The Hawkeye '99.

Some features of the forthcoming book.

The Hawkeye '99, Volume XIII of the University Yearbook, has been cleaned by the hands of the printers, and will be on sale some time during the coming week. An examination of the advance sheets of the book is evidence that this year's Annual will not suffer from a comparison with those of preceding years.

The editor has selected as background color for the cover, a fine green, that being the color representing the Junior class of the College departments.

1. Tour.

A composite of the University buildings, is one of the art boards, drawing of the Central building, and pictures of the Medical buildings, are illustrated.

The professional departments are represented by histories and half-tones of the Junior class, individual photographs of the Medical professor and students: also two full pages to the dividing given to the Medical department. The jokes and grunts of the professional students, are found in the divisions assigned to the department to which the subject belongs.

The class of '99 is represented by nine pages containing individual photographs of the members of the class and by a roll of the class in which are given the honors of each individual. The section of the Junior class, contains all those, which appears here, is the use of Greek letters.

The annual is about to be well brought off the Hawkeye '99. It is neat in the arrangement, and the arrangement of matter. The half-tones and one-stichings are as good if not better than those of any previous Hawkeye. The history of the University is in S. U. A., as usual, a book which will interest the students and Alumni of the University. It is a record of the year's work, and it will be of inevitable value in making a summary of college life and a record of University happenings.

The Hawkeye '99.

The annual is an interesting book, some are of the value of the University, which asks for the passage of the following bill:

"To cover expenditures in furnishing the burned building and repairing and replacing apparatus injured and destroyed, and in preserving as far as possible damaged and injured property, the sum of thirteen thousand one hundred dollars ($13,100), payable on the first Monday in February next, to the order of the Comptroller of the University, as said University is hereby appropriated any out of any funds in the state treasury not otherwise appropriated, to pay for the loss by fire at the State University, and to replace the general library, and to repair and replace the damage and to conserve the building in which the same were contained, the sum of one hundred thousand dollars ($100,300), payable as in the next section set out; and for the not specifically thereto appropriated."

The sum appropriated in section one (1) hereof shall be paid out of the following funds of the University, and shall be applicable to the following purposes:

1. BEAR.

"For restoring and in aid of the general library, the sum of seventy-five thousand dollars ($75,000), payable on the first day of July, 1897, and the sum of fifteen thousand dollars ($15,000) payable on the first day of July of each succeeding year, until the full amount of said seventy-five thousand dollars ($75,000) shall have been paid."

The committee cut on section 1, entirely, granted the $11,100 clause of this bill.

Communications from Representative Edwards states that the House appropriated this sum with an aggregate appropriation of $46,000 for the University for the balance of the biennial period. This is allowed somewhat less than the University's estimate of the sum appropriated for the year 1889-91, and for the next biennial period.

Boston University has proposed a triangular track meet with Cornell University and Harvard University, to be held a week before the Mott Haven games.

A decree has been passed by the President of the University for the adjustment of all the existing foreign students in the mechanical and engineering departments of the Berlin Technical High School.
s of association and loyalty to
S. C. L., triumphing temporarily over
increased facilities for work.
Such, however, will not be the case in the future. Students who have yet to
choose a college, students who have no
association to draw their, naturally and rightly go where
advantages are the greatest, and in no one
thing are advantages found as in a
fully equipped library. Thousands of
dollars at present are spent in other
states for education, which
should be made procurable at home,
and if present indications are any cri-
terion, this sum will continue to in-
crease.

Enforce the Rules.
One of our Kansas exchanges says of
the new rules: "The rules adopted by
the Western Inter-Collegiate Assn
for the regulation of foot ball
games should be stringently enforced.
spirit, as well as in letter. The
demand of the public and of the
college animal is for whatever athletes. Every
alumnus wants his alma mater to win, but no alumnus wants to win by
professional methods." It is as fortunate that many students are so
situated that they are not, also to go
college, but such a disadvantage
should not be made an excuse for
making a college team professional.
The aim and ambition of every man
who enters college should be to gradu-
ate. If a man can add to the fame of
his college in athletic contests, it is
his duty to do so, and the man whose
sole ambition is to make the dean, the
crowd, and who leaves school at the
dischARGE of our system, is not a credit
to the school, and he should not be
permitted to take part in any contest
which assumes to represent his col-
lege.”

