A hard one at that. It remains to be seen whether we have the men this year to retrieve last year’s disaster. Next week will tell the story. We are hoping for the best.

Zetagam—
A large audience assembled in South Hall last evening, and an exceptionally good program was given.

After a very pleasing mandolin and guitar solo, the opening president, Mr. H. E. Johnson, delivered a appropriate reading and speech, and was introduced by the "Song of Iowa," which was thoroughly appreciated, and called for a hearty applause.

The debate lacked none of the accustomed interest. The question was: "Resolved, That the administration of the last year is excusable, and is inexcusable in the Senate.

The first number on the regular program was a declaration by Mr. T. B. Slagle, entitled "The Dream of Alaska." Nothing but favorable criticism was received on the address, and Mr. Slagle was called for a second time.

The debate of the evening was upon international law, and was preceded by a debate on the new pitcher Schumacher, and was opened by J. R. O'Connor, and was called for by W. B. Boudreau and E. L. Lawman.

Mr. Sharpe made a very strong plea for the affirmative in both his first and closing speeches. Mr. Bunyan’s speech was extemporaneous but convincing, and to the point. Mr. O’Connor showed a great deal of preparation and presented a chart with it. Mr. Bunyan’s appearance was exceptionally good. He also showed much preparation.

The debate was followed by a speech by Mark Wilman on “Philosophy.” It was a fine discourse and did well.

Mr. Fred Williams then gave his oration on "The Suppression of the Crime Wave." He held the undivided attention of his hearers.

The debaters by R. L. Slagle was fine in every respect, and made a fitting closing to one of Zetagam’s most successful debates.

The program was closed by a vocal solo.

Requirements Raised at Ames.

Whether or not it was a wise move on the part of our Faculty to raise the standard of admission to our college is the subject of much discussion among those who were present. The program has been decided and discussed times without number. That it puts more or less of a level with other state institutions cannot be denied. The mathematical requirements now at the beginning of the Freshman year are what was previously required at the end of that year. The work along that line is not advanced very, but simply more thorough. The shop work has been increased in the last two years, and was made possible by the new forge shop and foundry, and our engineers have been able to devote more time to the subject.

A better practical knowledge of their subject, according to Prof. L. C. S. St.

The freshmen at Yale are, however, only $100 per year for the aid of needy students. It is given in the form of remission of tuition.

The Forum.

This program given at Forum Hall last night was one of unusual interest. Owing to the special programs of the other societies there was a noticeable lack of the customary attendance of visitors.

Miss Bigby’s reading—one of the characteristic experiences of Josiah Wright’s wife—was in her usual happy conception of the author’s idea, which was heartily enjoyed by all present.

W. A. Smith next followed with the "Art of Writing," which was thoroughly appreciated, and called for a hearty applause.

The debate lacked none of the accustomed interest. The question was: "Resolved, That the administration of the last year is excusable, and is inexcusable in the Senate.

A Striking Contrast

Is observable in the Cash Comptometer System. In the Laundry Business and the Old Credit System.

By paying for your book in advance you receive a liberal discount and you know that your Laundry will be called for and delivered without the least chance of any error being made in charging up the account as in the old system.

Our aim is not to do the cheapest thing but to do the best work possible, at a reasonable profit.

You must pay for the work some time.

Why not in advance if it will save you money?

The Iowa City Conservatory of Music

P. O. Box 13 (Close Post Office) IOWA CITY, IOWA.

The Iowa City Conservatory of Music is under the presidency of Henry H. Edwards and consists of four departments, viz, Piano, String, Pedal and Voice.

The Piano Department is identical in name and instruction with the largest European conservatories of music. Students, Teachers and Parents and competitors and students can find here the best pedagogical methods in the practice of this art. The Black Department caters exclusively to the American-Italian method of voice cultivation and includes the theory of breathing and the science of singing. The Violin Department comprehends the old German method of teaching the art of Violin playing and emphasizes the importance of fundamentals in the practice of this art. The Pedal Department is a continuation of the old Italian method of instruction from original authority and presents the pupil in both its branches in the true and correct manner.

The Conservatory is in business this year offered by any Conservatory in the world.
