SPHOROMIE COTHILLON.

CLASS OF '01 ADD TO ITS PAST HER ITAGE.

The second annual Sophomore Cotillion was held last evening at Smith's Armony. The event was especially neat and tasteful in all particulars. The decorations of the hall surpassed anything that has yet been seen in the city. Streamers, floats, and balloons of white and blue, the University colors, and of tattle green, the class color, predominated in the scheme of colors, while the white and purple and pink of other decorations and costumes mingled gracefully from roof to side of the Armony. Japanese umbrellas waved above the dancers, as it to treasured up as much as possible, the laughter and music mingled in gayety of the scene below. The corners of the building were nearly decora ted into fairy scenes: fancy stands and seats, spanning with graceful palms, ornamented the floor of the Armony.

The music for the occasion was furnished by Peterson's Orchestra, of Des moines, Iowa. In playing its was most satisfactory accompaniment to the light steps of the fancy dancers. Light refreshments were served throughout the evening in the gallery.

The patroners received the attend ing couples in the northwestern portion of the Armony. The ladies who honored

ed the evening as patronesses were Mrs. W. S. Hadson, Mrs. C. B. Wilson, Mrs. A. V. Hills, Mrs. L. W. Andrews, and Mrs. Bertha G. Ridgeway.

The Cotillion was a triumph in the social line for the class of 1901, which has earned the enviable reputation of making its undertakings uniformly successful. A large share of the credit for the success of the evening is due to the efficient committee of the class, who spred neither money nor pains to render the affair a success.

FRESHMAN-SOPHOMORE MEET.

The efforts are being made by the managers of the classes of the University to make the meet the most interesting and to the utmost as a novelty. The managers are exceedingly busy in putting the meet in form. As many as possible are being entertained by the managers of the classes of the University at the meet. The managers of the classes of the University are entitled to the congratulation of the members of the classes of the University. It is to be hoped that all athletes belonging to these two classes will train heartily for this event.

Zeltagration.

The Zeta rendered the first program this term last evening. The attendance was good and the program exceptionally interesting. The opening number was an afterhour solo by Mr. Suller. He responded to a hearty encore.

Mr. Ogden, the retiring president, after the few fitting remarks, introduced Mr. Wesley Hall, President-elect. The first literary number was a declamation, "The Spirit of the Age," by Mr. Downey.

Mr. W. B. Peabody, by request, gave a very pleasant and interesting talk on things incident to the Wisconsin debate.

The Zeta rendered the final number of the program as a "remez de cesor," the benefits accruing to the University. It is to be hoped that all athletes belonging to these two classes will train heartily for this event.

Many new acquaintances were formed, and old ones strengthened. Refreshments were served, after which Mr. Bailey gave a very fine vocal solo, which was followed, by a well rendered clarinet solo by Mr. Gilbert. Evidently there is trouble brewing for a Medical Faculty member who received the following from one of the “dish head” students—“Dear Prof. ——-

If you don’t fix this thing up, so I’ll get back all right, myself, and a number of others, will see that there’s a new man in your place next year.” Perhaps this young man might be able to throw some light on the Presidential situation;

Philippines.

The program for Friday evening was opened with a declamation by Mr. Fera-

heek, entitled “The Sifting of King Old.”

The debate was on the excellent question as to whether it would be expedient for the United States to own and operate the Nicarauguan canal. Each of the de-

baters talked fluently and ably defended their respective sides, though all showed a lack of system in presenting the ar-

guments. The true bore of contention was whether or not the Nicaraguan canal was better than the Panama.

Mr. Schenk and Mr. Kirby affirmed the question, while Messrs. Albert and Russell upheld the merits of the Pan-

ama canal.

C. L. Lewis gave a very written paper on the “Use of Science.”

Several good extemporaneous speech-

ers closed the program.

In the course of his speech before the Keokuk Club, in Chicago, on Monday, Colonel Roosevelt said—“If you are rich or worth your salt, you will teach your sons that though they may have leisure, it is not to be spent in idleness, for wisely used leisure merely means that those who possess it, being free from the necessity of working for their livelihood, are all the more bound to carry on some kind of non-renumerative work in science, in letters, in art, in exploration, in historical research—work of the type we must need in this country, the suc-

cessful carrying out of which reflects most honor upon the nation.”
