TWENTY-FIVE HUNDRED IS THE AMOUNT

SUBSCRIPTION GROWS STEADILY AND WELL

Two Days Remaining and Two Thousand Dollars to be Subscribed—No One Should be Over-looked

A list came in this morning which has been in the solicitors hands since the twelfth of February, which had twelve good names on it and not a dollar subscribed. This kind of work will certainly beat us. This however is the only case of its kind and is mentioned merely because the exceptions proves the rule that all are doing all they can.

Two hundred and thirty-two dollars were added to the debt subscription yesterday. The total now is twenty-seven hundred dollars and twenty-five cents.

Thirty men were out yesterday for baseball practice under "Pink" Storey and Jack Lindsay. The track team will also be ready to commence outdoor training next week with good prospects for what these teams will be able to do. Whether we will have spring athletics or not depends on the work of the next few days. The gravity of the situation cannot be too strongly impressed upon every one.

Solicitors in particular are urged to make every effort to see every member of their respective classes who is on their list and urge him to subscribe and to do so at once. Delay is as harmful as refusal. A subscription next month will not help us, it must be now.

A subscription list is being passed among some of the alumni and with the subscriptions of those who have not given in the university a good sum should be added to that announced today.

DEMAND FOR TEACHERS

Department of Education Unable to Fill Places—Increased Wages for Iowa Teachers

Iowa is making great progress in an educational way, especially in the elementary and secondary school systems. In the western part of the state the salaries in three rural districts have been raised either five or ten dollars in nearly every district.

The public school systems throughout the state have felt the crying need of larger forces to meet the requirements of the advance in methods and the greater range of subjects taught; and increasing their staff yearly, more than any increase in population has demanded. Those who wish to enter this profession, so important in the character building of our future citizens, will find a broader field here in Iowa than any year before. This is a very gratifying outlook for the seniors who expect to join the vast army of educators next September. May they all contribute to the further progress of our educational world, as they must if they be true exponents of their Alma Mater.

The department of education has already received more applications for teachers than this institution can supply. But it must always be borne in mind we have excellent sister institutions supplying the same demand.

Women's Edition. \$15 worth of news for 15 cents.

At Cornell at the close of the present year, a number of the members of the faculty will be retired on pensions as the reward of long service to the university.

Professor J. W. Jerks of Cornell left last night for Mexico City, where he will sit as a member of the commission which is now assembling at the request of the Mexican government to advise as to the best means to put that country on a gold standard.

Northwestern University has a new professional school building, situated in the heart of the business district of Chicago. It furnishes ample quarters for the law school, the dental school, and the school of pharmacy.

Women students of Northwestern belonging to the senior class in the college of liberal arts will write the class poem and song for the class-day exercises in June, which will take place three days before the commencement proper. Miss Lucretia Kays and Miss Rogerta Dickinson were chosen as the class poets.

The Purdue faculty has suspended for one year four sophomores who arranged a banquet on the night of March 11. It seems that a riot occurred between the freshmen and sophomores, severely damaging the banquet hall. The riot cost the freshmen \$155 in fines in the city court and \$139.10 for repairing the hall.

CUT COLLEGE COURSE

Conference Called for Discussion of Advisability of Shortening College Course

The calling of a conference in Chicago of the university and college presidents of the country for a discussion of the advisability of shortening the college course to three, or even two years, for those who supplement it by a professional course, presages an important epoch in American methods.

Such a gathering of distinguished educators will be held May 8 and 9, 400 invitations having been sent out yesterday by the Northwestern University, under whose auspices the conference will be held. The invitations are to the heads of the institutions themselves, with the request that either they or some representative men of the faculty be present.

MEANS NEW SYSTEM

Educators see in this conference together with a recent adoption of a three year course at Harvard, what may mean a breaking away from the traditions of years in American colleges and the adoption of a system similar to that of German universities, where a two-year course in the gymnasium has been sufficient preparation for the professional schools. While no action is intended, further than a general discussion, and it is not intended even that resolutions shall be adopted, it is probable that the influence of the conference will be far-reaching in its effect.

"The shortening of the course in the universities is likely to go hard with the smaller colleges which have no professional departments," said Professor Holgate, dean of the college of liberal arts of Northwestern, yesterday. "Very many of those taking college courses afterward go into professional schools, and if they can save one year or two years by attending an institution that gives credits from its professional schools they are likely to attend there."

