WILL CALL US.

Adjutant General to Call on Colleg-

ees for Volunteers.

MUST EXPLOIT AS INDEPENDENT

VOLUNTEER ORGANIZATION.

The State authorities have definite-
ly decided to call on the University and other college battalions for volun-
teers in case the guard does not make up the quota asked of Iowa by the

President. It is expected that the

Guard will not make up the required

quota. The Guard will not be called upon as battalions, but the individu-

als in the battalions will be asked to

serve, with the State

troops.

The battery will not be called, no

volunteers being required.

We have this statement directly from

the Adjutant General, and it is au-

thorized.

Barbary for the Faculty.

The following resolution has been

passed by the Faculty:

"Resolved, that the members of the

Senior class now in good standing, who

enter the services of their country, in the

Army or navy during the present term,

shall not thereby be prevented from gradua-

ting in June."

ATHLETIC BENEFIT

GRAND PROGRAM AT ST. BERNARD'S

HALL SUNDAY EVENING, APRIL 24th.

Students and citizens, you are nor-
doubtedly familiar with the endearing

Robert B. Mcllough, the efficient Jun-

ior Law, will deliver a most

eloquently on the "Roller Character." H. H.

W. Hanson, in his invariable manner,

will deliver "Robertson's Reply to

Haynes," Senator Tye, the humor-

ous detainer of the Hammond Law

School, will deliver "A Y. Biddle," Irving's

Freeman impersonator, will render

close selections. Have you heard

Wesley Hall recite from Julius Cas-

ar? Come early, get a good seat and

carry your own. Finely of fine music,

Albion W. Haman will provide. Ad-

mission ten cents.

A Noble Life Ceded.

Dr. Elizabeth Hess, after nearly a

year of trials and untold suffering,

though constantly at work at her profes-

sion—passed away Tuesday morning,

after having superintended the
dangerous operation for the removal of an

cess on the brain, which took place the

afternoon of the week, and from which

she never rallied.

Dr. Hess graduated in the Normal

Department of the University in 1875, and

after teaching a year or so, was

very sick for months with tuberculosis.

At that time her feet were

very near the dark waters, but by

a most admirable recovery, and her attention was then turned to medi-

cine. She entered the Medical De-

partment and graduated in 1879.

From then until her death, she at once commenced prac-

tice here at her home, and was not

without honor. She very soon had a

good practice, and for twenty-four

years has labored in her profession,
carrying good cheer to the sorrowing,
case and comfort to the suffering,

and health to the sick, and now in the

full fruition of a useful and happy

life, closes her earthly career.

Many homes will miss her sadly;

many friends will long for the sweet

music of her baldest voice; the"Phi Phi

fraternity, of which she was a mem-

ber, will no longer receive her kindly

help and good advice, and the loss to

her immediate family seems too sad.

For years her strong heart gave to

that dear, frail old mother from the

death shadows. The sympathy of

numerous friends goes out to the moth-

er and to all her people, and they mourn

with them the loss of one so much

needed, so much loved.

University has crystallized into a com-

LAST GAME.

CEDAR RAPIDS AGAIN BEAT

S. U. L.

Once more the weather was unsuit-

able to a ball game, and in the mud

and puddles of water that covered the

diamond, the two teams met for the

last time. The spectators shivered in

their creases or under umbrellas,

while the players slipped and rolled in

the treacherous mud.

The game was probably the lowest

of the season, owing largely to the

condition of the grounds.

The features were O'Connor's home

runs. Williams' put out at second, and a

number of unaccountable errors.

The weakness of the S. U. L. team

was shown to be in running bases.

Time and again men would reach first

second only to be put out in an

attempting to steal to the next bag.

On the whole it has been good prac-

tice for the boys, and will enable

O'Connor to pick the team for our

big games.

Mary was hit by a pitched ball and

his place was taken by Good-

enough. While sliding to second

Raymon injured his shoulder.

The game was so complicated by the

leave home, Johnson
taking his place.

The tabulated score was:

CEDAR RAPIDS S. U. L.

1 2 0 0 1

Flood, 4 b.

Fisher, 2 b.

Hutchinson, 1 b.

Van Buren, c.

Schoenberg, 1 f.

Donnelly, r.

Cole, c.

Smith, 1 b.

Norcum, p.

Score by innings:

CEDAR RAPIDS... 1 2 0 0 1

S. U. L. .... 0 0 0 0 0

Following in the summary:

Dougal; by Hurst.

Time—1 hour, 40 minutes.

A Striking Contrast

It is observable in the Cash Coupon System in the
Laundry Business and the old Credit System.

By paying for your book in advance you re-

cieve a liberal discount and you know that your
Laundry will be called for and delivered without
the least chance of any error being made in

catching the age in the old book.

Our aim is not to do the cheapest work, but
the best work possible, at a reasonable profit.

You must pay for the work some time.

Why not in advance if it will save you money?

The above correspondence as to

today we do not believe, that the
American student has any more right to
hold back and refrain from enlisting
his services, than has any other
American citizen. Patriotism is par-
tial, whether it be found in coal
heaver or millionaire, and the student
owns as much, perhaps more, to his
country than any one. This talk
about sweeping away the flower of
the American youth, merely because
a few college students enlist, ought to
be more gratifying to the youth in-
volved, than it is undeniable in fact.

The idea makes better material for
High School instruction than it does for
soldiers in uniform. It is hardly possible
that even if a few students Webster,
Clay and Lincoln be swept away the
American Nation would be moved
in the least to protest in the same
manner.

And then, why do we have military
drill at S. U.? Is it merely for or-
ment, or is it for exercise? Is the
Government of the United States pay-
ing simply to perpetuate a sham? Is it
that the intention of the powers that
be? If so, these are easier and more
profitable ways to drain the United
States. If drill is for ornament it
might just as well be abandoned now.

If it is for exercise, there are far
casier and more pleasant means of
doing that. If drill is meant to give
our students a knowledge of military
science, so the authorities claim when
there is no danger of war, why not
be honest now? Why not make
use of what the Faculty forces them
to learn, instead of what they intend
it? If not, why carry on a sham
any longer?

We may be mistaken, and our con-
clusions may be wrongly placed, but
they are honestly and sincerely
expressed. We can not conceive that
patriotism and a decrease in the "total
attendance at S. U. I. have any con-
nection whatsoever. It is not as con-
sidered in other schools, and the
students don't consider it that way here.

The duty that confronts the citizen-
ship of America is the duty of Ameri-
cans: students, first, and foremost, and
the student intends to perform his
part.
