BURNS SIGNALS NO SCRIMMAGE YET Teams Will Line Up Tonight—Non Game Practice—Second Team Schedule

Practice Saturday was the usual routine of signal practice, running down on signals and tackling, and ending up with lea and three deep. The signal practice was fast and snappy, and a great many more end plays were tried. The backs show up much faster and surer than last year and this may allow more variations in the plays used than was possible with the 1901 team.

Volley play a large crowd swarm ed up into the grand stand and hung around the side lines, called out by the word which Rev. Cram had circulated around that there would be scrimm age practice, but the nearest they came to having their taste for the real thing satisfied was in watching a good fast game of association in which Capt. Durkee showed as the bright partic ular star. Signal practice was run through with till all the men were ready to quit, and they would have relished scrimmage work as promising a little rest and breathing ground. Durkee and White continue to show up well at the halfbacks while Briggs seems to have gone back to center to stay, though Durkee is tried out there occasionally. The line up this year for the big games is much stronger, and was ready to quit, and they would have relished scrimmage work as promising a little rest and breathing ground. Durkee and White continue to show up well at the halfbacks while Briggs seems to have gone back to center to stay, though Durkee is tried out there occasionally. The line up this year for the big games is much stronger,

New Football Rules.

Four new football rules have been adopted by a mail vote from the eastern universities, and have been adopted by a mail vote from the eastern universities, under the name of Cox, Smith, Sims, and was graduated in 1897. Durkee and his associates since that time have been working on the problem of gaining a more end plays were tried. The backs show up much faster and surer than last year and this may allow more variations in the plays used than was possible with the 1901 team.

The backs show up much faster and surer than last year and this may allow more variations in the plays used than was possible with the 1901 team.

Dr. Frank E. Horack

It is gratifying to see the name of Dr. Frank E. Horack in the list of instructors in the University. Dr. Horack returns to the University after five years of travel to study to accept the position of instructor in Department of Political Science. It was in 1901 that he graduated from the Iowa City High School. In 1893 he entered the University of Iowa and was graduated in 1897. During the two years following his graduation he pursued graduate studies in the university, spending a summer quarter at the University of Chicago. He received the A. M. degree from the University in Iowa in 1899. Dr. Horack then went to Philadelphia, where he spent the year 1899-1900 at the University of Pennsylvania. The year 1900-1901 he spent abroad at the Universities of Hallie and Berlin. The last year of his graduate study he spent abroad at the University of Pennsylvania as Fellow in Political Science. Since his return to Iowa City, Dr. Horack has been elected to succeed Mr. Thomas as Custodian of the State Historical Society.

FRESHMEN WIN SCRAP

Sophomores Outwitted

Class of '06 Teams Down the Eddy Hung at the Central Gate by the Sophomore Eddies

The class of 1906 first made itself known by the "scrap" of yesterday evening at the campus gate. The students who swarmed down from eleven o'clock classes found the trees beside the campus gate alive with sophomores and saw swinging between the two elms a small rag dummy labeled '06. This aroused the ire of the freshmen and the ground and street around the trees was soon the scene of a lively scrimmage. The sophomores had the advantage of experience and organization and of acting on the defense as the freshmen were brawny and toughened. After several minutes of the tussle it began to be evident that the freshmen could not over come the odds from below so they took to "tall timber." Soon fres hmen were to be seen in all of the neighboring treetops and telephone poles. Two freshmen, Hobby and Tonk, both of Iowa City tried the wire climbing trick and failed. Hobby succeeded in bad hanging himself before he was thrown off of the wire. Then the freshman began to climb from tree to tree, and was soon the object of all the attention. When he succeeded in hanging the dummy against all corners for some minutes, the wire was finally cut and the dummy dropped into the serging crowd below.

In the end the freshmen were victorious and the mutilated image of the dummy was the result of a triumphant by the men who it was intended to shame. One of the outstanding features of the scrap was the triumphant speech made by Freshman Steer, who had none of his raillery left above the waist except a tall white collar. Other men, as well as '06 fared similarly and the rag man smiled as he gathered up the remnants. The one amusing feature of the fray was the injury to Merle B. Call a member of the class of '95. At some point in the scrap the small bone of his leg was broken just above the ankle. The Iowa wishes to express its sincere sympathy with the same. Call and hopes speedy convalescence.

