ATHLETICS AT DRAKE

Track Men are Engaging in Country Runs as Preliminary Work

Drake track men are hard at work in preparation for the coming season. A bunch varying from twenty to fifty men go out to the woods. This squad consists of the remnant of last year's champion team together with many new comers, unknown caliber but with good academic reputations. Each night the distance covered in these cross-country runs is increased. They are now about three miles. As soon as the fine weather opens up, practice on the field and track will be begun.

Pell, Graham, Jaggard, Ansley, Smith, Gordon, and E. Dakin of the companies and as they are assured that it will be the most elaborate military function ever held, the winners of the medals, the best showroom in the hands of the first man, are confidant that they will wear them will again be open to the property of the men themselves.

The big military ball is scheduled to take place on the evening of this day and the governor and his staff will be invited to be present at the drill and the ball of that evening. This ball is in the hands of the first captains of the companies and we are assured that it will be the most elaborate military function ever given here. The rewards offered and the general interest taken should make the event a grand success and a great gala day for the military department.

The Northwestern University of Chicago barred swearing, smoking, drinking intoxicants, and kissing from the rendition of the annual sophomore class play, on the proper grounds that their legation is conductive of such practices by the faculty and therefore demoralizing in its tendencies. That Board of Control

The Cedar Rapids Gazette after lettering a lot of trash which must have originated in the fertile imagination of their Des Moines correspondent gives the following as a reason for the adoption of a board of control for the educational institutions.

"There is still another reason why this educational board should be authorized and appointed. The whole system—if that word can be rightly used—is haphazard. We tink a little every session. We put a patch here and another there. There is no harmony nor congruity. The State university is cramped up on a couple of city blocks when it should have an immense campus. A board such as we contemplate will study unity in plan and idea, and look to the future for the full development of its purpose. It will have the support of all except the pedagogical politicians and will, I am confident, go through this legislature as a measure of personal relief from those who have proved themselves obnoxious."

LARGE RECREATION

Professor Gordon will Discuss and Interpret "The Marble Faun" Tonight.

The last number of the lecture recitals will be given even the ground of the hall of liberal arts. The program will consist of a lecture and interpretation of "The Marble Faun" by Professor H. E. Gordon and an interpretation on the piano by Miss Alice B. Chase. The programme follows.
