A VALENTINE PARTY

PI PHI'S ENTERTAIN ROYALLY

The Dancing Party Given Last Night by the Pi Phi Society Was a Happy Event.

The party given by the ladies of the Pi Beta Phi sorority last night was truly a very happy event. The Pi Phi's by the most pleasant evening which they gave their three hundred invited guests again showed themselves to be real entertainers. The amboy has been decorated so many times for parties that new and original schemes for decorating it are very hard to find, but the theme this time was a novelty. The walls were completely covered with white bunting while light blue was used for trimming. Overhead and around the balcony were hung hundreds of red hearts. The overhead was a perfect network of them, large and small. Through them the light reflecting on the pure white background made a charming effect. The spirit of St. Valentine's Day certainly everywhere as well as the decorations symbolize of it.

At eight o'clock the guests began to arrive to be met by a red carpet. Miss Francis Gardner of Avoca, Iowa, the president of the fraternity standing at its head. The music furnished by Meyer's orchestra of Cedar Rapids began at 8:15 and from that time until one o'clock the dancing continued. At the refreshment table each guest was presented with a souve nir of the party in the form of a sunset heart, pierced by an arrow. It was also tied with the colors of the fraternity. Many guests from out of town were present to take part in the happy event.

Wisconsin has arranged for track meets with Illinois, Beloit and Chicago.

The baseball schedule of Princeton for this year contains twenty-eight games.

Cornell's track team will take a western trip during the Easter vacation, meeting the University of Michigan on March 23.

The faculty club of the University of Wisconsin has just completed the erection of a new club house at a cost of $7,700.

The entire senior class of Yale Forest School has spent a month in the lumber camps collecting material for their theses.

A sonophore gave a successful minstrel show, the receipts of which go to the erection and maintenance of new tennis courts.

The physical averages for the freshmen class at New York University for two years and one half of the college year, from 1887 to 1902, are: height, five feet and seven inches; weight, in pounds; have to be closed. As the hospital was not due to the seriousness of the injury so much as that he might receive better treatment at home.

C. A. Williams, '93 who was fellow in German at Iowa last year, and who holds the same position at Cornell, (Ithaca), this year, is at his home in Coralville threatened with typhoid. The typhoid cases are so numerous at Cornell, that the university may have to be closed. As the hospitals at Ithaca are crowded Mr. Williams when threatened left for home, where he might receive better care.

The following statements of how it happened were made to the Iowa Expositor by many of the writers of the two slate, after Thursday's election.

C. J. Lambeir, of the victorious Zets: "We had the best men left on round, I think, and to that be attributed our victory. We had the Phi and Engineering support and a large following from those unidentified with organization. The other side tried everything they could to beat us but we succeeded in pulling out the win. I do not account for the one break, Miss Waterbury's election, save that she is a very popular young lady, which caused some of our votes to break away. She is unidentified with any literary society. Possibly a mistake in Miss Nichols' name on the slate had something to do with the feat."

Leslie McAllister of the Irving-frat combine: "The Zets have had us on the run ever since Christmas. They have the class organization and when they got ready for the election, they held it and the Phi Fraternity took the field against the Irvings and won by the smallest margin, and I think were appraised of account of her great popularity, among the girls especially, and because she was not identified with any organization. She will make an excellent literary editor. The board elected is a good one."

What do they all say? The Athletic Ball.

A university club has been organized at Waverly, Iowa. They have asked Pres. Mac Lean to speak before them sometime in March.

H. V. Speidel has returned from Guthrie, Oklahoma, where he has been teaching in the high school. The Guthrie Leader contains the following complimentary notice: "H. V. Speidel professor of science and German in the high school has resigned. The resignation came as a surprise to Superintendent Campbell and the teachers of the central high school building, with whom he has been associated since the opening of the school year. He came here from the University of Iowa, where he graduated last year, to accept the position of professor of science, a position he held with some success to himself and the high school."

A startling brilliance, a shout signifies, a few strains of melody—that's all—the Athletic Ball.

All Iowa will paste the date of Senator Haro's visit to Iowa City in its hat. Register Leader.

The following is the enrollment of Scottish universities: Edin-burgh, 7,925; Aberdeen, 905; St Andrews, 184.
Professor Daniel K. Dodge

It is announced that Daniel K. Dodge, of the department of English of the University of Illinois, will lecture on this university on or about the 21st of March. The lecture is to be given under the auspices of "Edda" and is open to the public.

Prof. Dodge will speak on some Scandinavian theme, probably dealing especially with Copenhagen, and with the Bortel Thorswald art gallery of that city. The lecture will be illustrated by stereopticon views of historic places and of the art masterpieces of Thorswald and other North ern artists.