The Women's Edition will be out April 7.

The sophomore divisions of physical training played a close and exciting game of basketball yesterday afternoon, which resulted in a victory for the 3:30 division, the score being 6 to 5.

Next year Kansas University will inaugurate a fee system. The fees to be established are as follows: Matriculation for all students, \$5; arts and engineering, \$10 for residents of the state and \$20 for non-residents; pharmacy, \$30 for residents and \$40 for non-residents; law \$25 for residents and \$35 for non-residents; medicine \$30 for residents and \$40 for non-residents. These fees, it is expected, will aggregate about \$25,000 annually. The need of more money is the cause of this action.

TRACK TEAM WORK

Outdoor Training to begin—Final Cross Country Run April 4th

Candidates for the track team will begin outdoor training at the athletic park Saturday afternoon, March 28th. As the majority of the team have been training faithfully in the armory during the winter, the coaches decided it would be well to give them a week's rest after the indoor meet to prevent any danger of over-training during a protracted season.

Any man who expects to enter any of the athletic games this spring is urgently requested to begin work promptly, so that progress in training may be uniform, and the coaches be enabled to keep tab on the men, and arrange their work more systematically and progressively than they can do when men are entering at different periods. This is especially applicable to men who were obliged to miss the indoor training. By beginning at once, and training faithfully, they can get into form before the close of the season, if not for the Home Meet which will come off Saturday, May 2.

The final cross country run, postponed from last fall, will be held Saturday, April 4th. The freshmen and sophomores, liberal arts, were very close in the race for first place at the last run. There will also be an exciting contest for the final individual prizes, as well as for the freshman scoring the highest number of points during the series.

Just Recognition

The action of the Athletic Union in amending the constitution so as to allow Prof. Wilcox to relieve himself of part of his arduous duties is most thoughtful and commendable. No one has labored more conscientiously or faithfully for the Athletic debt than professor Wilcox. As an officer of the board of athletic control he has done a prodigious amount of work. That these facts should be recognized and acted upon by the Athletic Union is no more than just and proper. It shows, at the same time that the student body is quick to appreciate faithful service. It was so apparent that the president of the board of control was bearing more than his share of the burdens that there was no dissenting voice to the amendment to the constitution which provided that the president of the board of control need not necessarily also perform the duties of president of the eligibility committee.

The enacting of this change in the organization of the board will

allow Prof. Wilcox if he wishes to shift a part of his onerous duties and divide the work of the board of control more equally among its members.

Success or Failure

Two men go to college. One affiliates with no organizations, confines himself to his room, takes no part in activities, attends classes for four years, comes up for a degree, graduates and goes home. If you would meet him a little while later you would never know he had had the advantage of a college education.

The other becomes acquainted with his fellow students, joins student societies after due care and is ready to co-operate in all worthy enterprises. He too gets a diploma and leaves the old campus, but if you see him for the first time in his old age you will recognize him as a college man. He has caught the spirit of the campus. The broad, democratic feeling of the college man is his. He has breathed the air of culture and kindness which is more to be desired than mere learning. The one made a success of his college course, the other in most cases a failure.

The Louisiana Purchase Exposition has issued invitations to the press of the county to attend the dedication ceremonies on April 30, and May 1st. The invitations are signed by David R. Francis, president and Thos. H. Carter president of the exposition commission.

The days remaining for the athletic subscription are few and short. We shall soon know whether we can say that the athletic union is out of debt and has paid dollar for dollar. Have you given all you can?

THE Burlingto Route has just issued two publications of great interest to homeseekers.

"Nebraska" is the title of a 48-page book descriptive of the agricultural resources of the state, profusely illustrated with farm scenes and supplemented with an accurate sectional map.

"Big Horn Basin" is an illustrated folder telling all about the rich but undeveloped portion of Northwestern Wyoming. The Big Horn Basin contains wonderful openings for small ranches along good streams, with a million acres of government land open for settlement under the United States land laws.

Both publications will be sent to any address on receipt of two cents in stamps. Address J. FRANCIS, General Passenger Agent, Burlington Route, Omaha.
