We own that of Michigan. 

The country was an agency on which we can depend to ideal, ability and worth. A growing man must pay. A growing man must be faithful, pure and powerful to come the fortune of colleges of the years to come.

The successful University, like the successful man, must have an individuality of his own. It must stand upon something. Unless it has a definite character and a distinctive position, it does not rise above the level of a cheap factory. A University is great only in the spirit, not in its name. What this spirit is depends upon the men that make its Faculty. No second-hand man was ever a great teacher. To secure worthy men worthy salaries must be paid, salaries on which young men can live and grow. There is no profession which demands so much, none on which the average is so poor a paid. A growing man must travel, must have books, must be able to care for his people. A growing man must be large, his salary must be larger.

More vital than all is the demand for character. Without character, without standing, there is no force. It is the formation of character, the testing of men and women, in purity and truth, in sweetness and light. There is no real excellence in all this world which can be separated from right living.

Editor VIOLETTE REPORTER

In the issue of the Violette Reporter dated January 16th, there appeared, under the heading, "Professors," the following: "FRANK A. WILLIAMS, Capt.

Phases of Art.

TALKED UPON BY MR. W. H. WATSON AT THE CONGREGATIONAL CHURCH.

"Art and Religion" was the subject announced for Mr. W. H. Watson at the Congregational church, Sunday evening. The audience was composed almost exclusively of persons who had never heard the speaker before.

Mr. Watson began by tracing the development of the artistic idea of the Deity. Primitive man made an image of God by a combination of animals. Since the Christian era all artists have leaned their skill to the glorification of God. Artistic and religious instincts are inseparable in the production of a masterpiece.

Mr. Watson also stated, upon authority from Paris, that only strict temperance and harmony with nature can create artistic brilliance in form. He developed this idea at some length.

Mr. Watson showed himself a great traveler, not only from the lands and scenes which he attempted to portray, but from his agility in handling the many diverse and seemingly irreconcilable points in his discourse.

Delta Delta Delta.

A. W. Starbucks,'85, was here from Springfield, last week, visiting old friends.

The clergy were closed yesterday and to-day on account of the cold weather.

The Junior class did not have physiology or therapeutics to-day. All except two or three Juniors have finished their laboratory work.

Dr. Ray Baker, '83, has bought out Lt. W. H. Watson also stated, upon high authority from Paris, that only strict temperance and harmony with nature can create artistic brilliance in form.

THE WINCHESTER

The junior promenade.

For several years it has been the custom of the Junior class of the Colle­giate department of the University to give a promenade about the middle of the spring term. These affairs have become very popular with the stu­dents, and are regarded by all with favor.

The Junior Promenade, indeed, is an annual event at nearly all the Univer­sities of the United States, and at all is it one of the most largely at­tended affairs of the season. At the State University of Iowa it is looked upon with as much favor as at any University, we might say, being regarded as the event of the social year.

The Junior class of 1899 has made all arrangements for its promenade, which will be given at the Armory Frieze eight. With the distinguished patronesses, the fine music, and the excellent list of dances which have been provided by the efficient committee, the success of the Junior Promenade this year rests assured.

The class of 1900 is to be congratulated in advance on the achievement of one of the most successful Junior Promenades under its auspices.

A friend to students.

Students have so many enemies, pro­fessors, instructors, and the like, that it is an event of considerable impor­tance for them to find when a real friend is found. Such a friend to all needy students has at last been located. This friend, marvellous dicta, is a quietless corporation, so termed, with head quarters located somewhere in Ohio.

"We are no strangers," runs the circu­lar in letter magnificat, "to condi­tions existing in the educational in­stitutions of the country."

The student is delighted when he reads this. His friend knows just how

We Patronize You

In all your enterprises, Journalistic, Athletic, etc. Unless your reasons for sending laundry out of town are good, please consider the above and also that the fact that no laundry in Iowa can excel our work.
