## NEW COURSES

### DEPARTMENTS GROWING

Many of the Departments Will Offer New Courses Next Year—The Departments Rounding Out

The departments in the university are constantly developing and growing and in response to this the faculty are planning and arranging new courses. Among the new courses to be offered next year we find two in the department of mathematics. Dean Weld is to give a new course in the theory of planetary motion and Dr. J. V. Westfall will offer a course in the theory of life insurance. Both of these courses are elective.

In the botanical department the plans are to make field work in botany an especial feature and more stress will be laid upon it than formerly especially in the advanced classes. A better opportunity for regular supplementary work in the laboratories under the direction of Mr. Stever is being planned for those in some of courses.

Three new courses are offered in the political department. Prof. McBride will give for the first time, a one-hour course in plant-pathology. Prof. Shimek will take up botany from the economic standpoint and offer it in a new course. He also gives a two-hour course in plant-physiology.

The beginner in Animal Morphology and Physiology next year has the choice of three introductory courses. Each of two hours, involving four hours of laboratory work per week. These courses run throughout the year and are mutually supplementary, should combinations of them be desired. The second year of work is provided by the courses in microscopical anatomy and embryology. A third year is now offered in cellular biology and comparative neurology. Still more advanced opportunities will be provided by the courses in experimental morphology and invertebrate embryology, and through the work of the morphological seminary.

In English, Prof. Ansley will again next year offer his course in Browning which was omitted this year. He will offer for the first time a course in William Marris and also one in the Theory of Criticism. Mr. Sloan will give courses in Eighteenth and Nineteenth Century Prose. He will take up the Eighteenth Century work during the first semester and the Nineteenth Century during the second. Mr. Hunt will give a Short Story course and Bowman gives one in Poetics.

In the department of Greek, changes will be made on account of the change in the organization of the work.

A chair of Classical Art and Archaeology has been established under the charge of Professor Fairbanks, and under this head are grouped the courses in Greek and Roman Private Life, Art, Antiquities, Mythology, History and

Topograph. Next year will be offered the course in Roman Private Life which will be open to all students who have had the introductory course in Roman history, a course in Greek and Roman Mythology, and a course in the Topograph and Monuments of Athens.

The school of political and social science has a number of new courses. They are along the line of the practical, it being the tendency in the development of this work in the universities in general, to tend towards the practical.

Prof Loos will offer a course for advanced and professional students which will take a general survey of economic science. He will also give a new course in Commercial Law open to those taking the combined course of Collegiate and Law.

Dr. Shaffner will give a course in Sociology dealing especially with the labor problem.

Mr. Conner will give new courses in Commercial Law and a course in Economic Geography will also be given. Connected with this department is Dr. Westfall's course in, "The Mathematical Theory of Insurance."

## VARSITY MAKES ERRORS

ROCK ISLAND 12, IOWA 8

Fourth Game of Rock Island Series Played on Iowa Field Yesterday

The Rock Islanders defeated the varsity nine yesterday. Rock Island hit the ball well, while the Iowa infield made numerous errors.

White in center played a fine game, fielding his position widely and batting very well. His excellent work foreshadowed him a place in the outfield on the nine, together with Burns and Coad. He however will not play baseball but will continue his track work.

The score by innings: R H E  
Iowa 0 0 0 0 1 5 0 0 6 8 8  
Rock 6 1 0 0 2 0 2 1 0 12 10 3  
Island

Batteries—Rock Island, Clark, Cadwallader and Schmidt; Iowa, Lindsay, Jones and Montgomery.

### ELIGIBILITY COMMITTEE

All candidates for the university baseball team will report at Professor Nutting's office, in the science building, on Saturday, April 25th, between 10 to 12 a. m.

new, something different from anything that has been tried, so that our team will be as much of a puzzle as ever to the opposing team. Yost has an idea, anyway, that any system is good, and it doesn't make so much difference what play is used, just so it is gotten off so quickly that the opposing team does not have time to get itself together.

"The Iowa eleven was in excellent physical condition when it played Michigan," said Mr. Sweely. "They were hard fellows and we couldn't hurt them, but they didn't know anything about the game. They tried the same old plays that beat us two years before. We had learned our lesson pat and were not to be captured twice by the same thing."

"Michigan scheduled soon after the close of last year's football season a game with Minnesota, for October 31. This is the reason she was unable to accept Iowa's offer of a game on Iowa field October 24. Had the game come farther away from October 31 it will have been acceptable."

