Quarters University Battalion, Iowa City, Iowa, September 14, 1863. The band has, besides its regular battalion duties, furnished music for university athletic events, processions and mass meetings. It has at present an aggregate strength of twenty-five sound pieces, drawn from all departments of the university. It is a credit to the battalion and the university. Like Illinois, Iowa would hardly know what to do without her band.

**Public Affairs**

A noticeable feature of college life of the present year is the interest shown in political affairs by college men. The students of near each college of the country are organizing political clubs and attaching themselves to one or the other of the great political parties. This is as it should be. One of the lamentable facts of college life during the past has been the lack of interest taken in public affairs. It has been the misfortune of two many graduates of educational institutions to know practically nothing of the outside world. The ideal college graduate is the man who is prepared to assume his responsibility of the duty that may devolve upon him. Unless his college course has fitted him for such a responsibility, he has missed a most important part of his education. These political organizations which have been formed should not be used as a substitute for an interest in public affairs and make the student better able to meet and solve them. -Kirk Student.
