Some suggestions for next year:
1. Good, hard track and field practices in the fall term.
2. Excise of athletic candidates from military drill.
3. Renunciation of all the fine home meets with medals for first three men in each event.
4. Remember that Iowa never has any anything and peter will throw the white university school for.
5. Heart missionary work with every possible athlete in the place who will enter some other event this year—this means with every man who graduates from a high school track team this spring.

The Iowa City high school athletes should be allowed to train, not only that they may become promising "varsity" material, but also that Iowa City may become a competing school in the state high school meet and the "varsity" athletes thus constitutionally allowed to endeavor to secure it for Iowa City.
