Among the Exchanges

The VIDEOT'TEE'S publication is yearly a draw to a crowd of Iowa City patrons of athletic events and in order parts of the state. That has been seen in due to the efforts of Mr. Robert Cooney, the opposing agent at law G. R. B. H. in Iowa City. The cut is put out largely as an experiment for the purpose of determining whether the granting of a very low rate such as in this one will be appreciated as it should be by the people for whose benefit it is given.

The stirring at this rate will be at the Iowa City high school and the VIDEOT'TEE's publication will be published in Iowa City at 6:00 A. M., Friday and leaving Iowa for the University at 9:00 A. M. The Field meet will be at the State Fair grounds and will begin at 10:00 A. M. The high school will be taken to the State Fair grounds and will be an excellent point until a failure state.

The S. U. L. C. has been secured for the purpose of the management of the State meet. Work in this effect was sent to Iowa City's, the secretary of the company, Mr. H. W. Kinn, to the meeting last Saturday.

The band will arrive in Des Moines on the special train Friday morning. The train will go Iowa City on Wednesday and will make its headquarters at the Kimball Hotel.

All students of the university who wish to attend the meet should notify the secretary of the company, Mr. H. W. Kinn, to the meeting last Saturday.

The baseball manager, Mr. Taylor, has been on the tour and has had the best of the season and made a splendid record and has an excellent opportunity to win the conference title. Mr. Taylor will be at work again on the conference meetings and will be at the head of the game.

SENIOR DENTAL STUDENTS

A game replays with heavy batting, good-fielding, and uncertain base running was the result of the two-hour's set of athletic Park yesterday. The University's work was considered by the players that had been jumbled up in the assignment as shown below. Captain Williams was out on account of his arm injured in the Ames game, and Warren was at the other end of the field training for the coming field meet. But one man was in the game from the beginning and it was only by an unlucky error in the sixth that the people al was able to score. Lowry and Yates had their usual good work. Miller's arm was little exercised, but got the ball to second when opportunity offered. Davis covered the first big good shape. Scuffle was new at second but did well at that difficult position. Reynolds gained Captain Williams's place at short, but Williams finger and encouragement was absent.

Mr. Taylor will be at work on the whole, the best batting, fielding, while Parsons did the best work in the shape of a two two base hits and three base errors. Parsons also held his position in a critical place. Howe in right field had no chances. His batting was strong. Storey in left covers his position in admirably. The result of the game seven are the same in the state league in this which.

One very pleasing feature of our inter-collegiate base ball games this season is the liberality with which the execution of difficult plays by members of the visiting teams are applauded. Such applause is not disloyalty to the university, but on the other hand it is winning her more friends than any other thing in her athletics. It has often been said that a student body which is garrulously on the field of contest will be gentlemanly at all times; anyone who is acquainted with student life will uphold this statement. The players and rooting who come to Ohio University will be struck with the gentlemanly behavior of her students, and the effect will do work to the benefit of O. S. U. The results of rowdiness in a recent game, at which our team was the visitor, are already very noticeable and the entire college world will agree to the statement that the students who indulged in such unnaturally democratic acts have done their university more harm than can be undone by years of strict observance of athletic ethics. A thing of which all O. S. U. students may well be proud is the fact that such an occurrence has never taken place upon our athletic field. A good team can win a temporary victory for a college, but with the student body to make the triumph a lasting one, which alone can be done by earnest and gentlemanly support.—The Lantern, Ohio University.

Our Seniors

The announcement of so many class reunions at the June commencement calls for the statement that Iowa has already a great many loyal alumni who are interested in her today and are anxious to keep pace with their alma mater as she advances. Nothing, not even Rocketts' mills, will establish a truly great university in a few years. Upon the hundreds of alumni who year by year leave its halls must a university depend largely for its support. Upon them devolves the duty of establishing the reputation which she is to enjoy in the eyes of the public. Recent investigations prove that in a great many places in our commonwealth Iowa is known only from the slightest remarks of prejudiced ministers or newspapers and little or nothing is known of the true university, her spirit and her character.

With President MacLean as her executive, a rapidly increasing attendance, financial difficulties largely overcome, new buildings now in construction, and athletics and debating in so flourishing a condition as to permit us to compete favorably with the best institutions in the West, Iowa has certainly seen the dew of her best day; but to disseminate this knowledge to carry ahead the real spirit of the university as it is and what it accomplishes, can, by no one be better accomplished than by those who have spent the present year here and upon whom the university is soon to confer her highest honors.

Mr Fred C. Drake, the senior managing editor, has entire charge of this section.
