the Oxford schools are closed.
A Suggestion: It is plainly suggested to the present commission on the revision of the constitution of the athletic union, that it would do great good, now that there is an easy cause, to acknowledge the kind offer of the city press in helping the athletic union in carrying its affairs by providing a few more number of the board of control. The advantages of such a representative would be obvious if a good selection was made for the position. While this paper is bringing the subject, it does not mind mentioning that in the place to the past editor of the Iowa City Republican, Mr. T. Redfield. It should be plainly understood by the reader that this suggestion is like that of the Iowa State Register's mention of Governor Shaw's name for the third term in the gubernatorial chair—wholly without suggestion on Mr. Redfield's part. The handwork of a member of the board of control which involves the auditing of letters, journals and day books, and the handling of large sums of money would of course be highly dis- tinguished to the gentleman we have suggested. But if a little consideration in the way of the union's advertising and the printing work were shown such a distinguished member, it might be that we would con- sent to show the boys how to run a good athletic union. Here's hoping.

ATTEND THE ACADEMY

W. A. Wills.

Professor Geary will deliver a

lecture on The Behavior of Rivers

in Bedrock and Postglacial Periods.

A minature show will be put on by

the students of the university sometime
earlier in February. The processions of which
will be made a part of the athletic program.

Those desiring to compete for places in the
chorus should have their names to R. A. Jakobi
this week, as practice will begin next week.
