THE VIDETTE - REPORTER

PHOENIX, IOWA       DECEMBER 22, 1911

EDITORIAL

The Iowa City school board's resolution on high school attendance, printed in another column, will cause many readers to wonder if they are really living in the twentieth century. It is a pity that such an intelligent body should promulgate the medieval notion that athletics should be suppressed, but it seems to be the consistent effusion of the attitude of the board and superintendent for some years past. Here's hoping that high school athletics will in some way or another continue to flourish despite the board's notions.

Better Late Than None or Bust

Fountain Penn was almost from the date of Iowa's admission to the Northern Centennial League, there has been a tradition of football that the last place in the S. 1. O. C. has been reserved with undisputed right to the University of Iowa. For a long time the attempt has been made to have a game with Penn but in vain. Now President McCutcheon has at least come to the decision to exhaust the last place in the N. C. C. for the football team.

Young People Wanted

To Learn the Jewelry Trade

We need a number of young men, boys twelve to twenty years of age, as students in the manufacturing jewelry business, to begin immediately. An especially fine shop of instructors have arrived from Philadelphia, Rhine- land, and gentlewomen who are experts in his line of work, and will assist in teaching the young men.

Prof. W. H. Sewell, a student who desires to enter a line of work that will be most useful to his constituents, is assisting in teaching the young men.