## FRESH-SOPH MEET

Annual Lower Class Field Meet to take Place Saturday

The annual freshman-sophomore meet will take place Saturday. From all indications it looks as though the events would be close, with, however, a margin on the side of the second year men. The sophomores have been working and looking forward to the meet with the freshman for some time. They have gone at it with a will, with the result that they have a man to enter in every event. The freshmen in former years have almost always won this meet, but it looks as though the sophs would carry off the palm this time. "If the sophomores win," said one of the coaches last night, it won't be because they are any stronger athletes naturally, but because they have worked harder and have shown more spirit and enthusiasm."

For the freshmen, Crossan will enter in the sprints with Kely, Tupper and Berkheimer in the distance runs. Perrine and Tupper will be their weight men while Weinrick will do the high jump and polevault.

For the sophomores, Barker and Ross will broad jump, Scarr will do the sprints, while Barker and Miller will hurdle. Donovan and Berry will throw the weights and Drake, Gordon, Shaw, Whitacre and Phelps have entered the distance runs.

Mr. Herbert C. Dorcas, B. Ph. '95 will resume his position as instructor in Education and University Examiner in September. Mr. Dorcas will receive the degree of Master of Arts from Columbia University in June. He expects to continue his studies for the degree of Doctor of Philosophy in the department of education at Iowa.

# JUNIOR PROM TO-NIGHT

## Changes in Medical Faculty

In the department of chemistry and toxicology, of the college of medicine, Professor Rockwood will enjoy a year of absence. This he will spend in research in special lines of physiological chemistry. Charles W. Johnson, recently instructor, now pursuing advanced study in the University of Michigan, has accepted an appointment as assistant professor in charge of physiological chemistry. Associate Professor J. G. Goodwin of Simpson College has been appointed Fellow in chemistry.

## New Law Frat

The Sigma Nu Phi, the new Greek letter law fraternity, has granted a charter to the University of Indiana and has received an acceptance of honorary membership from President Roosevelt. Applications for charters are under consideration from the Universities of Michigan, Texas, and Kansas, the Leland Stanford University of California, Wesleyan of Ohio and Tulane of New Orleans.

to sign declaration of eligibility and qualify for the team.

### SWEELY FOR ASSISTANT

The board of athletic control is considering the appointment of assistant football coaches, says the Iowa City correspondent of the Des Moines Capital, in the following article:

Evert M. Sweeley, Michigan's punter on her two past championship teams, is visiting at the University of Iowa today. Mr. Sweeley is a candidate for the position of assistant coach of the Iowa football eleven. He called upon all the members of the board of athletic control today and was well received by all of the athletic authorities.

It is probable that Clyde Williams will be elected first assistant coach of the football team, whether an eastern coach or an alumnus coach is secured. It is quite probable that the board of athletic control may engage Sweeley as assistant coach and put him in charge of the freshman eleven.

"Coach Yost is going to change the entire system at Michigan next year," said Mr. Sweeley. "He is going to put in something

Know People Well

The value of good friends and acquaintances cannot be overestimated. They bring to us the real joy and pleasure of living and besides are no small element in ones success in the world. A man of many friends is a fortunate one, for a host of the right kind of acquaintances are a great help when it comes to mixing in the world of affairs.

When can we find a better opportunity for making some of these friends than during a university course. This is a peculiar advantage that comes with a university training and it is by no means the least of the advantages. When you see a man losing an opportunity to meet and get acquainted with the right kind of people, you see him making a mistake. The wise old adage goes, "We are a part of all those whom we meet" is too true. We

are polished by contact with others. Their characters are reflected in us in one way or another and we can't help it. Every man's influence is felt.

In a university course we find such an excellent opportunity of meeting others. We have an excellent opportunity of studying human nature and of making valuable acquaintances. A man in the world must know how to meet people if he wants to be successful. A man who is a recluse or a stay-at-home book-worm cannot know how to do this. It is only too often that a man with fair abilities fails in getting a desired position for the lack of recommendations or a friendly word spoken here and there for him.

The fact of the matter is we should mix. We should become acquainted. We should get out and meet students and faculty members.

There is a large number of students on the verge of leaving the university, not to come back. How many are leaving a place behind them unfilled and how many of them will never be missed. The last weeks of school furnish still an excellent chance to make up your standing in this acquaintance world if it has been neglected. Attend the receptions, know the president and the deans well before you go. Get well acquainted with the professors and instructors. Besides being a pleasure and a benefit to you, now, it will prove of inestimable value in after years. Know people, and know them well. Don't miss one of the best parts of your course.

