## A VALENTINE PARTY

### PI PHI'S ENTERTAIN ROYALLY

The Dancing Party Given Last Night by the Pi Beta Phi Sorority Was a Happy Event.

The party given by the ladies of the Pi Beta Phi sorority last night was truly a very happy event. The Pi Phi's by the most pleasant evening which they gave their three hundred invited guests again showed themselves to be royal entertainers.

The armory has been decorated so many times for parties that new and original schemes for decorating it are very hard to find, but the scheme last night was a novelty. The walls were completely covered with white bunting while light blue was used for trimming. Overhead and around the balcony were hung hundreds of red hearts. The overhead was a perfect network of them, large and small. Through them the light reflecting on the pure white background made a unique effect.

The spirit of St. Valentine was certainly everywhere as well as the decorations symbolic of him.

At eight o'clock the guests began to arrive to be met by a receiving line of some twenty Pi Phis, Miss Francis Gardner of Avoca, Iowa, the president of the fraternity standing at its head. The music furnished by Meyer's orchestra of Cedar Rapids began at 8:45 and from that time until one o'clock the dancing continued.

At the refreshment table each guest was presented with a souvenir of the party in the form of a sunset heart, pierced by an arrow. It was also tied with the colors of the fraternity. Many guests from out of town were present to take part in the happy event.

Wisconsin has arranged for track meets with Illinois, Beloit and Chicago.

## AFTER-BATTLE TALK

### How the Hawkey Board Was Elected

The following statements of how it happened were made to the IOWAN reporter by managers of the two slates, after Thursday's election.

C. J. Lambert, of the victorious Zets: "We had the best men all round, I think, and to that be attributed our victory. We had the Philo and Engineering support and a large following from those unidentified with organizations. The other side tried everything they could to beat us but we succeeded in pulling out ahead. I cannot account for the one break, Miss Waterbury's election, save that she is a very popular girl, which caused some of our votes to break away. She is unidentified with any literary society. Possibly a mistake in Miss Nichols' name on the slate had something to do with her defeat."

Leslie McAuliff of the Irving-frat combine: "The Zets have had us on the run ever since Christmas. They have the class organization and when they got ready for the election, they held it and you see the result. It was the field against the Irvings and frats. Miss Waterbury was elected on account of her great popularity, among the girls especially, and because she was not identified with any organization. She will make an excellent literary editor. The board elected is a good one."

What do they all say? The Athletic Ball.

A university club has been organized at Waverly Iowa. They have asked Pres. Mac Lean to speak before them sometime in March.

H. V. Speidel has returned from Guthrie, Oklahoma, where he has been teaching in the high school. The Guthrie Leader contains the following complimentary notice: "H. V. Speidel professor of science and German in the high school has resigned. The resignation came as a surprise to Superintendent Campbell and the teachers of the central high school building, with whom he has been associated since the opening of the school year. He came here from the University of Iowa, where he graduated last year, to accept the position of professor of science, a position he has held with credit to himself and the high school."

A startling brilliance, a shimmering beauty, a few strains of melody—that's all—the Athletic Ball.

All Iowa will paste the date of Senator Hoar's visit to Iowa City in its hat.—Register Leader.

The following is the enrollment of Scottish universities: Edinburgh, 2,814; Glasgow, 2,037; Aberdeen, 905; St Andrews, 264.

There is a species of man scattered here and there over the earth whom scientists and other students as well have come to know as the "hammer race." This however, is not the only name by which they are known. They are called sometimes "knockers" and from the songs they sing they have become known to some as "the anvil chorus." These species of men take their inspiration from some old mythological source and set themselves up as the inspectors and critics of everything their fellow man does. They have no positive purpose but simply have a negative existence they just simply "knock." No enterprise, no action of others but what they must censure. Deep down in their hearts is found selfishness, malice, jealousy, self conceit, arrogance and egotism. They live to no purpose but just knock. They don't build but attempt to destroy.

Every student at Yale is assessed \$8 a year for the support of athletics.

Prof. Dodge will speak on some Scandinavian theme, probably dealing especially with Copenhagen and with the Bertel Thorwaldson art gallery of that city. The lecture will be illustrated by stereopticon views of historic places and of the art masterpieces of Thorwaldson and other Northern artists.
