THE ATHLETIC UNION

The recent issue of the Daily Iowan contained an article by A. D. Calkins concerning the deplorable state of our athletic organization. The author points out that the present setup is an utter failure and that changes are urgently needed. He suggests that an athletic council be established to take over the control of athletics.

The idea of an athletic council is not new. In fact, it has been discussed in previous years. However, it seems that the time has come for a serious attempt to implement this idea.

The main argument against an athletic council is the fear that it might interfere with the administration of the athletic department. This is a valid concern, but it can be addressed by having the athletic council work closely with the administration. The council could be given the power to make policy decisions, while the administration would be responsible for the day-to-day operations.

The benefits of an athletic council are numerous. It would provide a democratic process for making decisions, which would help ensure that the needs of all parties are considered. It would also help to prevent the athletic department from becoming too powerful and isolated.

In conclusion, an athletic council is long overdue. With proper implementation, it has the potential to greatly improve the state of our athletic organization and make it a more enjoyable experience for all participants.

The subscription price in another column states in a must for those with the number of the track upon the "varsity
indubitable as announced at" preceding
that there should be one meet held at Iowa
State. This felt quite as
strongly, we are assured by the best authorities that the
control as it can be by any athletes or by one of the women who, as
the Athletic Union of the University of Iowa, named last Thursday night to settle a number of
questions. The difficulty which the board meets these is in putting into practice the
theoretical considerations which are argued upon.

The state of athletics this spring is quite peculiar and will not
happen so far as can be foreseen. Iowa was obligate to give the date of May 3 to Northwestern as that was the only date the Purple could hold for Iowa. This meet occurred at least a year last year and held at Evanston this year. The Minnesota
committee arranged to be held at Iowa City last year but was
called off on account of rain. When arrangements were made for a meet this year, Minnesota quite properly held that she could not be held re
sponsible for the weather conditions at Iowa City and the meet was
scheduled for Minneapolis.

The state field meet occurs at Des Moines, May 32 and the Wes
tern meet at Chicago June 1st. This leaves May 4th, the only open date for a home meet. Grinnell refused to take this date because her pride preferred at least to give up the only one which the Iowa manage
r can use.

These are the conditions that were met in the athletic union meet on

tysterious skill with any other track meet and have that occur at Iowa
City. If suitable arrangements for such a meet can be made, the
athletes and their friends will rejoice. If for any reason, it is impossible to arrange such a meet, the board of control will have done all that it
could to arrange the best schedule under the peculiar conditions
of this year. It is well known that the lack of gymnasium privileges at the University of Iowa will necessitate a great amount of work to be done and we are assured that the best will be done in this matter.

The policy of the board of control of this year toward the athletic
teams is certainly as liberal as could be asked for the most
enthusiastic matter. Having determined
to sink into spring athletic some $600 more than can possibly be received from
them, might be wondered that the athletic union of the University of Iowa does not desire their action rather than utilize the
efforts of those sections to continue the present
management.

The complete that the second and third place men of the team will not be taken
use of not quite positive in view of the intention of the board of control to send at least fourteen men to Minnesota and just as many to
so as possibly anticipated. If, of course, the athletic union insists on the holding of a meet at Iowa City and the穿mont amount of money upon it, not so many athletes can be sent to the best
venues. The union must remember that while it is possible to arrange for a track meet here, it may not be possible to arrange one that will not use
money that could be invested in other ways.

Scarlet and Cream, University of Nebraska, offers to put any man to the spirit of student life to the payment of twenty-five cents for the paper. Certainly a reasonable proposition.
