While the reports of the several departments indicate that all are doing well as well as could have been expected, the following financial statement shows that each department has an immediate need of larger income.

Expenses include the cost of the lecture of the President George W. MacLean, expenses in connection with the Iowa Medical Congress, and the cost of the art exhibition.

The expenses of running Yule's football team for one day amount to $500.

Yule expects to run two special trains to Boston on the occasion of the Harvard-Yale football game.

The University of Michigan meets the University of Chicago in joint debate at Ann Arbor, and the University of Pennsylvania at Providence this year.

The old college in the world is now in session. The college will meet the expected close of the term by the University and thus a decrease in the income of the association. Thus recognizing the result management are determined to raise the total amount of indebtedness within the next year. Subscription blanks are being circulated, whereby the subscriber is bound to pay all of their interest on the loan. This is only one of many, and more than this, and all are in the construction of the building.

The leading cities, shoe dealers, drug goods merchants and grocers of Iowa City have agreed to pay in the coming year to the interest of their own cash sales book, November 21st, towards this movement.

This is a most commendable movement and every student who is able to subscribe to this is urged to do so. The students of the University of Chicago can now be reached. The Athletic association at the 11th and 12th of M. is considering the establishment of a similar fund to be used to fund the big teams of the next to Ann Arbor. The proceeds of this Notre Dame game will probably be used for this purpose.

The German student body in the German Institute is increasing despite the systematic efforts of the authorities to diminish them. In 1911 there were only 17 of the Germanic race, but at the beginning of this year the number increased to 30. Theology and philosophy are the most popular subjects, with history, art and natural science next in order of preference.

The students of the Yule's Football team are taken at the Arena Book Store, second door south of the postoffice.

Thanksgiving game with Drake, they exercise the same vivid imagination and schedule another game with Lenoir for November 11 at Iowa City, Iowa.

Inter-Class Games:
Today sees the beginning of the series of inter-class (football) contests. This scheme has been attempted before but never in the writer's memory, at least, has it terminated so successfully as the present scheme now bids fair to do. Doubtless the possession of the best first team in Iowa, together with a second team equal to many of the other college's first, has done much to assure a this class football spirit but to manage this spirit and develop it from a football team has been the arduous task of the class manager, and they are deserving of no little credit for their success. Too much cannot be said of the benefits to be derived from these games. Here many new men get their first ideas of the game and have an interest in the game which aided by faithful training may result in making a first team man. The abilities of one of the best men on the '91 team was for the first time recognized in a game of this kind.

Coach Woodruff of Pennsylvania stated that Michigan is stronger than Chicago in eight positions. But A. Alonso says that Penn's coach is sassy anyway.

The Daily Cardinal.

About thirty men are trying for the cross-country team at Cornell. The institutions forming the Intercollegiate Cross Country Association are Princeton, Columbia, Yale, Pennsylvania, Brown and Cornell.

The University of California is planning to build two bimilluion rock tennis courts at a cost of $1,200, the money to be raised by subscription from the students.

We are pleased to announce the election of C. V. Page, M. M., '92, as editor from the Homespun Department.

Communications.
We are in receipt of a communication for publication in today's issue but we suspend its publication as in so much as it is not our custom to print such communications without first knowing the name at least of the author.

Mainly Imagination.
The daily newspapers were lately much agitated over the so-called riot of Wisconsin students in brass rings a laundry shortly before a fancy dress ball. It now appears to be merely a piece of newspaper imagination and that actual lawbreaking was committed was done by a gathering of townpeople with a sprinkling of the Daily Cardinal in the mix paying its respects to one of the hard reporters:

"Refering to the account in Saturday's Evening Wisconsin on the Hallowen's 'episode' we would state that we have some very accomplished lies here in the University but that we do not pretend to compete with the eminent city talent."

Sympathy.
The E. C. Student has formally tendered his sympathy to poor, presented Drake, the one great advocate of purity in athletics, for having lost the game in which they were to win the championship of "Iowa, Missouri, Nebraska, and Kansas," and calls the attention to the fact that Drake will this year probably lose "the championship from the Mississippi to the Mountains."

While we would willingly extend the entire sympathy of this institution in such a case, still recognizing that such victory which would see the championship of the middle west in the Drake-Nebraska game we would rather suggest that inasmuch as the largest guarantee ever offered Purdue was not sufficient to schedule a