**At Other Colleges**

Twenty-University of Wisconsin men at the Massachusetts Institute of Technology have organized a club for the mutual benefit of the men coming from the Badger state by bringing them together in a social way.

The Princeton University catalogue shows a total of 1,382 students this year against 1,354 last year. The number of professors and instructors has increased from 101 to 108. The combined Princeton libraries contain 256,000 volumes, 14,000 having been added during the year.

Pres. Woodrow Wilson, of Princeton is at work developing a plan of his own which will be an innovation in American universities. He intends to introduce the tutorial system into Princeton, such as is used at Oxford, by which tutors are available for every student in his individual preparation for class room work. It will require twelve and a half million dollars to carry out this project effectively, but President Wilson is sure of raising that amount.

**Your Spring Shirts**

If newness and freshness and variety of patterns count in shirts, than those we are now showing beat anything you have ever seen. Plain white, stripes or figures

**Two Books--  
Two Cents**

THE Burlington Route has just issued two publications of great interest to homeseekers.

"Nebraska" is the title of a 48-page book descriptive of the agricultural resources of the state, profusely illustrated with farm scenes and supplemented with an accurate sectional map.

"Big Horn Basin" is an illustrated folder telling all about the rich but undeveloped portion of Northwestern Wyoming. The Big Horn Basin contains wonderful openings for small ranches along good streams, with a million acres of government land open for settlement under the United States land laws.

Both publications will be sent to any address on receipt of two cents in stamps. Address J. FRANCIS, General Passenger Agent, Burlington Route, Omaha.

**The Cabaret**

THE right place. Marvelously home-like, and cheerfully sams choc. A happy chance for homeless boys and girls wishing to entertain "the highest." Sumptuous table equipment. Private dining rooms for dance parties, oyster parties, luncheons, etc. Board by the week \$3 net and \$4.50 nes.

Under Burkley Imperial Management.

**For Chapped Lips**

The old Quaker said, "Thee must keep the chaps off" and you can cure them by the use of our unrivaled Cocoa Butter, or our Benzoin and Almond Cream it is soothing and softening, allays all irritation, burning and roughness of the skin. : : : :

All those who sold baseball tickets are requested to report to general manager McClain by tomorrow (Saturday) night.

IOWAN BOARD

The regular meeting of the IOWAN Board will be held in the usual room at 1 p. m. Saturday.

TENNIS NOTICE

All persons intending to play tennis this spring upon the university courts should get tickets at once. Tickets may be had from E. Bailey D. 4. or A. G. Smith at room 12, L. A. The ground fee is \$1.25.

Dr. Frank E. Horack will give a lecture on "The Organization and Control of Industrial Corporations" under the auspices of the school of political and social science, April 27, at 7:00 p. m. in room 213.

University warrants will be issued by the Secretary on Thursday, April 30.

Tickets for the Junior Prom Friday, April 24 will be \$3.00 the gallery will be 25c.

THE LOWDEN PRIZE

An examination for the Lowden Mathematical prize will be held on Saturday, May 30th, 1903, from 9:00 to 12:00 a. m., in room 116, hall of Liberal arts.

Competition is open to all students who are finishing with the current year, the sophomore work in pure mathematics. The prize of fifty dollars (\$50.00) may be divided equally between not more than two candidates, or may be withheld if it shall appear that the work of no candidate is of a superior order of merit. The subjects to be covered by the examination are Algebra, Geometry, Plane Trigonometry, Analytical Geometry of two dimensions, Differential and Integral Calculus.

The members of the committee charged with the award are Professors Weld, Veblen and Sims, ex officio, Mr. Lorenz and Mr. Mitchell. The questions submitted in previous examinations will be found upon the bulletin board in the mathematical library.

Those intending to compete are requested to submit their names to Professor Weld at an early date.  
George E. MacLean, President.

THE CAPITAL CITY COMMERCIAL COLLEGE

*Y. M. C. A. Building, Des Moines, Iowa*  
IS the largest and most successful commercial school in the west. Nearly one thousand students attend it each year. There are sixteen members in the faculty. The school has a national reputation and is everywhere regarded as a leader among business training schools. It occupies a position among institutions of this character similar to that of Princeton, Harvard and Yale among the leading colleges and universities. It has become famous throughout the western states by reason of the thorough work it is doing in the way of fitting young men and women for active commercial pursuits. Hundreds of our graduates are today occupying responsible positions in the principal cities and towns of the west. Call for our elegant new catalogue. It contains detailed information relative to the work of the various departments. Address, *W. H. McCauler, Pres., Des Moines, Ia.*
