FAST SNAPPY PRACTICE
"YOU'RE SLOW" THE WORD
Good Work In Iowa Field Last Night
Saturday's Game Anxiously Awaited
By Sportswriter

Practice was fast and snappy last night, though the word with Coach Knipe nipped "You're Slow". But the team does not look slow from the side lines and especially the backs are fast, much faster than last year's back field, and it seems that we may have an around team, like that of 1899 of which "Biffy" Lea said that it had a greater diversity of successful plays than any he had ever seen.

Lines were in order last night and the backs, ends, and tackles were sent into the scrum with line with effect. The other backs did not result in regular gains for none of them had charge of that difficult branch of the investigations.

On defense the varsity played as clever and tactful as the forwards, and all hands are watching the others are better and quicker.

The players are at work at Cedar Falls, where the shorter course make changes in the team with everything in common even the man with the ball netted the opposite end going ahead of

Badgers Work Secretly
Because he believes that Michigan fans are watching the university football squad at practice getting on to the signals and plays.

**Hawaiian Exposition**

Known what they are, but when
they are thus classified the uni-
versity collections will be enrich-
ished with a full series of all the
collections made, and as the
region involved had never been
consecutively worked before, these
specimens will doubtless prove
of greatest value.

While too early to speak sci-
cientifically of the results of the
trip, it can be said without fear of
error that from a scientific stand-
point this will prove a notable
expedition. Some things were
brought up from the depth of the
sea which were epoch making in
zoological science and like a
nightmare in their strangeness.
The full results accomplished
can only be appreciated after
the full report of the expedition is
made to the authorities at
Washington.

Unique Case of Chancellor Andrews De-
nouncing Increase in Salary

The following from Lincoln,
Nebraska, tells of what is proba-
bly the only case on record of a
college president refusing to ac-
scept more pay, but then Chancel-
or Andrews has done and said
several things before that have
made the only cases on record
up-to-date.

"Chancellor E. Benjamin And-
rews will remain at the head of
the University of Nebraska at his
original salary of $7,000 a year.
Last summer when it was report-
ad Wisconsin had professed the
presidency at Madison to Dr. An-
drews, the Nebraska regents ad-
vanced his salary to $6,000. To-
day the chancellor sent a letter to
the regents declining to accept
the increase, giving as his reason
his knowledge that economy is
necessary in the management of
the university."
