UNANIMOUS DECISION

In sentences following one another is logical sequence, excelling in rhet-
oric, rich in illustration, in arguments, winging facts and figures with soft-
ening dexterity, the six debaters in the Zeitaphan-India context, Tues-
day evening, entertained three "ocation judges," and the "audience and judges," with the result of several months' research and preparation.

The question, "Resolved, that pooling among the railroads of the United States should be allowed, under the control of the Interstate Commerce Commission," was argued by three topics, one thought, for discussion which would be a light task; and yet the opposite position at point of debates of seven years now past, the rest of Tuesday evening averaged well up in the list. Each speaker in his turn held the undivided attention of his audience from the first sound of appro-

imation, greeting his name, to the last sound expressing satisfaction and adjustment for his effort.

Procter, high order of the Debating League, after a few opening re-
marks, gives some of the potpourri for an interpolate debate, stating that the men chosen as a result of this preliminary would rep- resent the League in the first six ar-
 ranged, for introductory Rev. E. F. Bar-

then, who pronounced the form. Following this came Mr. Julius Gooted in a scarlet coat.

Mr. J. O. Johnson, in opening the debate, has been assigned to a difficult task, but no one who heard him can doubt that the man has been well-pre-
pared, although he hardly sustained the reputation following him from the floor. It was an easy matter for Mr. Procter's eminence to be good, his deliv-
ery perhaps a trifle slow, but he made a good speaking open, introducing the subject, and laying it open to the subject.

Mr. H. Claude Horack, following for the negative, perhaps presented the lead-
ing idea of a system, post. This-

position, an able debater and per-

haps one of the most versatile men in the forensic societies, has a delivery

ever graceful and wonderfully free and easy. His presentation betrays not only careful thought, but an ex-

traordinary attention to the impres-

sion created by the slightest motion of the hand; the color of the face; the poise of the head.

Mr. M. B. Weedy, the next speaker for the affirmative, was faced with a brief statement of the arguments pre-

ented by his colleague. He then started off with a set of questions, or-

ning, and introduced charts showing certain rate fluctuations. He closed with a review of the arguments in favor of the affirmative arguments. Mr. Weedy is a clear and logical thinker, and a strong speaker. His delivery was not nearly so rapid and tightly clutches his arguments. His speech was at times not so favorable with any other speaker on either side.

Mr. Wm. W. Loosrix, the second speaker for the negative, began with a sarcastic rebuttal of the arguments of his opponents. He then proceeded to build an array of conclusive arguments, illustrated by charts, which the affirma-

tive speakers followed failing to catch hold of all the arguments of the negative.

Mr. M. L. Fensel, for the affirmative, followed in an exceptionally strong speech. Sketching the history of the formation of some of the great modern trusts, he attacked many of the arguments of the opposite in vital places. In delivering his gentle-

man's speech, and his arguments, which are all set forth, are all to the point. Probably one of the strongest speec-

h was that of Dr. L. J. Dickinson, third speaker for the negative. He is especial-

ly strong in retort, and his argu-

ment carries the impression of a great

reservoir. Clear and forceful, he supported his arguments well.

Mr. Loosrix closed for the negative in a able rebuttal of the "affirmative ar-

nomen." Mr. W. V. Mcroy, closing for the affirmative, followed his rebuttal by intro-

ducing some new charts, outlining the previous arguments. After an-

other clarion note in Mr. Spedden's statement, the negative's decision of the judges, Dr. L. W. Andrews, Rev. Chas. S. Brown, and Dr. G. T. W. Patrick, was announced—unanimous for the negative.

The victorious Iterings, rushing to the stage, seized their victors, and mid-shouts of 'well done' joy, went to the Little Box Ton restaur-

ant. Here the festivities of the occasion were delayed by responses to guests by Geo. Egan, Prof. F. W. Berry, W. E. B. French, F. C. McCune-

en, H. B. Roland, and James E. Prack-

hann. Then the men who won the de-

bate followed in short speeches, after which the judges adjourned itself.

Growth of Foot Ball.

The following clipping is from the College Athlete. It is indicative of the great growth of interest in the

sport in general. It shows how football is not confined to col-

lege and school life, but is becoming

a game of the people. And it is an unanswerable argument for those who continue deny-

ing the gridiron as a scene of physical injuries.

Researlers.

Hosperia will give the interesting play "Alta's Trial," in South Hall, Saturday evening. Everyone come.

Medical Department.

Many of the students were enabled, by the short vacation, to spend Thanksgiving day with their homes.

Mrs. Holtman, mother of E. R. Holt-

man, W., spent Thanksgiving day with him.

As the other departments had no secession on Friday, the "man of the "farm" evidently foretold that few were not so favored, and as a result they were compelled to shiver through classes until it became almost bear-

able.

Midlothian, W., is on the sick list.

The main topic of conversation now is the Medical foot ball team. As has already been announced, a mass meeting was held and commit-

tees were appointed. It was decided to form the classes regarding funds. In two days and a half nearly $500 was raised—a pretty good start for the equipping of a team that is to carry the "Old Gold" standard of the University, and especial-

ly of the Medical department, in triumph against such teams as Rush medical, Physicians and Surgeons, Northwesterns, and others.

Basket Ball.

Saturday evening, at 7:30 o'clock, will be played in the Y. M. C. A. gym-

nauim the seconds of the hopes-

kel teams to be played by the classes under the auspices of the Y. M. C. A. basket team, which consists of teams from each class and each department of the University.

Saturday evening's game will be bet-

ween a Law department team and the dramatic society. The following will be the line-up:

Laws:

Dr. John Williams

Okey f Brackett

Landman f Bulley

Lembig f L. J. Dickinson

Huntington C. P. f Spindel

Subs for Laws, Lynx and Lilly.

For Burma, W.,

Everybody is invited to attend.
