DEMAND FOR TEACHERS

Department of Education Unable to Fill Places—Low Wages for Iowa Teachers

Iowa is making great progress in an educational way, especially in the elementary and secondary school systems. In the western districts, which had been neglected, a great deal has been accomplished in the way of providing adequate schools. Even in some of the rural districts the position is much improved. Education is in great demand. The power of education is recognized everywhere. It is the only case of its kind and is not a dollar subscribed. This kind of work will be far-reaching in its influence as a method of promoting education. It is intended even that resolutions intended for study will be made. The movement is a significant development in the educational world.

CUT COLLEGE COURSE

Conference Called for Discussion of Advisability of Shortening College Course

The calling of a conference in Chicago of the university and college presidents of the country for a discussion of the advisability of shortening the college course to three, or even two, years will be of great importance in American methods. Such a gathering of distinguished educators will be held May 8 and 9. Invitations have been sent out yesterday by the Northwestern University, under whose auspices the conference will be held. The invitations are to the heads of the institutions themselves, with the request that either they or some representative men of the faculty be present.

MEANS NEW SYSTEM

Educators see in this conference together with a recent adoption of a three year course at Harvard, what may mean a breaking away from the traditions of years in American college, and the adoption of a system similar to that of German universities, where a two-year course in the gymnasium has been sufficient preparation for the professional schools. While no action is intended, further than a general discussion, and it is not intended even that a resolution be adopted, it is probable that the influence of the conference will be far-reaching in its effect.

The shortening of the course in the universities is likely to go hard with the smaller colleges which have not studied the "turning of the corner." said Professor Holgate, dean of the college of liberal arts of Northwestern, yesterday.

"Very many of those taking college courses are going into professional schools, and if they can save one year or two years by welding an institution that gives a foundation of credits from its professional schools they are likely to attend there."

The Women's Edition will be out April 7.

The sophomore divisions of physical training played a close and exciting game of basketball yesterday at the armory, which resulted in the 30-15 division, the score being accurate and realistic.

Next year Kansas University will inaugurate a fee system. The fees to be collected are as follows: Matriculation for all students, $5; arts students, $40; engineering, $80 for residents of the state and $150 for non-residents; pharmacy, $5 for residents and $150 for non-residents; law $45 for residents and $50 for non-residents; medicine $75 for residents and $80 for non-residents.

The fees for these purposes aggregate about $45,000 annually. The need of more money is the cause of this action.

TRACK TEAM WORK

Outdoor training in beginning—Final Cross Country Run April 4th

Candidates for the track team will begin outdoor training at the athletic park Saturday afternoon, March 25th. The majority of the track team have been training faithfully in the armory during the winter, the coaches decided it would be well to give them a week's rest after the indoor meet to prevent any danger of over-training during a protracted season.

Any man who expects to enter any of the athletic games this season is urgently requested to begin work promptly, so that progress in training may be uniform, and the form and numbers be enabled to keep up the pace, and thus enrich the normal and progressively than they can when they enter at different periods.

This is especially applicable to men who were obliged to miss the indoor training. By beginning at once, and training faithfully, they can get in shape during the season, if not for the Home Meet which will occur Saturday, May 8.

The final cross-country run, postponed from last fall, will be held Saturday, April 4th. The junior and senior teams were very close in the race for first place at the last run. The fresh-senior teams were in the lead, the women's teams were not far behind. The invitational meet will be of great interest, for the individual prizes, as well as for the freshman scoring the highest number of points during the series.

Value not profit is the motto of the Women's Special.

Jurgensen '05 is visiting in the city.

Endodental Society will entertain the livings tomorrow night.

Miss Caroline Rall is enjoying a visit from her brother, Charles Rall.

Phi Beta Phi will initiate Miss Stella Jacobs, who was graduated at the home of Miss Luna Graf.

Prof. Biering returned from West Liberty this morning where he was called on professional business.

Theta Lambda Phi is the name of a new organization which has been launched at Dickinson school of law, Carlisle, Pa.

On account of conflict with the rival baseball game coming up, A. Gearhart the lecture by Miss Wood will be held in room 204 instead of the auditorium as previously announced.

The Middletonian elected the following officers for the ensuing term: E. C. Hammond, '92; McDermott M. M. '94, Vice Pres.; Mrs. C. N. Wood, '93; M. M. '94. Sec.; Sheehan, M. '93, Treas.; Braden and Augus, Sergeant-at-arms.

TWENTY-FIVE HUNDRED IS THE AMOUNT

SUBSCRIPTION GROWS STEADILY AND WELL

Two Days Remaining and Two Thousand Dollars to Be Subscribed—No One Should Be Overlooked

A list came in this morning which has been in the solicitors hands since the twelfth of Feb ruary, which had twelve given names on it and not a dollar subscribed. This kind of work will certainly beat us. This however is the only case of its kind and is mentioned merely because the exceptions prove the rule that all are doing all they can.

Two hundred and thirty-two dollars were added to the debt subscription yesterday. The total now is twenty-seven hundred dollars and twenty-five cents.

These men were out yesterday for baseball practice under "Pike" Storey and Jack Lindsay. The track team will also be ready to commence outdoor training next week with good prospects. If what these teams will be able to do, whether we will have spring athletics or not depends on these teams. These teams will have good prospects.

The grade of the situation cannot be too strongly impressed upon everyone.

Senior and junior particularly are urged to make every effort to see every member of their respective classes who is on their list and urge him to subscribe and to do as much as they can in the cause of education. A subscription next month will not help us, it must be now.

A subscription list is being passed among some of the students and with the subscriptions of those who have not given in the university, Professor W. J. Jenkins has added to that announced yesterday.

Previous acknowledgments.

The fees for these purposes aggregate about $45,000 annually. The need of more money is the cause of this action.
Success or Failure

Two men go to college. One affiliates with no organizations, confines himself to his rooms, takes no part in activities, attends classes for four years, comes up for a degree, graduates and goes home. If you would meet him a little while later you would never know he had had the advantage of a college education.

The other becomes acquainted with his fellow students, joins student societies after due care and is ready to co-operate in all worthy enterprises. He too gets a diploma and leaves the old campus, but if you see him for the first time in his old age you will recognize him as a college man. He has caught the spirit of the campus. The broad, democratic, feeling of the college man is his. He has breathed the air of culture and kindliness which is more to be desired than mere learning.

The one made a success of his college course, the other in most cases a failure.

The Louisiana Purchase Exposition has invited invitations to the press of the county to attend the dedication ceremonies on April 30, and May 1st. The invitations are signed by David R. Francis, president and Thos. H. Carter, president of the exposition commission.

The days remaining for the athletic subscription are few and short. We shall soon know whether we can say that the athletic union is out of debt and has paid dollar for dollar. Have you given all you can?

Every dollar for the athletic debt is a dollar for the university. Iowa expects every solicitor to do his duty.
