Professor Wilcox is entitled to great credit for the careful and accurate manner in which the making of the report entitled. His task required reading over hundreds of accounts and the posting and generalizing of many items. When it is considered that this great task was performed in addition to his other work as president of the board of athletic control, some idea of what Professor Wilcox is doing for the university can be gleaned.

SOPH MEET FACULTY

Committee From Class Report to Professors in Faculty Meeting

At the regular faculty meeting convened at 3:30 p.m. yesterday in addition to routine work which came up for consideration the committee from the sophomores appeared before the faculty.

The committee was given every opportunity to explain fully all the circumstances in which their minds had bearing on the recent fraternity_al brawl and line also to demonstrate the indignity done to any sophomore class regard to paying for the damage done. This business occupied the time of the meeting till 4:05 p.m. when the meeting adjourned without taking any action on the matter.

The committee as near as can be ascertained wish to express on possible what will be the course of the faculty in case they come up and pay the whole damage, their ideas being if at they would prefer either punishment singly to both paying and being chastised.

FACULTY DELIGHTED.

Contrary to the expressed opinion of any members, or circumstances and facts surrounding this affair, the faculty of the college wholeheartedly and without reservation approved the treatment accorded to the infringment of the college regulations. These eternities of the institution the demand punishment claramonsously and dictatorially, seemingly for all in ignoring of the fact that there were many extenuating circumstances and that they know next to nothing of the actual occurrence.

That the faculty and the president have been most diligent in this matter a review of their action to date will show. All should bear in mind that evidence was available as to who were the wrongdoers. It is so-curred in the evening and no one takes an interest in the grievance that anybody did anything.

Bryant Meet Month

Prof. Gordon has received word from William J. Bryan that it will be impossible for him to lecture at this time and that he will probably be able to fill his lecture date here in January.

BASKETBALL ADMITTED

MADE A PART OF ATHLETIC UNION

Election of Officers of the Union—Submission of Two Amendments to Constitution

The basketball team was admitted into the athletic union of University of Iowa last evening and given all the rights and privileges which accrue to any athletic team through being under control of the board of student managers. The admission was voted after a full discussion pro and con. The motion to admit received but two dissenting votes.

The admission of the captain of the basketball team to the athletic union was proposed but as it had to be announced as an amendment to the constitution, the vote must be kept up and the next meeting of the union. It will undoubtedly be carried at that meeting, for the basketball team with here been once admitted, cannot be denied equality with the other teams, whose captains are members of the board of athletic control.

Another amendment was proposed which aims to lengthen the present heavy duty of the president of the board of athletic control by enabling the board of athletic control to choose any faculty member as chairman of the eligibility committee. The work of the committee, which is doing for the university and given all the rights and privileges which are compatible with justice to mete punishment according to the rules and which student managers believe fair and just.

Debating League Meets

A special meeting of the debating league was held in the city room in the afternoon for the purpose of forming a new compact with the University of Wisconsin. The main outlines of the proposed compact were correspondingly close to those of the recently adopted Minnesota-Iowa compact. The meeting spent some time in arranging the details of the document which will be transmitted to the Madison debaters at once.

Prof. Fairbanks delivered a pleasing lecture on "The Peril of the Persian Wars" in the general lecture room last night.

The junior lits at their meeting yesterday voted to hold their regular social on December 18, in the P. P. hall, and to organize a certain soliciting committee for the "J" prom: H. L. Dyre, E. B. Crane, W. F. Heilberg, T. J. Walker, Robert Edgerton, J. G. Berryhill, W. M. Ball, H. D. Willys.

Dean Gemmep has appointed a committee to consider the report of the American Bar Association, on classification of the law students.

Now, Althogether!

Some complaint has been heard during the past fall that the team didn't play together. The whole body of students have an opportunity to make a play now, and let us not allow it to be said that the student body is not a unit. The athletic debt which has been hanging over us for years, like a spectre of impending misfortune, has to be removed. It must be wiped out, four thousand seven hundred and twenty-seven dollars of it. It will take an earnest, concerted effort on the part of every student, every alumnus and every friend of the university to accomplish this great task. But it must be done and if each does his part it will be done. In saying this the huggens of the undertaking is not lost sight of; for, tho thousand dollars is a very large sum of money, even a wealthy firm to have to meet and to require this sum of the athletic union at first sight seems ridiculous. If the appeal of athletics is to be met by the hypocritical call which hides a stingy purse; if we are going to say "I don't like the coach," "I don't like the manager," "Things are not run right," then we must fail. But such is not the spirit of Iowa students. Instead of such knocking we will hear "I will do all I can to help." Will each and every student only carefully question himself and find out what is the greatest possible sum he can spare from his expenses during the next ten months, and then give this to the most deserving cause that ever appealed for aid and the athletic union debt will certainly disappear like snow before a March rain. Everybody help!

Does anyone think athletics are not run right in the university? Let him get in and help raise this debt for only one day and he will have nothing but praise for those who are doing the laborsious drudgery connected with the details of the control of athletics. Anyone who feels that a change should be made in our athletic policy, can never persuade anyone else to his way of thinking by standing out in the cold and howling like a lost calf. If you want something to say, get in and help and you will be listened to.

Several important steps were taken at the athletic union meeting last night. Were you there? Do you complain that you have nothing to say? The two conditions are hard to find in conjunction.

Everybody out of the way for the athletic ball! It will be the brilliant social event of the year.
