Possibility that Students Friday Night

Inured to a Technical Violation of the Law—Prosecution Not Yet

in Progress

Members of the university for-

mous societies and other students who attended the Minnesota pre-

liminary debate last Friday night have been warned for the past

twenty-four hours over the an-

nouncement that the net of law

may be drawn around them.

The difficulties seem to have arisen

during an elimination of student

sentiment centering around the

incineration of J. A. McLain's
tenographic notes of the debate.

Legal minds who have only

thought over the events sur-

rounding Mr. McLain's destruc-

tion of his notes are reported to

have expressed the possibility

that student excitement may pos-

sibly have spilled prettily far

beyond the eye of the legal wind.

Under these conditions, the

large number of students who

have been subjected to the more

generally defined statutes of the

law, as a result of action by the opera house

steps, would perhaps stand in

danger of a fine or imprisonment.

Belonging to a mob, making

threats to compel a person to do

an act against his will, and

statutory offenses that have caused

downed halls and bars to remain

closed to student contem-

plation.

The state of affairs consequent

upon the imprisonment of

hundred or more students in

district jail or their absence

from the campus on Tuesday

afternoon. Mr. McLain was

given ball tickets that is something

that would cut down the

attendance at the imminent

contests and the purchase of such

ball tickets is something that

should give Mr. J. A. McLain

considerable reputation as a

general humorist.

Mr. McLain was seen this af-

fternoon by a reporter for the

Daily Iowan. He said that being

in college was more interesting

than he imagined, and that the

college spirit that inspired

the men who stopped him at the
close of the debate and

asked the destruction of the

notes. He did not think much of

a university that would send a

man to report another universi-

ty's preliminary speech, and

personally annoyed at being taken for

a man having any connection with

Minnesota.

The Sigma Xi society of the

university hold three public ses-

sions each collegiate year. The

Sigma Xi's have no need of

adress, as they have some of the or-

ganizations; they order the three. The

second year, the society will be

Dr. Mihdalec of Chicago on the

subject, "Woman and Lost

Civilization." The address will

be illustrated by colored lanterns

slides and will be something un-

usually fine.

degree of Phi B. from the university with the class of '02, calls Feb. 14, for the Filipino,

where he has a position as

How is This?

The girls of Smith college at Northampton, Mass., are indignant at a new set of rules, one of which forbids any one of them taking a carriage ride with any student of Amherst college engaged to be married to her. There must always be two girls, but there may also be two men, provided they are all in the same vehicle. Announcements of many engagements are expected.

The University of Michigan has chosen the negative side of the question submitted to it by the University of Pennsylvania, viz.: "That the system of compulsory voting should be adopted in the United States." The debate will be held in Philadelphia in March, and will be the fourth time the representatives of the two schools have met on the debate platform.

How can they not worry you? No man can develop the better part of his nature while his feet ache. Aside from making himself disagreeable to others he loses considerable of life's sunshine. It gets right by him—he is busy thinking about those feet. Its good business to buy shoes intelligently. The Walk-Over Shoe is the smartest shoe for men on the market.
