No. 37

## OFF FOR MISSOURI

### VARSITY LEFT TODAY FOR COLUMBIA

Seventeen Players Constitute the Squad—Not in Best of Condition

The football squad left for Columbia, Mo., at 4:53 this afternoon.

The following players were taken: Capt. Coulthard, Roy Buckley, Donovan, Johnston, Atkinson, Magowan, Watters, Griffith, Allen, Jones, Fred Buckley, Moore, Schwinn, Melzner, Knapp, Durkee, and Gibbs.

#### LONG WAY TO COLUMBIA

The team left over the Rock Island road. At Grinnell they will change to the Iowa Central. Another change is made to the Wabash, and at Centralia, another switch to the Wabash stub line to Columbia will be made. The team will arrive in Columbia at ten o'clock Friday morning.

The team travels in a private car, which will be side-tracked at Columbia to await their return Saturday night.

The varsity will have a light practice at Columbia Friday afternoon and will play Missouri Saturday.

#### NOT IN BEST SHAPE

The team is not in the best of shape. It is hopeful that the varsity will be able to win from Missouri, but a large score is not expected.

A number of the regular players are suffering from accidents received in the hard practice held this week. It is possible that several of the regulars will not play out the game, being saved up for the Illinois game on Iowa field a week from Saturday.

#### INDIFFERENT PRACTICE

An indifferent practice was held on Iowa field last night. The practices Monday and Tuesday nights were excellent and it was hoped that the team would continue its fine work for three nights in succession. But these hopes were not fulfilled by last night's work. Many of the men were careless, and erratic work was the rule.

#### Memorial Gymnasium

A memorial gymnasium will be erected at Purdue in honor of her dead football men, who were killed at Indianapolis. The Lafayette Journal is pushing the enterprise, and alumni and others are subscribing freely.

'02, D.—Dr. Hopkins of St. Louis is in the city the guest of her friend, Dr. Clark-Mighell.

The members of the Alpha Beta chapter of the Beta Theta Pi fraternity have issued invitations to the members of their alumni for the evening of November the twentieth. The entertainment will be at Phoenix hall.

## WILL DISCUSS MISSIONS

### Joint Meeting of Y. M. and Y. W. C. A. Monthly

The joint committees of the Y. M. and Y. W. C. A. have arranged for a series of monthly missionary meetings for the year of 1903-4. The first will be held next Sunday, at which time the work of the Y. M. C. A. in foreign countries will be considered. The remainder of the meetings, for which definite dates have not been set, follow: December, "Evangelization of the World in this Generation;" January, "Great Revivals of Japan;" February, "Claims of Missions upon Christian Students;" March, "China, Past, Present, and Future;" April, "Crisis Among Students of India;" May, "The United States Should be Responsible for Christianizing the Philippines and West Indies."

#### Critics of Ancient Football

Last fall Professor W. S. Phelps of Yale made a special study of ancient football in order to locate the first protest against the "brutality" of the game, and in an article in the Independent, later, he gave the results of this investigation. He found that football was practised in England in the fourteenth century, and even then it had enemies who cried out about its roughness. It was in 1424 that the order went out: "The King forbides that na man play at the fut ball under the payne of iidd." The most remarkable criticism of the game Professor Phelps found in the "Anatomie of Abuses" (1583) by Philip Stubbs, a Puritan of the Puritans.

The writer in this criticism denounced football playing as "A bloody and murdering practise, than a felowly spor te or pastime." He went on to give an enumeration of the brutalities of the game and ended by saying, "And hereof groweth enuie, malice, rancour, cholor, hatred, displeasure, enemitie and what not els; and sometimes fighting, brawling, contention, quarrel picking, murder, homicide, and great effusion of blood, as experience dayly teacheth."—Yale Alumni Weekly.

Sigma Nus will give a party tomorrow evening.

Clyde Williams will be one of the officials at the Minnesota-Illinois game next Saturday.

Judge Emlin McClain of this city now has the rules recently adopted by the supreme court of the state in his hands and will have them published at once.

Iowa State Conference of Charities and Corrections will hold its meeting at Des Moines, November 10, 11, and 12. Judges McClain, Deemer and Kinne will take part in the program.

## EXAMS ARE FETTERS

### SAYS PROF. FOSTER OF UNIVERSITY COLLEGE

Ability to Grasp Great Movements Typical of American Educational System

"Your education like your country is spacious, and free from all restraint," said T. Gregory Foster, professor of English at University College London, in his address at assembly today.

