The mass meeting, therefore, was regarded as a serious and evidently held by the Faculty.

That we believe the punishment and sentence imposed upon them, just to the Constitutionality of the light of the decision, really committed, was very severe when the intent or rather lack of it is taken into consideration.

That above all, we believe that the action means to those personally in a matter of future college connection, and may form an entire change of life in some whose services in their respective lines of work this University can ill afford to lose.

That for these reasons we respectfully pray and the Faculty to reconsider the action and mitigate and rescind, if possible, the decision at which it has arrived.

The committee was then instructed to give those resolutions to the Faculty at its next meeting, after which this gathering, represented: representation, the proposition, and the body, and its action, at the same time, need no particular approval, in which at present writing contains about a thousand student signatures will also probably be presented.

The Forum will debate the question on the action of the Faculty was justifiable in suspending the students for their participation in the Friday meeting of its meeting to-morrow evening.

The subject for the special prize theses has been announced: "Discuss the Constitutionality of Section 3280 of Code of Iowa 1897." A valuable prize will be given to the successful competitor.

We, students of the State University of Iowa, in mass meeting assembled, do hereby protest against the action of the Faculty relative to the persons imprisoned in the Freshman banquet hall, resolving that the same be immediately released.

That we most sincerely regret the unfortunate circumstances which led to the suspension of twenty-three of our fellow students, and we recognize and agree with the Faculty that measures must be taken to prevent such occurrences as will maintain proper discipline in our University, and that we, representing the student body, are willing to cooperate heartily with the Faculty in discouraging all such conduct as in its eyes has recently been found reprehensible.

How we believe the persons implicated acted as they did under the belief that they were supported in their course by those who have been elected to the student body, and we earnestly request to be present.

Notice to Athletic Union. According to the constitution of the Athletic Union, the annual election of officers will take place Wednesday evening, Feb. 10th. All who are members of the Union and are interested are earnestly requested to be present.

Track Team. There will be an important meeting of the track team at Club Hall, Saturday morning at 10 o'clock. All who are present during the meeting are earnestly requested to be present.

Board of Visitation. R. F. Frasier, President.

We are able, through the kindness of those in charge at the hospital, to give the following interesting facts regarding the work done since the beginning of the college year, as shown by the clinic record: There have been as it may be in a hospital—carcinomata of the breast, hernitocele, appendicitis, phthisis pulmonalis, and the removal of a dermal cyst. Eight malignant and 17 innocent tumors were treated. There were 5 cataract operations, 3 dislocations, 4 fractures, as emergency cases, and three cases of necrosis of the bone. The following diseases also received surgical treatment in the clinic: Varicose veins, hydrocele, salpingitis, phthisis pulmonalis, several cases of rhinorrhea, several cases of peritonitis, phthisis pulmonalis, lupus, portopus and morbus cutis, as well as one case of hyphema.

College Men Who Attend Distinction. A majority of American colleges have opened their doors to the sons of all classes of our country, may be shown by statistics compiled after an examination of "American Colleges and Universities." From the statistics there given it is seen that of 15,000 men named, 3,900 are college graduates, and 1,080, or one in every three.

The objects of the movement are to enlist the students in the colleges and theological seminaries in prayer and labor for the proclamation of the Gospel of Christ in the whole world in our generation, to enroll among students in the institutions of higher learning, to be the friends of Christian students of North America in regard to the progress and needs of modern missions, and to assist students and all Christians to the obligation of immediate financial cooperation with the different Boards of Missions. In over two hundred and fifty colleges there are classes following the course of study prescribed for the movement. The convention at Cornell will from present indications be not only the largest missionary gathering ever held in North America or the world but also the largest university gathering ever brought together.
