VICTORY FOR ZETS

A VERY CLOSE CONTEST

The Philippine Question is Ably Ar-
ranged at the Iowa City Library by

Minnesota Debaters.

Leading the discussion of the talk-
ning argument and printed with pleaing
ory on the chosen representation
of the meeting on the topic of the philippine
ic societies assembled on the

dating floor last evening with the
admirers of each team majant the
firmed their admiration and en-
thusiasm in rousing cheers and society yells. The evening was
the occasion of the annual pre-
liminary debate of the result of
which determines which of the
society shall furnish two dehat-
ers for the Minnesota达标.

The question argued runs thus:
"Resolved, That the United States
should retain permanent
position of the Philippines," and
was affirmed by the Irvingian
representatives Messrs. John A. Bu-
ler and W. M. Brackett, and de-
ned by Zetetic through Messrs.
W. R. G. Allen and E. H. McCoy. The closing
speeches were made by Messrs. Brack-
tlett, quick and adry, chosen to
determine the merits of the
topic. Calvin, Professor E. A. Wilcox
and Mr. Sam Sloan. Their de-
cisions were two and two.

The debate was close and inter-
esting throughout. The speeches
were good and showed careful
preparation and a thorough
knowledge of the question on the
part of the speakers. The rebut-
tal given by Messrs. Butler and
Brackett was sharp and decisive.
The preceding speech, taken
largely from the report of the
Second Federal Commission on
ly commissioners, was quite
losely delivered by Hadley and
with a slight to the same auth-
ors, who expressed a little
trick however, by Hadley when
in concluding for the affirmative
was brought to the floor with a
quotation from Burritt.

Messrs. Hadley and Calvin
saw the best of their oppo-

ties the evening of the
and the debates of both showed
that they were well and wisely
chosen to lead their respective
teams. They are two of the fin-
et debaters developed at Iowa
in recent years and are fine ex-
amples of what the Iowa debat-
ing system will do for men who
abor unceasingly under it.

While he has his clear and mast
arguments, perfectly at
one on his feet and making
every point count for itself as
most; Brackett, quick and viv-
in his attack, quickest in perceiv-
ig the points of an argument and
rebutting its weak points with
merciless keenness—these two
were the life of the evening and
diners who will represent Iowa
on the finals in a manner fully
quality of the discussion.

The same question was submitted to
Minnesota at the annual winter
spring and the Gophers chose
affirm it. The final debate will
probably take place in the
spring term at Minneapolis.

ADVENTURES OF A STENOGRAPHER

An interesting incident in con-
nection with last night's debate,
recalls the Caldwell escapade of a
two year's occurrence, occurred just
at the close of the contest. One
member of the Caldwell team, Messrs.
Roy, A. Cook and Fred C. Drake and
asked to turn over his entire
port of the debate. Mr. McLain
protested that he was merely re-
porting the debate for practice and
was taking it for no other
college, but the interlocutors
thought that since the practice
had been given the property in
the speeches should pass to the
visitor clung desperately to the
notes and refused to give them
then retained possession of them,
only to be met by a stronger ob-
jection on the part of Mr. Cook.
Finding himself completely out-
and finally consented to
destroy the whole report. This
accomplished, he was dismissed
without more ado.

MIND'S MYSTIC REALM

NATURE YIELDS A GLIMPSE

Mark W. Williams Treats of the "Sub-
conscious" in an Interesting Audience at the Bacon-
sian Society.

"The subconscious" was the title of a very interesting paper read before the Baconian Society last evening by Mark W. Wil-
liams. Mr. Williams had a thor-
ough grasp upon his subject and
the depth and breadth of his
with it will world and
there is no fixed classification
to which we may cling with abso-
ute consistency.

Stimuli affect the mind below the
condition of consciousness. Many a poet has read
poems of lasting merit by
a single dream of his somnambulistic
state, and from it, without the
least depth, have worked out in-
luminous ideas. It is the
work that is in the past.

This something upon which
practical act, the very latest of
knowledge of it has been labeled
it may most generally used, namely,
its consciousness.

The subconscious state differs
from the conscious, yet is linked
with the conscious, as we can
and as yet well-defined ties.
In this realm we find the mystic,
hypnotic and other conditions.
With the elimination as far as
possible of subconscious sugges-
tion, hypnotism affords the best
opportunities for research in this
direction. Here alone the sub-
conscious may be bared of all
conscious covering.