Professor Foster visits the University of Iowa as a member of the Moseley Commission. The fact, that American engineers could solve the problems, in the Kimberly mines, that baffled the English engineers, caused Albert Moseley to wonder if the fault was not in the English system of education. The commission is composed of the leading educators of England and is supported by Moseley, who was an associate of Cecil Rhodes in South Africa. Their first object was to study the American educational system with reference to industrial art alone. It has broadened until it now studies all phases, and the special object of Professor Foster's visit here is to study the English department.

"Our business," said Professor Foster, "is not to criticise American methods, but in the light of what we see here to criticise the English, and to make known in our report the changes we deem good."

One thing that has impressed the commission as being typical of the American institution was their ability to understand and grasp all great movements. "In Boston I found a French class who could not conjugate 'avoir' said Professor Foster, "but which nevertheless understood fully what the French Revolution stood for. In England the class could have conjugated every irregular verb, but would have known only the dates of that great period in French history, —if that much."

"One great fault of the English system," said the speaker, "is that both student and teachers are fettered with examinations. The teachers who give the most examinations are those who are failures as teachers."

#### IN HONOR OF FOSTER

President and Mrs. MacLean will entertain the heads of the departments of languages at a seven o'clock dinner this evening in honor of Professor Foster. On Friday evening they will entertain the Political Science Club, and Professor Foster will read a paper.

President MacLean will address the Loyal Legion at Des Moines Tuesday evening next on the subject "Expansion of the National Ideal."

## ASSEMBLY HALL SMALL

### Prof. Foster Surprised at Size of Assembly Room

In speaking to a reporter today, Professor Foster expressed surprise at the size of our assembly hall. He has been accustomed to speak at other universities, in assembly halls that would hold thousands.

A university as large as Iowa with an assembly hall that would seat only hundreds seemed strange to him.

The Purdue Exponent have issued a special memorial number in honor of the students who lost their lives in the Big Four wreck.

Clyde Williams and "Put" Smith will act as officials at the Drake-Ames football game, to be held at Des Moines Thanksgiving Day.

Drake students will help to serve ox at the army post dedication at Des Moines; and Ames will send two companies of their battalion to take in the maneuvers.

Prof. H. G. Plum of the State University at Iowa City, spent yesterday inspecting some of the departments of the high school. The work in History and German received his special attention.—Sioux City Journal.

Prof. Leona Call leaves tomorrow to attend state meeting of Y. W. C. A. at Ottumwa. Miss Call is a member of the state committee, and will report on the biennial convention of Y.W.C.A. which met at Wilkes Barre last April.

A lecture will be given by Dr. Clarke to the Physical Training classes on Wednesday November 18, at 4:30 p. m. in the Assembly Room, Hall of Liberal Arts. All women connected with the University either as students, members of the faculty, or wives of members of the faculty are cordially invited.

Superintendent G. H. Ellsworth who has charge of the university grounds and buildings, is making some excellent improvements in the appearance of the lot approaching to the new medical building and facing on Iowa avenue. The improvement is a very marked one and will make the lot an excellent addition to the surroundings of the medical building.

The annual competition for the Commandant's Medal for individual marksmanship will take place on the University Range, Thursday November, 24, from 1:30 to 4:30 p. m.

The competition will be open to all cadets who have taken target practice this fall.

Those desiring to take part will report to Major Turner, Assistant Instructor of Target practice not later than the 20th.

Endowment of Athletics

The endowment of athletics is again being agitated. This time it is by the University of Chicago.

It is doubtful if such endowment will foster amateurism. It is practical only for the large colleges. More, it is doubted by many whether it will not tend to make greater the evil which it aims to overcome.

Football Songs

Never before has there been as many football songs composed and sung, as this year. Many of them had real merit too. This is as it should be. A college without songs and yells is no college, and the football season is one time to practice them. The one memory that is clearest, and binds strongest to the alma mater, is that of the old college songs and yells.

LITERARY CHAT

The November number of Items of Interest, one of the leading dental journals of the United States, contains a very elaborate article on the effects of mouth breathing, by Dr. William J. Brady. The article is illustrated with twenty-two cuts. It is one of the most complete reviews of the subject yet published, and is attracting much attention in the dental world, as it is both original and

authentic. From the progress shown in this work, Dr. Brady will undoubtedly soon rank among the leaders of orthodontia.