^A. F. Severin, '66, and T. Boy sen, Ph. B., are pledged to Delta Tau Delta.

The Octave Thonet literary society gave a reception tonight by the new girls of the university last Mon day from 4:00 to 6:00.

FRATERNITY INSTALLATION

Beta Rho Chapter of Kappa Sigma In stalled Saturday Night at the Okapi Halls

On Saturday evening the Beta Rho Chapter of the Kappa Sigma Fraternity was installed anc, the new members initiated into all the sacred rights of that "Frat." The initiates were, for the most part former members of the Phi Upsilon chapter of Alpha Chi Rho which dissolved last May and which since that time subsisted under the name of Phi Upsilon. The Kappa Sigma in charge of the installation were, Mark Sands, student, membership of over eight sota; Carl Herrick, Wisconsin; and Sam B. Sloan, Nebraska.

The ceremonies occurred at the Okapi Club rooms and a banquet was served at the Berkeley Imperial.

The charter members at Iowa are F. Nugent, A. C. Lee, McDonald, B. B. Burnquist, Guy Cox, Jesse Bowen, Paul Burrows, Harvey DAVIS, George Hayler, Fred Luhman, C. Swigart, John Redmon, W. L. Doobis, Thomas Smith, I. D. Breden, and Geo. H. Woodward.

The privilege is a relic of the chivalrous days of France, having been originally founded at Bois-le-Duc in the 15th century. The first chapter in the United States dates from 1863 and was founded at the University of Virginia. Its principal strength has been among the colleges of the southern states, and recent developments have carried its banners into the east and middle west.

At the present time the Kappa Sigma have fifty-nine chapters with a total membership of over eight thousand. Chapters of this fraternity are found in all the large universities of the country.

Members of the new chapter are now sporting jeweled stars which they wear on their caps, the official badge of the fraternity.

The new chapter of Kappa Sigma go with the Beta Rho Ch. pter of Kappa Sigma.

Bacchian

The Bacchian met in the new lecture room in physics hall last evening and listened to a paper by Prof. A. V. Sims, who has recently returned from his tobacco plantation in Virginia, on the subject of tobacco raising. The club adopted the following congratulatory resolution expressing improvements in physics hall.

Whereas the Bacchian Club fortunately shared in the enlarged lecture rooms and new equipment occupied by the department of physics;

Resolved that the Bacchian Club extends to the Prof. of Physics, all of their sentiments of physical Science, with gratulations on present progress and the future. This is only the beginning of a era of progress in the science work of the University.

REMEMBER TO廢

Iowa City, Iowa, Tuesday, September 30, 1902.

Vol. 2, No. 4

Published by the Students of the State University of Iowa

IOWA CITY, IOWA, TUESDAY, SEPTEMBER 30, 1902.
The Board of Regents is casting around for a man capable of filling the College Journalism. Mr. Dorweiler, a junior at the University College, was elected to the reporters staff. He has newspaper experience and a flair for writing. The secretary has during many years been ably assisted by Mr. McClain. Although the news is old, it is form in town. The Iowan board is open to all students willing and able to take on the responsibility of the newspaper. The idea of having a newspaper is good, but the work should be carried on with much enthusiasm and spirit. The students should make an effort to improve the paper and make it a credit to the University. The football season opens in earnest with the Normal game on Saturday. The season will bring a number of strong teams to Iowa City. Why should not the students organize a rooters club or something along that line in order that the rooting at the games may be systematised? The idea of having yell masters and spontaneous mass meetings is good, but the work should be carried on with much energy and enthusiasm. Iowa will have a good team this year and the students should show their appreciation of it without waiting until a rally is necessary. The antics of the Freshmen and Sophomores at the Campus gate and on the campus will be an inducement to every purchaser to order.
Our new Fall Suits are holding a reception and they earnestly request a call from you. You will find them in all the new styles, here ready to greet you.

Our Nobby Top Coats, Swell Hats
Handsome Neckwear and Shirts and all
