MEET NEXT WEDNESDAY

Large crowds will Attend the Meet even if Postponed—Students to be Given Training

The thirteen annual track and field meet of the Iowa Intercollegiate association has been postponed until next Wednesday at 1:30 o'clock. With the track hopefully saturated with rain of Thursday night and yesterday, and the moisture still participating in a lively rate after the athletes had reached the fair grounds, an improntu session of the great communal was called in the quarter stretch and a decision soon reached to postpone hostilities until next week. Immediately on reaching the city the committee repaired to the Kirkwood and the discussion regarding a definite date was resumed.

It was apparent to all who saw the track yesterday that a postponement would be worse than useless, as the courses could by no means be gotten in passable shape by noon and the surface mudly, but in many places it could not be even made to lie one to three inches of water.

The question was any one of the track and field meet could be held or worse than useless, as the courses could by no means be gotten in passable shape by noon and the surface mudly, but in many places it could not be even made to lie one to three inches of water.

The question was any one of the track and field meet could be held or worse than useless, as the courses could by no means be gotten in passable shape by noon and the surface mudly, but in many places it could not be even made to lie one to three inches of water.

President McLeam was in Des Moines yesterday and today attending a meeting of the state dartment and the question of the track and the as- to attain the diamond with the ag- riculturists.

The members of the Philo- mathian and Oraton want to do something for the cause of whatever he has been inspecting the public schools.

The baseball team left last night for Ames for a chance around the diamond with the ag- riculturists.

The bulletin of the graduate college is out announcing the candidates for degrees, their major and minor studies, their the-\n
Professor Gordon will deliver the commencement address of the high school at Leon, Iowa, next Thursday.

The question of the track and field meet could be held or worse than useless, as the courses could by no means be gotten in passable shape by noon and the surface mudly, but in many places it could not be even made to lie one to three inches of water.

The question was any one of the track and field meet could be held or worse than useless, as the courses could by no means be gotten in passable shape by noon and the surface mudly, but in many places it could not be even made to lie one to three inches of water.

Professor J. E. McConnell, superin- tendent of the athletic field at Cedar Rapids, under the aus- pes of the department of edu- cation, is delivering a series of lectures every Thursday afternoon on the superintendence of school supervision.

In the Zeta-Philo baseball game this morning the Zeta won by a score of 14 to 8. Ivans, Randall and Kingham of the club for the Zeta's and Farrell and Yates exchanged the forehead for the Phila's.

The Zeta-saphen officers elected for the full term are: E. H. McC, tory; J. W. Fish, vice- president; L. D. Bedford, treasurer; H. W. Brackney, secretary; J. J. Fitz and A. H. Coyne serve at-large.

Miss Ruth Paxton, State Secret- ary of Y. W. C. A., will lead the annual meeting of all the women of the university and city Sunday morning at 8 o'clock in the Presby- terian church. She will also lead the Y. W. C. A. morning meeting at 5:30.

The Hammond Law Senate elected the following officers last evening: E. J. Wenner, presi- dent; T. J. Ahern, vice-president; L. W. Smith, secretary; W. G. Vander Plaag, treasurer; W. B. Ridgeway, corresponding secretary; and Commons' o. executive committee

Every student at Yale is ex- pected to pay eight dollars toward athletics.

The girls of Oberlin College have organized a tennis association and will play a series of inter-class games.

Remember that tomorrow the men's meeting will be held in the armory at 8 p. m. and will be ad- dressed by Mr. Fred Ellman and a man of international reputation in Y. M. C. A. work. His topic will be "A Strong Man."

At the request of the alumni association of the university the Western Passenger Association has granted to visitors at the annnual commencement a rate of a and a third over the regular rates belonging to the association in Iowa. The commencement invi- tation are now in the press and will be sent out probably the forerun of next week.

The new catalogue of Harvard University now appears consists of a prescription for students who desire to graduate in three years. The regulation respecting the above is as follows: "A student completing in three years the requisite number of courses with such grade as may entitle him to "cum laude," may, on petition of the faculty, be recommended for the degree at the end of his third year, and obtain the leave of absence which time when the degree may be ac- quainted."
says the Lenox Nutshell: “Success is composed of about two per cent genius and ninety-eight per cent of hard work. Inspiration means perspiration. At least we find this our experience in editing a college paper.” We assure the Nutshell of a hearty concurrence in its opinion from every college newspaperman in the country; but still, we’re all a bit like the drowning man and won’t give it up as long as there is a straw in sight.

The enthusiasm manifested by the manager of the senior circus and the sheriff in which he is working up the affair indicates that the show will be made one of rare interest. New features are being added to the list of attractions daily and it begins to look as if three rings might be needed to make room for all the performance.

Commencement draws nigh and the editorial pen of many a budding Horace Greeley is maneuvering its way through a dissertation upon the value of a college diploma.

And the “dope” fiences have yet a little space to get in their deadly work upon the student’s imagination.

THE UNIVERSITY OF CHICAGO

One hundred and sixty-five rosettes went from Grinnell to the state meet; one hundred and sixty-from here; the fare from Grinnell was one dollar and a half—from Iowa City two dollars; the Iowa College students started in a driving rainstorm; the Iowa State University students made the first part of the trip with the sun shining. No comment is necessary. We hardly feel like urging yesterday's faithfuls to go down again next week, though many of them will do so, but we would wish to impress upon the remainder that every professor and instructor in the university is aching all over for an opportunity to "skip" classes in a body, thereby presenting our worthy faculties with a long-hoped for gift.

If Morals are a QUESTION of DIET

As is urged by some who have made a study of the subject then it is evident that the grocery merchant occupies a position of no small responsibility, for you depend more or less upon the judgment and conscience of your grocer for the selection of the food which you consume.

Barth, the Grocer, takes particular pride in selecting for his trade the cleanest and most wholesome foods to be found anywhere upon the market.