Cathcart Cannot be Cured
with local applications, as they cannot
reach the seat of the disease. Cathcart
Cure is taken internally, and acts di-
rectly on the blood and mucous sur-
faces. Hall's Cathcart Cure is a
quack medicine. It was prescribed by
one of the best physicians in this
country for years, and is in regular prescrip-
tion. It is composed of both
newspapers, combined with the best
bandage, acting directly on the
mucous surfaces. It is a
mixture of the ingredients in what
produces such wonderful results in
curing cataract. Send for testimonials, free.

W. O. Kuder, of Oxford, was in town yesterday.

The Y. M. C. A. delegates to Cleveland are home.

Sam Hill, at our Ohio State Bank.

The University of Michigan offers this year, for the first time, a course in music.

The University of West Virginia at New Martinsville has adopted a uniform system of instruction, including the study of music.

Parma, O. W., has gone to his home, and upon his return will be at home to his friends.

Ruth St. John, 29 N. St., of this city, was elected president of the Iowa State Bank in its last election.

Dr. and Mrs. Benedict, of Wellman, are visiting at the home of Miss Zoë Clabancil. Dr. Benedict is a graduate of the University.

Professor Webster will present a topic to-morrow evening bearing on psychology of the lower animals. The title of the paper is "Experiments with Young Chick's.

The last Hesperian (U. Of Neb.) says: "The series of games between N. U. and U. of S. base ball teams promises to be a remarkable series. Arrangements have been completed for three games, one of which will certainly be played in Lincoln. The fact that the winner of this series is to receive a $50 trophy donated by Hepholtemer & Co., will only make the games more vigorously contested."
The fifth intercollegiate football contest will be held in New York this month, Harvard, Columbia, Cornell and Amherst have entered.

A project is now first to unite all the leading New York colleges into a firm athletic union for the purpose of excluding professional players and making the game fair and base ball strictly intercollegiate.

The Young Men's Christian Association of Minnesota University is arranging to establish a novel scheme for making more of each student. The amounts raised are to be small, and are simply intended to hold men who are working in a way over a period of embarrassment. A low rate of interest is charged that it may not be a matter of charity. To provide the funds, shares of stock are issued, and there are paid per year.

These shares may be withdrawn after one year, but if not redeemed within three years the same property of the Association. A considerable number of shares have already been taken.

Round Table.

Promised Truck Meet.

The University of Nebraska publication, The Nebraska, published the following notice in their last number:

"At the request of the State University of Kansas it has been arranged that it is willing to go into the proposed quadrangular track meet to be held at Oxford during the Texas-Mississippi Games. The proposed parties to the contest are the State University of Kansas, Missouri, Iowa and Nebraska. Kansas is the only one thus far to respond to Nebraska's invitation, but the other states will doubtless follow Kansas' example when the invitation reaches them."

College Statistics.

In the year 1890 of colleges qualified to grant degrees rather than professional, Ohio, had thirty-eights; New York, forty-eight; Pennsylvania, fifty-two; Illinois, twenty-eight; Indiana, fifteen; Michigan, twelve; and Massachusetts nine. At the end of 1917 it is number of colleges Ohio averages the smallest number of students to a college, Massachusetts leading off with 110. New York, 246; Michigan, 327; Pennsylvania, 327; Indiana, 310; Illinois, 310; Ohio, 198. The average annual income from all sources in Massachusetts amounted to $16,000; in New York, 84,524; Michigan, 48,011; Illinois, 48,011; Pennsylvania, 48,011; Indiana, 45,000; and Ohio, 45,000. State Universities are not included in these statements and averages.
