ATHLETIC MEETING.

A LARGE CROWD PRESENT AND MUCH ENTHUSIASM MANIFESTED.

In accordance with the Constitution, the members of the Athletic Union assembled at First Hall on Saturday evening to elect officers for the coming year.

The meeting was called to order by President Fraley, and the nomination of Geo. W. digit for president announced. By motion, Mr. Egland was elected unanimously and unanimously declared elected. In response to the summation of the vote, Mr. Egland expressed his thanks for the confidence placed in him, and urged several practical methods of improving our Association. Mr. Egland is not only an excellent athlete himself, but is enthusiastically in favor of everything connected with sport and amateur Athletics. In addition to this he is, as well as all other officers elected, a conscientious worker, and if击败ereus next year, it is safe to predict that he will not be from any fault of our leaders.

The nominations for Vice-President were Robert Harlan and Miss Banks. Mr. Harlan was declared elected, Miss Banks received 13, Miss Banks 71, the latter being declared elected.

The managers of the single命题 for Treasurer, on motion, he was declared the champion's choice. The following were announced as: F. S. Holstein, N. L. Eby, and F. C. Coningham. On first ballot Hobbs received 40, Eby 52, and Coningham 22. The second and third ballots varied little from the first.

A. A. Sargent, E. H. Yule and F. C. Neal were declared candidates for Secretary, and by second ballot Sargent received 23, Yule 47, and Neal 32, Mr. Yule was accordingly declared elected.

Drake's. Miss Kelly held the closest attention, ready for the audience throughout.

The next number was a speech by Alta Robinson. Miss Robinson's subject was "Health in Literature," and she showed a thorough knowledge of her theme, tracing the changes in her language in a most interesting manner.

The program was pleasantly concluded by a piano solo by Miss Popehain.

The debate was on the question of the course of study for the Bachelor's degree being changed from six to four years. Three years W. J. Johnson and Ora Orza had favored such a reduction, while Helen Eddy and Annie Gow opposed the same.

The debate was spirited, and showed good preparation throughout, the affirmative holding the lead at least one year of the present course is not college but university work; and the negative claiming that the majority of students who cannot take advanced work have a right to such work in college. The debate was decided in favor of the negative.

Miss Polk followed with a declaration, "The Speaker of Sections Miss Polk has a pleasing manner in declaration which her bearing enjoy. Bartle Dennis followed for the evening with a declaration entitled "Jim's Last Ride." The manager of the Union announced that the debate would be continued on Tuesday evening.

Were he bought? Yesterday's Des Moines News contained the following important item concerning Hamilton, of Drake, who is reported as being bought by his college: "Has Hamilton been bought? This was the question which the students of Drake University are asking today. He is the best athlete in the University, and the manager of the Union has been looking for him to enter Iowa College. Hamilton would have been able to have won sixteen points for the University if he had remained, as he has a monopoly on those sixteen points in the Iowa Meet. His departure will partially break up the chances of the team for the next field meet. The students of the University are much exercised over the matter, and all say that Grinnell bought him. Hamilton gave us his reasons for going that he would be under a better trainer in Grinnell Land would have a chance to enter six field meets. Grinnell has just secured J. W. Waring, his old trainer, for another year, and the college would make a great effort to win the next field meet. The State University is also said to be making its interest to win that event, and the State Agricultural College must be behind. However, Hamilton had remained at the University they would have had good luck. -The number of students of Drake say that members of the Iowa College Athletic Union and Hamilton have been in correspondence for some time, and his departure is no surprise to the majority of them."

For the first time in six years Cheerleaders are to be represented by a band, for the first time in six years Cheerleaders are to be represented by a band, for the first time in six years Cheerleaders are to be represented by a band, and the first time in six years Cheerleaders are to be represented by a band, and the first time in six years Cheerleaders are to be represented by a band. The team is organized and has been anxious its attention for the coming year. The decision now places them in a humiliating position. If there were to be no games this spring the fact should have been announced sooner. For that matter, action should have been taken two years ago. But that is a tale that is told, and we can only express our sorrow at the fact, as we are now compelled to grapple with the debt. The debt must be paid. We cannot afford to be without a base ball team, nor can we let it be said that the Athletic Association succeeded in financial disasters. A way must be found that will put affairs in order and permit us to start out with definite policy and prospects of immediate reduction of the debt.

Saturday Evening Services.

On last Sunday evening Rev. A. M. Jolly, of Davenport, delivered the first of a series of lectures to be given at the University Chapel, the subject being "The Future Consecutively Sunday evenings. His subject was, "Have, the World's Great Leaders, Divine Authority by Virtue of Aspect." The remainder of morning races were run.

April 3.—Lecture. "How to Write a Good Story," by Mr. Own Spectacles," by Mr. H. E. Kelly.

Committee.

Concerning the broken staff problem in a recent issue of the Vidette-Reporter.

The committee has decided to organize a base ball team. It is planned to have college teams play at Des Moines, and remain there for a series of three games.

The most sensational kidnapping for years has taken place at Iowa University, and occurred March 1, when the Sophomores voted and bound the officers of the Freshman class, put them on a tug and carried them to Newport. The occasion for this was the regular Freshman banquet.