Authorities on hypnotism have long
held that when criminal sus-
pects engage to the subject
were shown him, by the aid of sub-
consciousness, he would rebel
against them. But in the con-
clusions of the past, the possibil-
ity of sub-conscious suggestions
has not been considered. The
operators have been scientific
men who have given criminal
visions of which they merely
simulated the wish for carry ing
out. They have de-
ferred that the subject should un-
form the criminal act they
nised. The subject might
make experiments such
results might be different.

ous appropriations were needed among the members on the rep e p at the barn occupied by the cuss in the . final debate. The base ball schedule for this coming season is one that should make the liveliest of competition -- A .

The trouble which stenographers experience in getting away from Iowa debates with their reports would seem to indicate that this is not a good place to practice short hand work.

The record of the Iowa basket ball team thus far is five victories and no defeats, and only one game has been played on the home floor. The impression will soon get noised among the students that a place has a basket ball team too. You will have a chance to see them play Kansas soon and be sure you are there.

"A general feeling prevailed among the members on the return trip last evening that generous appropriations were needed at Iowa City.—Daily Capital.

The visitors must have taken a peep at the barn occupied by the engineering students, the crowd ed library room or possibly some of them have been enticed into the shed where the medics reign.

One commendable feature of the last debate was that it was on the same question that we dis cuss in the final debate. It is much better that both teams be given an opportunity to study and discuss the question before appearing on the final debate. The contest last evening showed that Iowa has material for a very good team and should make a highly creditable showing when pitted against the Gophers.

The selection of H. S. Hollenbeck for captain of the '07 var sity football team will meet with hearty approval among the students. The prospects for next year's team are unusually bright and will have a strong and conscientious player as Captain Hollenbeck to lead Dr. Knipe's pos-

"The Convent's Daughter," an entirely original melodrama, that will be offered at the opera house Monday, Jan. 21, is that appeals in many ways to the hearts and minds of all the right good. It is unlike other plays of its class and deals with various phases (good and bad) of life as it is in the Sunny South, with its wealth of scenery, starting realism and large company in it. It proved a winner everywhere.

In these days when the name of Jefferson is mentioned on the stage, the public anticipates a treat. And the lovers of epic, comic and wholesome plays turn out in force to greet them. Such is said, to be the experience of Mr. Thomas Jefferson, who is the second son of our beloved actor, Joseph Jefferson. Thomas has appeared as a star for the past three seasons in "Rip Van Winkle" and will be seen here on Jan. 15 at the opera house as "Rip," the play that has made the name of Jefferson a household word throughout the universe. The engagement is for one night only,a fact that should not be forgotten.

How About Your Feet

Hope they are not worrying you. No man can develop the better part of his nature while his feet ache. Aside from making himself disagreeable to others he loses considerable of life's sunshine. It gets right by him—he is busy thinking about those feet. Its good business to buy shoes intelligently. The Walk-Over Shoe is the smartest shoe for men on the market. Basket Ball Team Wins Fifth Game

At Toledo, Iowa, the basket ball team met the representatives of Western College last evening and defeated them by a score of 24 to 7. The game was, though quite one sided, clean and very interesting. Defeat and on their own door was a great surprise to the Westerners who boast of not having met defeat in the last three years. The game was played in the Toledo opera house and before a very good audience. Iowa was represented by Messrs. Schenke, Farrell, Parsons, Brock and Ross. Ross was the star of the evening and won the right to this title by throwing every goal scored by Iowa during the game.

A return game with the opponents of last evening will be played here later in the season. The basketball team will play their next scheduled game at Wilton against the Wilton team next Saturday evening.

The faculty of the college issued invitations today to their students and friends for a banquet at the Buckley Imperial at eight o'clock, February 7.

The attention of the students of the university is called to the fact that the official university time is now given by the large clock in the Liberal Arts Hall.

The Educational Exchange has enjoyed a continually increasing business for several years. The prospect for the coming season is excellent, not only in Iowa but throughout the northwestern states. There is a constant demand for college graduates, or those who have had at least some college or university training. Sometimes a direct preference is expressed for the University of Iowa. If you think of teaching next year, write us fully and we shall be pleased to answer any questions. We will also send printed matter explaining our methods, which you can examine at your leisure. An early enrollment always is advisable. It gives us a chance to look you up and become somewhat acquainted before the rush commences a little later, and those who first enroll are entitled to notice of the first vacancies.
