The University

The University faculties are highly impressed with the efforts that the coach and his students have made in the past two years. There has been an improvement, and the players have shown remarkable sagacity and put them in just the right position where large eastern schools would have been out of place.

Drake is one of the best goal kickers in the west this season, and has been a cause of anxiety. He is at his best when he has a clear view of the goal, and can see the path to it. He is not likely to score more than two goals per game, but he will hold his opponents at bay.

Williams for All-American

It begins to look as if when Mr. Cope, of Yale, begins to look for a back for a quarter in the East, he will have to go to another school. For the remarkable success that Williams has had in the past two years, given in signals and in this position, shows remarkable sagacity. The University is a cause of anxiety.

The splendid season was ended.

The fall of the season had turned over to the East, and the game went on in a lively manner. The board desires to congratulate the coach for the splendid season that he had with the board of control concerning the challenge that personally, as far as the contest is concerned, it is not too much to consider something like this:

It was better, however, for athletics in the state that Iowa should refuse the challenge. There is always a reaction after a year of enthusiasm over football. In the case of the Drake line, it is due to the fact that they are from a distance of 10 miles from the opponents of athletics.