A portrait statue of Eugene Field is to be erected on the campus of the University of Wisconsin, and will be of bronze on a pedestal of Missouri granite. The plan will be represented by the president of the University, and is act of writing. The picture is of heroic size and will be the work of the well-known sculptor Louis Lea in Paris, and Pedroni of New York.

IOWA CITY, IOWA.
TUESDAY, MARCH 8, 1898.

ENGLISH CATHEDRALS.

Dr. Oldershaw gives the Third Lecture of the Library Course.

City Solicitor Bailey introduced the speaker as a most speech emphasizing the importance of the course and the needs of the library.

Dr. Oldershaw began by saying that the lecture must necessarily be very much contracted from what might be said of English cathedrals, but though best to present the showing of his views by some general remarks concerning their nature and general features.

Contrasts were drawn of the significance of cathedrals in the past, and present, the matter of their support, how they are ruled, their revenues, their site, the styles of architecture employed in their construction, by whom they were built, their number and uses, and their strange, their records indistinctly written in them of the history of the world. By a series of views were then shown various outer and interior portions of many of the most important of these famous and imposing edifices.

Alas! it was a delightful treat to hear a man so learned travel, so gifted in description, portray the wonders of these buildings in juxtaposition with historic truths and of such an odd look to tourism and student.

The committee is to be highly congratulated on securing lecturers who consider matters of such universal interest.

SOUNDS FAMILIAR.
The following clipping from the Lantern, the organ of Ohio University, has a somewhat familiar ring, and show that there are also "columns of good.

"The manager of the base ball team submitted his list of dates for the season to the Faculty last week, and received the following communication in return."

Dear Sir—In accordance to your promise giving dates of proposed inter-collegiate base ball games, the Faculty issued the following resolutions: "Resolved, that the petition be referred to the signers with the statement that having investigated the position of college athletic clubs, we have found that the good name of the University has been used by these representing college athletic clubs to injure a large indebtedness involving the funds of the University, the University faculty therefore decline to render consideration any petitions concerning athletic clubs until the major part of this question is decided."

"The committee has decided to organize a base ball team. It is planned to have college teams play at Des Moines, and remain there for a series of three games.

The most sensational kidnapping for years has taken place at Iowa University, and occurred March 1, when Sophomores voted and bound the officers of the Freshman class, put them on a tug and carried them to Newport. The occasion for this was the regular Freshman banquet.

But that is a tale that is told, and we can only express our sorrow at the fact, as we are now compelled to grapple with the debt. The debt must be paid. We cannot afford to be without a base ball team, nor can we let it be said that the Athletic Association succeeded in financial disasters. A way must be found that will put affairs in order and permit us to start out with definite policy and prospects of immediate reduction of the debt.

Wednesday Evening Services.
The Vidette-Reporter

The athletic "outlook" has not been so promising financially or otherwise for the last four years, as it is at present. The one feature of the athletic meets in which our rivals have almost invariably beaten us, up to this time, has been the long runs. This year we have over ten entries for these events, while in years past we have had only two or three at most, and last year we had only one man's space in both the mile and the half-mile runs. This is only an example of the enthusiasm which our athletes are showing. We have more candidates for the base ball team than in any previous year of our history. And best of all we have a track team trainer who is acknowledged to be a poor in the last to that our world.

According to the Treasurer's report on last Saturday evening, before the Athletic Union, our financial prospects are constantly improving. Over three thousand dollars have been raised by the students, and the Faculty has generously offered to give an unusually large amount to help enclose our debts.

With improving prospects, both on the field and in our finances, we hope soon to see the corps of efficient officers which was elected last summer, with a hitherto invariably successful trainee, there is one thing which augurs poorly for the future, that is the disinterest of the student body as a whole. To make athletics a success every student must give at least his enthusiasm and a small portion of his time. It is a significant fact which gives our outlook for the future a darker hue, that, in a University of 1,000 students only 250 belong to an organization representing the entire athletic interests of the school, and at a meeting held for the most important feature in our athletics, less than 200 were present. Athletics can never succeed in this manner. Let every student who is not a member of the recommendation exercises will be held at the Opera House Tuesday evening, March 29th. Chancellor McLain will be the speaker.

A large number were present at the joint session of two Associations Sunday afternoon, to hear the "outlook" of the Cleveland convention. The reports of the three delegates proved very beneficial, having, as they did, so much of the spirit and the enthusiasm of that great assembly.

We are in receipt of the March number of the East Zeitung, a German magazine published by the Dart- estor Singing Societies in the interest of the coming meeting of the Northwest Singing Societies of the United States. The eighteenth annual musical festival of this organization will be held in Dubuque, April 27th to 30th, and undoubtedly attract many visitors to that city. The East Zeitung is a most artistic specimen of the printer's art, and from cover to cover is filled with good things.

Mr. Scott was entertained during his stay by John Arthur, recently, by the Delta Chi fraternity. There was a town rush at the University of Missouri, last week, between the upper and lower classmen. The ring-leaders will probably be excommunicated.
