SECOND GAME SATURDAY

AMES GAME COUNTS FOR SILVER BAT

Brown, Ames' Twirler, Has a Grand Reputation—Dual Meet Gossip

Iowa's second game in the contest for the silver bat will be played with Ames on Iowa field, Saturday morning at 10 o'clock. Brown, Ames' twirler, has a reputation for pitching which extends beyond the college world and a close game is expected. Vos will pitch for Iowa.

THE DUAL MEET

The dual meet with Grinnell will be held on Iowa field Saturday afternoon.

The Grinnell Scarlet and Black says of the meet:

Next Saturday afternoon, Grinnell will meet the University on Iowa Field in a dual track meet. A fast contest is expected. Little is known of the real merits of the university team except that the trainer and men have been "sawing wood" and saying nothing. From all that can be learned, it is thought that Grinnell has a fighting chance to win the meet next Saturday, though rumors of dark horses on the Iowa City team may be well founded and surprises will no doubt be plentiful.

In the dashes, Scarr, McCoy and Anderson are good men and if White runs he will certainly be a point winner. In the distances, little is known of the Iowa runners as no records have been given out and the home meet last Saturday was stopped by rain before the two mile was run off.

The weights and pole vault must be conceded to the Iowa team, though if the hammer throw record of 95 feet, given out at the home meet, is correct, Grinnell may win a place in that event. Weinrich, the Burlington high school pole vaulter, is said to be doing eleven feet. In the broad jump, Ross should win, as he has a record of 22 feet, 3 in. and is said to be jumping 22 feet this year. Barker has done five feet, 9 inches in the high jump and should win that event. In the hurdles, Anderson should win both, with Bair second, and third a possibility for either school.

Elect Officers

The annual election of officers of Phi Delta Phi was held last evening and resulted in the choice of Guy P. Linville, consul; Merritt Brackett, pro-consul; Charles E. Stuart, sceptor; W. Karl Herrick, historian; and F. J. Cole, tribune.

Philo baseball tossers are doing battle this afternoon on the diamond against the Hammond aggregation. The game is the fifth in the inter-society series and will practically determine who will be able to hold down last place.

S. H. Clegg, L. '03, will deliver the Decoration day oration at Ainsworth, Iowa.

FREW NOT CONSIDERED

Rumor that Dr. Jas. W. Frew had Received Offer from Iowa Without Foundation

Dr. James W. Frew, athletic director of the Milwaukee Athletic club, was the subject of a "special" from Milwaukee published in Iowa newspapers this morning. The news purported to be to the effect that he had received an offer from Iowa to accept the physical directorship and that he was inclined to accept the position.

NOTHING IN STORY

It is stated at the university that no offer of any kind has been made to Dr. Frew in connection with the physical directorship. Furthermore, he is not being considered for the position.

RECEPTION COMMITTEE

Prominent Persons will Assist in Receiving at Military Ball

The reception at the Military Ball will be held at nine o'clock, dancing will commence at nine-thirty.

It is announced by the management committee that there will in all probability, be no grand march. The grand march specially written for the occasion is a waltz and will constitute the first dance.

The reception committee as announced is Governor and Mrs. A. B. Cummins, President and Mrs. G. E. MacLean, the Governor's Staff, Dean and Mrs. A. N. Currier, Judge and Mrs. Emlin McClain, Dean C. N. Gregory, and Miss Gregory, Dean Alice Young, Congressman and Mrs. Wade, Senator and Mrs. Geo. W. Ball, Representative and Mrs. George W. Koontz, Captain and Mrs. R. P. Howell, Colonel and Mrs. George R. Burnett.

Gets Gasoline Engine

The department of engineering will soon be richer by one 10-horse power gasoline engine. The Mason Gasoline Engine Co., which is now extensively engaged in the manufacture of automobiles, has signified its intention of presenting the department of engineering with one of its highest class automobile gasoline engines. This engine is much lighter in construction than the ordinary type. It will be a valuable addition to the apparatus equipment of the machine shop.

Hammond Debaters

A. A. Brown, J. F. Kirby and C. R. Cross were chosen at a special meeting of Hammond Law Senate held last evening, as representatives of the society in the Northwestern preliminary debate.

The debate with Northwestern Law College has been set for March 1904 and the preliminary debate will be held in December.

Charlotte Koop, L. A. ex. '03, is a delegate to the P. E. O. convention in this city.

