The team as a whole played well, and showed clearly the effect of the work at Camp. Little by little, everyone on the team determined to win, and did not give up until the last whistle was blown.

**LAST NIGHT’S PRACTICE**

The squad turned out hastening over forty strong and went through a long practice of signals after which two teams lined up for a scrimmage. All of the men seemed to be in good condition, and none of the players was silly on Saturday. The practice was not very satisfactory, as the men were slow at starting and did not seem to play together as they should.

White, who has been playing half back, is a good leader, but did not seem to be able to make the team work as fast as Griffin does. Herbert, a new man on the squad, was tried at full, and looks as if he would make a good man, when he learns the position. Several new men were tried at line positions, but none of them did anything out of the ordinary. The practice will have to be played up, if the team expects to do anything against stronger foes.

**HONOR FOR IOWA**

**IN THE POLITICAL FIELD**

THIS WEEK

Republicans Nominate Two

S. U. I. People for the Senate

The Johnson County Republican convention Saturday placed the names of two University people upon their ticket. They are E. K. Brown, '97, and L. O. 'Miss Emily D. Davis' New Grade, which has been played in a steady downpour of rain, before a half-hearted faithful rooter. The score does not show the comparative strength of the two teams, but the rain caused frequent fumbles, prevented Iowans from running up a large score.

The game was played almost entirely in Cornell's territory, and at no time did Cornell have any chance to score. Iowa played a good game and was not lost on fumbles. Six times Iowa was within fifteen yards of Cornell's goal line. In the first half neither side scored, but in the second Davis a new man at half back, carried the ball over the line, and Jones kicked goal, making a score of 6 to 0 for Iowa.

Few end plays were tried, and the game consisted almost entirely of line plunging. Gibbons, Iowa's fullback proved a wonder at this style of play, and frequently went through the line for fifteen yards. The lineup was as follows:

**IOWA:**

- Conv. Cornwell
- Johnson: C. N. Smith
- Donovan: ST. Carleton
- McGowan: Tom Nelson
- R. F. Buckley
- Wallis: A. G. Owen
- Counihan: Le Van Burbank
- Griffith: O. A. Mathews
- journalist: B. E. Boyd
- White: H. Moore
- Gibson: C. H. Hume
- References—William, umlund—Smith, time of halves, 15 minutes.

**SCRAP A DRAW**

**EVEN HONORS IN FRESH-SOPH MIXUP**

Time Called on the Annual Flight of the Babies and Sophs

Yesterday noon when the freshmen came from their classes they were met by cries of "Here comes the Babies" and "Why don't you take it down?" Then it was a lively battle with rubber attachments bearing the numerals 07 suspended by a heavy wire cable over central campus. The dazed look on the faces of the men of '07 grew. They were about to flee and each one sighed for home.

Whoever a leader in the arrest of Patty Felix, Fuller a citizen of Iowa City, who had watched such battles in the past and knew what to do. The dreams of his youth were fulfilled and breathing his slogan of "Freshies, Freshies this way," he gathered about him a few of the bravest and dared the class.

Suddenly they captured Moore, president of the Sophs and gave him the water Cure at the pump. Wehrle and Edie Jones received the same cure in a geometrical ratio. The Freshies captured several others, tied them in the armory.

Then began the fight for the bottle. The Sophs had the vantage of position and organization, but the babies bravely fought for three hours, when President MacLean seeing that there was no prospects of either party gaining a victory, called the roll and cleared the armory.

The Freshies withdrew, and the Sophs hauled down the offending banner.

**OFFICIAL BULLETINS**

The first of the regular University Assemblies, held on Wednesday at 9:50 to 10:15 will occur in the general lecture room of the hall of liberal arts. Every member of the universit is invited to attend.

**SCRAP A DRAW**

INSTRUCTORS

NEW ADDITIONS TO THE INSTRUCTIONAL STAFF

New Professors Are Men of Reputation, Ability and Great Promise

This year a number of new instructors have been added to the faculty. Part are filling vacancies made by the resignations of those who have gone into other fields. To the law faculty has been added Judge McPherson, a graduate of the university in the early days of the college. After graduating, he located at Red Oak, Iowa and has made his home in that city since that date. He has held the position of district attorney for the county and has been very successful in his work.

In 1898 he was elected to Congress to succeed A. L. Hager in the ninth district. In 1900 Judge McPherson was appointed judge of the United States district court of the southern district of Iowa. He now holds this position and is considered to be one of the strongest men on the bench.

The appointment of Judge McPherson will be well received by the students of the college of law and by those interested in the university. He will add dignity and ability to the instruction department of the college and will no doubt give some of the best courses of lectures in the department.

The work of Professor Richardson this year is in the hands of Professor Barry Gilbert, who received his A.B. degree from Northwestern in 1898, and his law degree from the same school in 1901. At the end of his academic course he won the Phi Beta Kappa scholarship. While in school he was identified with all student activities, athletic, literary and social. He was editor of the "Northwestern," and represented the university in the U. S. L. contest held at Oberlin in 1899. After leaving school he became associated with the firm of Grimm, Trewin, and McPherson in the Cedar Rapids Business College. Mrs. Gilbert is both a member of Beta Theta Pi. He has been a lecturer on commercial and elementary law in the Cedar Rapids Business College.

Professor Lawrence M. Byers, who has charge of the work in practice and pleading in the law college, was born in Switzerland. His first school training was in the Berne Schools at Zurich. Later he went to Ithaca and spent a year in a private school at Rome. Then in 1896 he entered the University of Chicago, where he received his degree of A. B. in 1899. On account of his excellent work, he unexpectedly received a fellowship at Harvard College Philadelphia. He chose as his special line of work astronomy, and received his A. M. degree in 1901. After this he went abroad and studied law two semesters at the University of Zurich. He then entered Yale Law School and in 1891 received his law degree, graduating cum laude. He was a member of Phi Delta Eta, and played on the freshman football team. On account of being a graduate student, the new eligibility rules then just going into effect barred him from the varsity. He was captain of the Penn College team during the fall of 1901, and made a strong team of them. Locating in Des Moines, he practiced law for several years, and for the past two years has been Professor of Law at Drake University. Here he teaches Criminal Law, Remedies, Torts and Code Procedure. Last year he also lectured at the Highland Park Law School.

A strong addition to the liberal arts college is Professor Frank A. Wilder, who will be assistant to Judge Oberlin in the department of Geology and will have charge of the department of practical mining in the school of applied science.

Professor Wilder has had exceptional training for this line of work in the university. He is a graduate of the Oberlin university in the class of '02 and had a boatt graduate course at Yale University during the summer of 1901. While in Germany he made a special study of the gypsum industry, and Volume XI of the Iowa Geological Survey contains the results of his work. A special study of being made to the gypsum mills of Iowa located at Fort Dodge. During the year '01 and '02 he attended the University of Chicago and received his doctor's degree from that institution in the following spring. During the past year he has been connected with the university of North Dakota at the head of the department of geology and has held the position of state geologist. Professor Wilder has worked for the United States geological survey in the states of Montana and North Dakota.

Roy T. Wells, the new professor of electrical engineering in the School of Applied Sciences comes to us with highest degrees from eastern colleges. In 1890, he received his degree of B. A. and M. S. in electrical engineering at Tufts College. Later he became familiar with the principles of the electrical engineering industry from which he received the degree of Ph. D. last June. Prof. Wells and Professor Hooper Ph. D. of Tufts College have lately published a volume entitled "Electrical Problems."

Henry K. Mortons has the best gym shoes in the city.
You Are Invited
