No. 124

REGENTS TO HASTEN MEDICAL BUILDING

A Meeting of the Entire Board Called for April 15, where Grand Plans Purchased, and Plans Decided Upon—Other Duties of the Executive Committee

The full board of regents will meet at Iowa City on April 15 for the purpose of purchasing additional land for the site of the new medical building and the perfection of preliminary plans for the construction of a modern, first-class, fire-proof medical building.

So says the executive committee of the board which has just concluded its regular meeting this session here.

Messrs. P. K. Holbrook, Alonzo Abnerney and W. L. L. Babbe were the three members present and beseeched the regents not to insist that they must have a call for a meeting of the entire board on the first of the month, which is the regular monthly session here.

At this time President MacLean will have obtained options on land close to the present campus and the regents have requested a call for a meeting of the entire board on the latter day. Kesler, who attended the meeting, will present the same to the board at that time:

Resolutions were adopted requesting the president to have options secured from the owners of the following ground prior to the close of the session:

- The one-half of Block 60, and
- The one-half of Block 70.

FOOTBALL PRACTICE

Twenty Men Take Part in the spring Work—New Men Coming Out Every Day

Several new men are coming out and ready for the spring football practice inaugurated last week by Coach Knipe and Captain Hohenschuh. The new men are feared yesterday, all of whom are desperately confident of the team's victory next year.

The work thus far has been light, consisting of running and throwing, running diving punts, tackling the dummy and occasional games of leas and three. Coach Knipe desires in some way to give the men practice enough to get them into good condition before increasing the work. A large number of new men would be welcomed in the squad.

Ten minutes of each day’s work is given to practice in the punting stakes. This work is directed by Captain Hohenschuh, who is one of the most enjoyable and prominent incidents of the practice. The calls to “set set and start off” come so closely together that the men very frequently forget many of the details of the start and perform the punt in various unnatural manners.

Many of the football candidates are also working for the track team, getting in practice in both before and after the football work.

Among the members of the football squad are:

- Hyde, backfield,
- Terrill, fullback,
- Griffin, fullback,
- Porter, Duncan, C. D. Will-

I. 100

- Brown, Slavens, McGallan,
- Welch, DeWitt, and Burt.

The executive committee during their session authorized the issue of warrants against the A. Whitney Carr fund to take care of the remaining scholars now in the fund.

George B. Haddad, Ph. D., of the University of Michigan, was appointed instructor in Latin for the summer session of the university.

On account of the absence of Dr. W. H. Patterson, Dr. Ste- warts was authorized to teach economics, J. E. Conner interning, and John Cady to lecture on charity during the remain- der of the present term.

The provisions made were for the circulation of the Daily Iowan among the accredited high schools of the state.

FOOTBALL PRACTICE

Three ‘T’ Men HERE FOR WORK

WILL PLAY HARD-BALL WITH IOWA

Rock Island Leaguers Play Opening Game with Iowa Today—Manager Donnelly, Brindly, Brown, Garcia Lie Artists to Score Hawkeyes with Their Curves

The Rock Island baseball team with "Three T" men present, strong, arrived in the city this noon and is quartered at the O'Reilly. The team plays the first of its series of seven games with Iowa at Iowa field this afternoon.

"We have a nice lot of play- ers," said Manager Donnelly this afternoon, "and are counting on having a strong team by the time we begin our schedule of the first of May at Decatur. We are espe- cially strong in the pitcher's box, having eight righties with us. The team will be needed out of thirteen or fourteen men by the end of the series here. Some of the men like Tim O'Rourke and Gus Slab are very old stock; while others like Munger and Cudahaler are playing their first professional ball game. We will get a good trial and a fair chance to make good.

Four or five pitchers will be tried today and as many tomorrow, in order not to lame the arm of any of the curve artists. Two of the players, Ward and Con- well were with the Des Moines boys and is barely possible that the board will again have to pass upon his eligibility to contest.

