GOV. SHAW'S MESSAGE

The Management of the University

This term, the University was established. The tax has been levied. The Board of Regents has met. The financial conditions have been reviewed. The Board has recommended an increase in the appropriations for the University, and the General Assembly has passed the appropriation.
The Governor's Message

Governor Hovey has sent his second bimonthly message to the General Assembly Tuesday; the increased appropriations asked for by the regents of the university and the continuation of the one-thirtieth of a mill building tax for a further five-year period. The governor appears to be highly the management of the university by the regents. The regents' request was one of the largest of the session, and though the increase was not usually heaped up by any regard for the facts of the case nor by any fine consideration for the feelings of the gentlemen who may have to read them. His message, 500, is frequently quite as obscure as the ordinary run of short paragraphs furnished by the editorial page of the Daily Republican. But nevertheless, we must admit that for wit and good writing, breadth of vision and combination of moral character, the things that this brilliant author has written, are unparalleled.

Some time ago a week ago of a University of Iowa paper wandered into its section and forthwith we bowed down and crying with joy that Iowa's charging $5 for admission to every football game and then complaining about the meager attendance at the grounds.

Another paragraph noting that Iowa students had to obtain permission from the president to have town and visitors long free and independent Kansas would stand that sort of thing, was copied by the Vidette-Reporter and was added to by President MacLow in the last communication. Since then this paragraph has run along in the usually bright tenor of his way. While he was doing this it happened that an unlucky writer on the staff of the Kansas City Journal, wrote what he thought would make a good all-round western man—a made a mistake at it too, and of course he had to suffer for it as follows: It is very evident that the sporting editor of the Kansas City Journal ought to take a day off and learn the game of foot-ball since neither Wilson or Krebs and given any mention in his all western team. If there is any man on the Missouri river who is ahead of Wilson as a tackle we should like to see him. Mr. Washie of Kansas City is not as many, in spite of Coach Arthur St. Leger Moore to that effect.—K. U. Weekly.

It is just such nice bits of 'English as those which this brilliant fellow gets off that make us feel proud of him as a representative of college journalism, for be is a fellow that knows more now than his father ever or Solomon in all his glory ever knew.
