ATHLETIC MATTERS.

Dr. Knipe engaged as Coach-Financ.
 ial Officer of Y.M.I.A.

As has already been stated in these columns a contract was signed some days ago, whereby Dr. Knipe is to act as trainer of the ’99 track team. Management, of course, was unanimous in the announcement of the request of Dr. Knipe as coach of the ’99 football team. It is probable that a third contract may soon be made to secure his further services in the interest of the ’99 base ball team. Thus a single policy in athletic lines being established.

When Mr. Munger brought the mat-
ter of contracting with Mr. Knipe for next year’s football coach, before the Advisory Board at its meeting Wednesday evening, the question was raised: “Has the Board power to make contracts for the University?” Dr. Shankham, as President of the Board, ruled that under the Constitution the Board had out this power, but could not unless the matter were closed at the session already made during the debate on the question. But when the speaker, Mr. Knipe, proposcd the contract, and it was adopted, it was suggested that, while there was no opposition to Dr. Knipe personally, yet it might be more proper to await the election of the new manager, and his subsequent action. This was urged that unless the matter were closed at once, danger existed that the notification might be premature.

After some general discussion of the matter, Dr. Shankham ruled that the Board would make no action unless a contract was presented by the manager for approval. Thereupon Mr. Munger, as manager of the foot ball team, presented a contract. After discussing the provisions the majority of the Board voted that the contract be approved when signed by the manager and Dr. Knipe.

Since the Board meeting, Mr. Munger and Dr. Knipe have signed the contract, and it is understood that it will soon be presented for approval.

The finances of the Union have never been better, and it is noted that they are at present. In the YMCA-Report of last Saturday appeared a statement of the receipts and ex-

Refunds since October 1, showing a balance in the treasury of $25.13.00 on December 1. Since the latter date other bills have been paid, leaving about $20.00 on hand. The deficit of the Union aggregate $650, of which amount $400 is shown on the notes, the remainder amounting to $210. As these notes are held by the manager, it is not expected that the amount will be needed.

Illinois-Wisconsin Debate.

An article concerning the debate between the debating teams of the Universities of Illinois and Wisconsin have been held, and the time and place of holding, together with the question, have been given to the public. The debate will be held at Madison on the evening of April 19th.

The men from Wisconsin are to choose the subject, while the university at Madison will have the privilege of closing the debate.

French Literature.

It is reported that Professor Fenimore McGee is about to accept an invitation to lecture in some western city. This lecture will be announced in the next number of the ‘’Wisconsin Freeman’’.

University Lectures.

It was a noted occasion of the late Dr. Schaeffer that the students of the University of Wisconsin should every year be privileged to hear without charge a course of lectures given by some distinguished teacher or traveler.

These lectures were to be called the ‘’University Lectures.’’ Just before his untimely death, Dr. Schaeffer had performed arrangements for the first course of such lectures. The lecturer who is to inaugurate the enterprise is Professor W. E. K. McClan of the Bureau of Ethnology of Washington, D. C.

Prof. McGee will give in March next a course of lectures on the general subject of anthrop consciousness of society. More detailed information of subject may be expected later. To these lectures admission will be by ticket. All persons paying the price of the ticket will be able to attend the University at any time and place to hear hereafter announced, obtain tickets, and have the nominal price of $1 will be charged for a course ticket.

This inauguration a new movement in the University, and student may congratulate themselves in anticipation of a delightful addition to the ordinary University curriculum.

New Books.

Since our last publication, about 200 volumes of reading matter have been published by the University of the students. Among these are:

Complete edition of Daniel Webster’s works, in 8 volume.

History of the Navy of U. S. by J. Fenimore Cooper.

Democracy and Social Growth in America, by Moses Bernard.

History of the Inquisition, by Wm. Harr

Gul.

History of Greek Art, by F. L. Tarbell. Edited by ABE. LOB. J. H. "WOTCHE, 1817."

History of American Literature, by Thomas Arnold.

Complete set of Little’s Living Age from 1824 to 1837.

Besides the above number of duplicate copies, there have been received a great many books on philosophy, the psychology, government, history, morphology, economics and the language.

L. D. WELD, Capt.
The Widow's-Reporter.
The selection of Dr. Knife as train-
ner of next year's track team and
foot ball team is the formal expres-
sion of the universal feeling of con-
dence in the Doctor and his methods
of training. The ability displayed in
transforming eleven men into a
team which was a tram in every
sense of the word, was truly remark-
able. As added to this Dr. Knife has
stood for all that is pure in athletics,
his has won the gratitude of all con-
scientious adherents of Iowa Univer-
sity. The choice of this man, to take
charge of all our athletic teams for
next year, is also good, in that it
makes probable a single minded line
of action—a policy—in athletic mat-
ters, a thing much to be desired. It
is improbable that any other man
could have been chosen in the manner
employed in the selection of Dr.
Knife. The Constitution of the Ath-
etic Union provides that the Advis-
ors Board will approve the selection
of the coach. Custom has placed the
negotiations, incident to the selection
of the coach in the hands of the new
manager. But this year peculiar con-
ditions existed. The members of the
Union had, in a heartily manner ex-
pressed an informal endorsement of
Dr. Knife's retention. It seemed well
that the arrangements be completed at
once. The outgoing manager as this
juncture took it upon himself to pre-
sent a contract for a new coach to
the board for approval. In view of
the already expressed sentiment of
the students, the majority of the
Board approved the contract. Any
one who may have opposed its ap-
proval did so not because of opposition
to Dr. Knife, but on purely constitu-
tional grounds. They mean the
matter stands. It will probably be
brought before the Athletic Union, and
when this is done, it is not improbable
that such action will be taken as will re-
move all doubts of the constitutional-
ity of the contract; this result may
be brought about by a direct vote and
by the election of a new manager to
whom the contract shall prove satis-
factory.

Notice.
Wm. B. will appear at the armory,
Monday at 1 o'clock, to have their
pictures taken for the Annual. White
gloves required.

There is more caterh in this section of the country than all other diseases put together, and until the last few weeks was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, produced it incurable. Science has proven catarrh to be a constitutional disease, and the only one requires a constitutional treatment.

Hall's Cheap Care, manufactured by F. J. Cheyer & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. "The Lost Paradise." A packed house greeted Harrison J. Wolfe and his company in "The Lost Paradise" last evening. Mr. Wolfe is one of the strongest actors of romance that has yet appeared before the footlights in this city, and is supported by talent far above the ordinary. The audience last evening was delighted beyond description, both with the play itself and its happy rendition, and if this splendid company were to appear here again the house would not hold the people. Harrison J. Wolfe was born two seasons ago with Margaret Mather, as her leading man, and has been associated with Chaas Frondheim, Jas A. Hareus, McKee Bantkin, and many other strong actors, andstands today at the head of his profession.—Daily Journal, Chicago, Oct. 10, 1889.
