made direct from a kick by one of the opponents or from a punt out by one of the same side, provided the man while making, the catch makes a mark with his heel, and no other player of his side has touched the ball. If he be interfered with by an opponent who is off-side, or if he be thrown after catching the ball, unless he has advanced beyond

his mark, he shall be given fifteen yards. If a side obtain a free-kick from a fair-catch, they may put the ball in play by a punt, drop or place-kick, and their opponents cannot come within ten yards of the line on which the fair-catch was made. The kicker may kick the ball from any point directly behind the spot where the catch was made on a line parallel to the side line."

Rule 10. The rule as amended reads: "Charging is rushing forward to seize or block the ball or tackle a player."

Rule 11. The rule as amended reads: "A player is put off-side if the ball in play has last been touched by one of his own side behind him. A kicked ball, therefore, which first struck or was touched by a player belonging to the kicker's side who was in front of the kicker, should go to the opponents for a scrimmage at the spot where the off-side play occurred. No player when off-side shall touch the ball, except on a fumble in a scrimmage, or in case of a muff of a kicked ball, nor with his hands or arms interrupt or obstruct an opponent until again on side. No player can, however, be offside in his own goal."

Rule 16. The rule as amended reads: "The captains shall toss up before the beginning of the game and the winner of the toss shall have his choice of goal or kick off. The same side shall not kick-off in two successive halves. The ball shall be kicked off at the beginning of each half, and whenever a goal has been obtained, the side which has lost the goal shall have the option of making or receiving the kick-off. In the case of kick-off, kick-out, and kick from a fair-catch, the ball must be kicked the distance of at least ten yards into the opponents' territory, unless stopped by an opponent."

Rule 17. The rule as amended reads: "At kick-off, if the ball be kicked across the goal line and there touched down by the opponents, it is a touch-back and must be put in play according to Rule 27. If the ball go out of bounds before it is touched by an opponent it shall be brought back and kicked off again. If it be kicked out of bounds a second time, it shall go as a kick-off to the opponents. If either side thus forfeits the ball twice it shall go as a first down at the center of the field, to their opponents."

Rule 18. The rule as amended reads: "The side which has a free-kick, except a punt-out, must be behind the ball when it is kicked. If a player of the side kicking the ball be off-side the ball shall be brought back and kicked off at a point ten yards nearer the kicker's goal. If a player of the side receiving the ball be off-side, that is, beyond the line where he is restrained by rule, his side shall be put back ten yards. At kick-off, and on a kick from a fair catch, the opposite side must stand at least ten yards in front of the ball until it is put in play. On a kick-out the opposite side cannot stand nearer the goal than the twenty-five yard line except on a kick-out made after a drop kick upon the first down inside the twenty-five yard line, when the fifteen yard line is the restraining point."

Entered at the Iowa City Post Office as
second class matter.

The thanks of every student and friend of the University are due to the Iowa City Citizen for the fair, unprejudiced, and manly write-up of the famous Cherry Sister episode. After the recent seige of frothy imbecillism indulged in by the hangers-on of the local press, it is indeed refreshing to discover what real public sentiment is as expressed in a reputable and responsible paper, such as the Citizen.

Next!

Our attention has been called to the fact that another representative of "yellow-kid" journalism, this time an organ known as the Saturday Herald, and having an ethereal existence in some part of Johnson County, burst forth in pyrotechnic eloquence relative to the Cherry Sister affair.

Our only reason for omitting the Herald in our remarks of last Thursday arose from our utter ignorance that there was such an institution. Careful search reveals the fact that this paper is actually a tangible reality. After a systematic and faithful investigation, the Herald establishment, composed of one chair, one desk and an indeterminate amount of official dignity, was definitely located in a corner of the American Express Company's office on Washington street. It can there be seen free of charge by those of a morbidly curious nature. Care should be taken not to confuse it with the express packages and oyster buckets, however.

After an interview with the authorities we are pleased to announce that notwithstanding the Press-Herald brother act, the State University of Iowa is still anxiously awaiting the judgment of the High School Echo before permanently closing its doors.

Oratorical Contest.

The date for the annual home contest has been set for March 4th. According to the constitution orations must be handed to the President not later than February 4th. This gives the judges on thought and composition two weeks to make their markings and two weeks for the successful six to train in delivery.

There is about a week before the orations must be ready, and while it would be too late, probably, to begin writing now, we wish to urge all who have written to have their orations printed and handed in. Nearly every year a number write, often spending no little time in working up a subject, and then at the last moment "lose nerve" and fail to hand in their production.

While it may be almost certain that such and such a person will "get on," yet there is always a chance, for everyone who ever entered such a contest knows that there is a large element of chance connected with it from the fact that no oration appeals the same way to different judges. It is common to see one judge mark an oration first and another mark it near the last in the series, and it is by no means the oration that has been longest in preparation that is the winner. It was but year before last that two of the six winning orations were prepared in less than one week.

We would further urge the importance of having the copy in the hands of the printer at once, so as to allow plenty of time for proof reading and final corrections or changes. Judging from the number who have appeared at the meetings of the contestants it would seem that there will be less in the competition than usual, so there is a good chance for any and all.

It is probable that the Oratorical Association will re-consider the move it made last fall, and send three representatives to the final contest, as heretofore. It is the sentiment of those entering that it would be fairer to all to have five instead of three judges on thought and composition, and the Association will probably grant them this request.

Owing to the young blizzard, Saturday afternoon, the attendance at the Delta Gamma reception was small. The number at the Erodolphian reception to the new girls was also much smaller than it would otherwise have been.

The plans for the new Collegiate building were all rejected. The eight architects whose designs were seriously considered will draw up new plans, the building to be in harmony with the old capital. These plans are to be presented not later than March 1st, and the Board is to make its selection by the last of March.

Thursday of this week is set apart as a day of prayer for colleges throughout the world. In many of the large eastern institutions, recitations are set aside for this annual occasion. The day will be observed at the University by holding a meeting at the Close Hall auditorium at 7 o'clock, Thursday evening. All members of the Faculty and all students who can possibly attend are urged to be present. Secretary John S. Moore, of the Cedar Rapids Young Men's Christian Association, will be present, and give a brief address in connection with the service of prayer.