The committee chosen for the conduct of the meet are: Ashley, Johnson, Clark Hunter: pioneers, Smith, Brewer, Bremner; grounds, Brewer, Rawson, Smith; gates, Day, Welch, Neale; advertising, Brewer, Rawson, Smith; judges and tickets, Leisler, Pennington, Hikk, Badger; outfields, North, Smith, Brewer, Rawson; police and guards, Smith, Brewer, Smith, Brewer.

The privilege of publishing the official program and committee card was let to F. K. Flanagan of the Des Moines Leader for a consideration of free press and new blood brought in by the new manager of the team.

GAMES COMMITTEE ACTS

Entries of College Athletes Must be Mailed to Committee by May 11

At a meeting of the games committee held yesterday afternoon it was decided that the entry of all college athletes should be required to be mailed to the commit- tee in charge by May 11. This date was chosen since a team had been called to hold their home meet on the ninth and it was thought that the committee would be anxious to get information mailed up by the date set.

Upon inquiry a number of the committee denied the rumor that Walker, the colored cyclist of Grinnell, had been reinstated or that such a move was even contemplated by the committee.

There has been talk of the stolen professional last year much has been done to relieve the colored boy of his loss and I am barely possible that the board will again have to pass upon his eligibility to contest.

The committee chosen for the conduct of the meet are: Ashley, Johnson, Clark Hunter: pioneers, Smith, Brewer, Bremner; grounds, Brewer, Rawson, Smith; gates, Day, Welch, Neale; advertising, Brewer, Rawson, Smith; judges and tickets, Leisler, Pennington, Hikk, Badger; outfields, North, Smith, Brewer, Rawson; police and guards, Smith, Brewer, Smith, Brewer.

The privilege of publishing the official program and committee card was let to F. K. Flanagan of the Des Moines Leader for a consideration of free press and new blood brought in by the new manager of the team and they should play a consistent game.

Beta Theta chapter of Kappa Kappa Gamma, Chapter, is making ar- rangements for a party on Friday evening, May the second.

Paper at Baconian tomorrow morning.

Infolders—H. B. Hill, Tim O’Rourke, Joe Wright, P. Lister, W. W. Hairston

Outfielders—Frank Donnelly.

Captain and manager—Lee Brown.

Graham also plays in the out- field and is very good, and will do so today. Middleton, an infielder from Rock Island, will join the team, and Grinnell is the old member of the Rock Island team, all the other present members are new men brought in by the new manager of the team.

MILITARY PARTY

Tickets for the military ball can be had from any member of the committee, which consists of the Messrs. F. Negett, H. E. Spangler, W. C. Henry, Max Clawerton and J. Matson.

Drake University and the Agri- cultural school will meet on the Thursday night November First for their first game. Hall, the man-ager of the St. Louis baseball, and his unbeaten team and they should play a consistent game.

NEW LADIES' COLLEGE
Institution for Women, and Household Economics and Other Female Work Will be Taught From a Scientific Standpoint
Plans are now being made in Boston for the first technical college for women ever established in this country. John Simmons, the founder, who died over thirty years ago, left a fortune for the establishment of this institution, and now, after long delay of many years for the purpose of complying with all the conditions of the will, his wishes are about to be carried out. The college will teach household economics, secretarial work, library management, industrial designing, medicine, and nursing and possibly Horticulture, the aim of the institution being to help women earn a livelihood in occupations for which there is now no special training on a scientific basis. The plans of the trustees are for a college with such entrance requirements as are usually met by the courses in the high schools. The instruction to be offered will cover a period of four years, but provision is also to be made for those women who can only give a part of that time to preparing themselves for an industrial career.
A nucleus for this new school already existed in the School for Housekeeping, and after the first of the coming year the two will be merged. The old school offers a course for homemakers and another for those who intend to follow housekeeping as a profession, and as it has accomplished great good along the line of Mr. Simmons' idea, it will most fittingly be made a department of the new college. The course in household economics will educate the student in the science of nutrition, foods, and dietaries; will give practical knowledge on purchasing, cooking and preserving foods and will teach something about plumbing, ventilation, heating, lighting, sanitation, etc., and will fit the student to preside over a home of her own or to take care of the home of another. The institution is to be open next fall, and indications are that it will become as famous as a school for women as the Boston School of Technology has become for boys.