THE CITY BEAUTIFUL

PROF. MACBRIDE SPEAKS TO DELEGATES

P.E.O.'s Listen to Pleasing Address by Prof. Macbride—Cleanliness the First Thing to be Obtained

Last evening in the hall of liberal arts, Prof. Macbride delivered a very interesting lecture to a fair sized audience, composed for the most part of the visiting delegations of the P. E. O. convention now in session. Mr. A. E. Swisher of this city introduced the speaker and at the conclusion of the lecture Prof. Van Steenderen executed a beautiful and difficult violin solo, accompanied by Miss Chase.

Prof. Macbride took as his subject, "The City Beautiful" and in his pleasing manner presented to his hearers his idea of what the ideal city will be in the future, as regarded from the standpoint of beauty and art. The speaker showed himself to be a true lover of nature and perfectly sincere in his conception of what the ideal "City Beautiful" should be. During the course of the lecture a number of stereopticon views were thrown upon the screen, illustrative of many forms of architectural and natural beauty.

Prof. Macbride said in part: "Beauty of structure in the future as in the past will be due to art. Say what we will of rural beauty, the drift of man is to the city. In all generations we have been trained to seek the city. The trend of enlightened men to habitation in the city is inevitable. Beauty sought the city. The most glorious ancient city is not the ideal of our modern city.

"Our city beautiful shall not lack art, but it will not be confined to marble. The art that shall make beautiful the city ideal shall supplement science. This city will be a clean city. Filth is so well nigh universal and we have gotten so used to it that to talk of cleanliness, brings a smile. The mud nuisance can be abated and the smoke nuisance must be. The cleanliness of our town must involve the homes of our people.

"The ideal city must be artistic. Two factors will be dominant in its attainment; first a plan, and then color. From an artistic point of view the only city in the United States which has been properly planned is the city of Washington. A badly planned town can never become beautiful. The city beautiful will have parks, natural ones and broad avenues.

"It will be a beautiful city in fact and a happy one. A decent home and decent surroundings for every honest and industrious family. Whitewash and geraniums would transform the factory world."

Burnham A. Moffatt, C. E., '05 has accepted a position in the draughting room of the Des Moines street railway company.

What is Success?

When so many are discussing whether a college education is an aid to success or not it might not be unprofitable to consider for a moment what success really is. Is it the amassing of a great sum of money? Is it the attaining to political honors? Is that life successful which brings pleasure? Perhaps the last is more nearly success than either of the preceding. It is as old as the bible that neither riches nor power in themselves constitute success. What right then has anyone to set up a standard of money by which to judge of the benefits of a college education? That it stands such a test without losing shows the breadth and strength

of our collegiate system, for the obtaining of money is only one of its incidental objects. Success might be said to consist in doing something worth while and doing it well. The greater the thing done and the more perfection in its execution, the greater the success of the doer. To such success, a college education is the best preparation and most efficient aid.

Needs Financial Support

From the colleges comes the news that May festival's of music are being held at Yale, Illinois, California, Drake University, Cornell College, and Grinnell. The program which will be given at the armory Saturday is the peer of that of any of these institutions. Let Iowans show they appreciate their opportunities in the line of music and turn out en masse to the festival. Like all other things the festival needs financial support and if a failure from this standpoint, will have to be abandoned in future. While the selection of date is unfortunate, with the military ball the evening before and track meet and baseball game the same day, yet it is to be hoped the armory can be packed for both afternoon and evening concerts.

Grinnell's track team has in the past always been an opponent worthy of our best. In contesting with the wearers of the maltese cross, Iowa is assured of meeting a "game" team and one composed of thorough sportsmen.

While speaking of the needs of the university, a conservatory of music such as is maintained at the University of Michigan, Minnesota and others is greatly needed, if demand among the students is any criterion.

CAPITAL CITY
 COMMERCIAL COLLEGE
 M. C. A. Building, Des Moines, Iowa

IS the largest and most successful commercial school in the west. Nearly one thousand students attend it each year. There are sixteen members in the faculty. The school has a national reputation and is everywhere regarded as a leader among business training schools. It occupies a position among institutions of this character similar to that of Princeton, Harvard and Yale among the leading colleges and universities. It has become famous throughout the western states by reason of the thorough work it is doing in the way of fitting young men and women for active commercial pursuits. Hundreds of our graduates are today occupying responsible positions in the principal cities and towns of the west. Call for our elegant new catalogue. It contains detailed information relative to the work of the various departments. Address, W. H. McCauler, Pres., Des Moines, Ia.

All students in the college of liberal arts who find it necessary or desirable to shorten the time for completing their course in the interest of an entrance upon professional courses, or for other reasons, or who must do extra work to graduate with their class, are advised and strongly urged to take advantage of the summer session for this purpose. There is reason to believe that the faculty will in the future, more narrowly restrict the allowance of extra hours, especially in view of the opportunities offered by the summer session.
