Professor Loos reported, "Disclose as we may, adherence to the ur- gencies of Nicholas Murray Butler representing the cutting down of the regular college course, this move has already set in, but has proceeded so far that the student already gone. It is already lost as a general cul- tural study crop unless it be granted that the educational values of the several subjects in our elective system are of such unquestionable purity as to make it indifferent what you choose." In addressing the con- ven tion, it said, "Is now the turn of the schoolman to do the building." In regard to preparing men for the foreign and consular service Professor Loos said that prepara- tion could be made for this ser- vice, and of prizes made. But present seems to be no way of getting your prepared men in the service.

The State Normal baseball schedule includes Iowa at Cedar Falls April 28 and the Normal at Iowa June 1.

The state that is in "the big spring" will be Ohio Uni- versity. In another year, either Ohio or Ames will be dis- credited.

Geo. Woodruff, the old Yale player who made Pennsylvania a member of the eastern "big four" will coach Illinois next fall. He is said to have offered to coach Illinois for $5,000, winning tem- porary guarantee of $1,000, or no pay. It is hardly probable that the final contract will be signed these terms, but it shows Woodruff's confidence.

Mrs. P. T. Besse has been elected a member of Tau chapter of Delta Gamma.

A MOVING SPECTACLE

Latch Key Causes Much Trouble

All over a ten cent latch key! And so sudden too! J. D. Rockefeller.

Really very undignified and quite a bother too.

A lady who has for years kept fair co-ed roomers in her house and furnished them boards on very reasonable terms, has locked the doors to the rooms and taken the last leaves out of the dinning room table. She has not yet sold one of them and wishes them to turn the key to that is lost and that's what all the trouble was about.

It has been an open secret for some time that things were not as serene within the mansion as the calm appearance of the brick walls from the outside would in- dicate, nor indeed as a very manly in- be in a home for young ladies. Panakes were only baked the morning from 7:15 to 7:30 and the belated student who arrived at table, 7:30, had to eat bread and molasses instead.

Then also the inmates of this model house were repeatedly warned against the reckless ex- travagance of the coal oil which was burned in the lamps. The landlady accused them of in league with J. D. Rockefeller, a local grocer, to help out the receipts of the Standard Oil Company and thus aid the University of Chicag- o. This lack of college spirit moved the very hem of Rosy's deep nature and she put the fair roomers on an allow- ance. This was not to the satisfac- tion of them for they were good students, and was a protest against the midnight oil, whereas the amounts furnished only lasted till 9:30.

Others of the girls who were very careful, much and much their callers thought that the landlady was all right in their position.

These are but samples of what went on previous to the suspension expense. It has been lost as a general cul- tural study crop unless it be granted that the educational values of the several subjects in our elective system are of such unquestionable purity as to make it indifferent what you choose."

MORE REGULARITY

There are a goodly number of men out using the temporary training quarters in the army but still not as many as can be accommodated. The greatest trouble however, is lack of regularity in attendance of those who have come out. Of all things else, physical training must be regular to be beneficial and above all, the training which leads up to track work must be pursued without let-up to bring results. Prof. Eastman, Mr. Bush and Capt. Anderson, with nothing to gain but glory for the university, are most regular in their attendance at training and it is asking but little to require the squad to be equally punctual. Intermittent, desultory work is as likely to prove a detriment as a benefit. The work in the gymnasium has been working faithfully and the outlook is bright for a good track squad this spring.

The fellow who tries to fool his professor about his work is frequently only blinding himself and blinding his vision so that he is unable to discern his best interests.

The action of the university alumni of Waterloo toward forming an alumni association is a step in the right direction. Would it were emulated in every town of the state.

Yesterday was Ash Wednesday and many persons are observing lent by doing without something. Would it not be as truly pious to do without something? B L

Amusements

The Christian, Hall Caine's famous play, is strong and most notable and lasting successes given the public of recent years, and in the forthcoming presentation at the opera house on next Thursday night. Liebler and company the original producers offer an excellent cast, together with fine stage settings and detail of projection which has characterized the former engagements and the occasion is one that will doubtless prove of more than usual interest to our theatre goers.

Regger Prince Co. in Olivette, opera house, Friday, February 27. The show you've been waiting for.

100 laugh, 100 minutes in Olivette, opera house, Friday, February 27.

"A Breezy Time," which will be seen at the opera house March 3 is one of the most effective farce comedies in town this season. It is diverting without being inane, and has a slight story which makes a very strong vehicle for introducing the various specialties of different members of the cast, each one of whom is an artist in his or her line.

President MacLean returned last night from Omaha.

Scimitar and Fax will hold its second initiation Saturday night.

McClain chapter of Phi Delta Phi will give a banquet at the Burkley tomorrow evening in honor of Judges Deemer and McClain who are members of the fraternity.
